OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

Mr. Jack Orman  
Bengal Products, Inc.  
13739 Airline Highway  
Baton Rouge, LA 70817

Dear Mr. Orman:

Subject: Bengal Roach Spray  
EPA Reg. No. 68543-1  
Submission dated 7/31/07

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

In accordance with information about the flash point/flame extension provided on the confidential statement of formula, revise the physical and chemical hazards statements as follows:

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. Do not use this product around electrical equipment due to the possibility of shock hazard.

Delete the following heightened efficacy claims:

The powerful flushing action drives insects out of hiding and kills them

The dry powerful spray penetrates deep into cracks and crevices to drive roaches out to die.

No Roaches

Delete the following safety claim:

Dry clean spray

Delete the claim that this product is "innovative." It has been registered since 1986.

Revise the ventilation claim as follows:

Ventilate area thoroughly before re-entry

Revise the claims to treat dogs and cats as follows:  
Also treat dogs and cats with a registered flea and tick control product....

Under the Directions for Use, place a subheading "Use Restrictions". Relocate the following revised statements under this subheading:

Flammable. Turn off all ignition sources such as pilot lights, other open flames or running electrical appliances that cycle off and on (i.e. refrigerators, thermostats, etc) in and around the area being treated.

Never leave container in parked or unattended vehicles. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used according to label directions. Follow the Directions for Use and Precautionary Statements on this label very carefully.

Do not use in commercial food processing or preparation. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover aquariums before using.

Revise the second statement under the Hazards to Humans as follows:  
Do not breathe vapors.

Delete flushing claims. You must submit data or other justification to support flushing claims.

The confidential statement of formula (CSF) dated 5/25/95 and redesignated as the basic formula, referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below.

You must submit for the record justification for the wider certified limits, in accordance with the attached product chemistry review.

A copy of the basic CSF been placed in the file jacket for this registration. It supercedes all previous basic CSFs.

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

*for Ann Sibold*

KEEP OUT OF REACH OF CHILDREN

See Back Panel for Additional Precautionary Statements

Net Weight \_\_\_\_\_ oz. ( \_\_\_\_\_ grams)

Bengal Roach Spray's flushing action forces insects out of hiding.

No unpleasant odor.

Dry clean spray leaves no mess.

Innovative Dry Spray

No odor. No Mess. No Roaches.

The dry powerful spray penetrates deep into cracks and crevices to drive roaches out to die.

Powerful flushing action drives insects out of hiding and kills them.

Kills insects you see and those you don't.

Dry Spray carries the killing ingredient to the roaches.

**GUARANTEE:** If you are not completely satisfied with this Bengal Product, call 225-753-1313 weekdays 8:30am - 4:00pm Central Time.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use in Households, Schools, Warehouses, Office Buildings, Theaters, Garages, Hotels, Motels, and Kennels

## ATTACH EXTENSION TUBE TO SPRAY ACTUATOR:

**TO KILL COCKROACHES, ANTS AND CRICKETS:** Spray on floors along baseboards in the kitchen and baths. Special attention should be paid to areas around refrigerators and entry points such as doors, windows, vents, pipes, etc.

**TO KILL FLYING INSECTS (mosquitoes, houseflies and gnats):** Close space to be treated. Spray above head with a sweeping arm motion 3 feet from surfaces. Spray 10 seconds per 1000 cubic feet of space. Keep treated areas closed for at least 30 minutes after spraying. Ventilate area before re-entry.

**TO KILL SOWBUGS, CENTIPEDES, SILVERFISH, FIREBRATS AND SPIDERS:** Contact as many insects as possible with the spray. Also thoroughly spray all parts of the rooms suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks and behind refrigerators.

**TO KILL FLEAS AND BROWN DOG TICKS:** Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames and local areas of floors.

**DO NOT SPRAY ANIMALS.** Old bedding should be removed and replaced with fresh clean bedding after treatment. Also treat dogs and cats with a flea and tick control product before allowing them to enter the treated area.

**Flammable.** Turn off ALL ignition sources such as pilot lights, other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.) in and around the area being treated.

## CAUTION

### PRECAUTIONARY STATEMENTS PHYSICAL AND CHEMICAL HAZARDS

Flammable. Contents under pressure. Do not use or store near heat or open flame. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Never leave container in parked or unattended vehicles. This product contains a highly

3/4

flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

### HAZARDS TO HUMANS

Harmful if swallowed or absorbed through the skin. Avoid breathing of vapors. Avoid contact with skin. Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds, and cover aquariums before using.

### FIRST AID

#### IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 - 20 minutes.
- Call a physician or poison control center for treatment advice.

#### IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

#### IF SWALLOWED:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

### STORAGE AND DISPOSAL

**Storage:** Store in a cool area away from heat or open flame.

**Disposal:** Do Not Puncture or Incinerate!

**If empty:** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions.
