OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Mr. Jack Orman
Bengal Products Inc.
13739 Airline Highway
Baton Rouge, LA 70817

JAN - 7 2013

Dear Mr. Orman:

Subject: Amendment: Add marketing claims, and
Reinstate inadvertently omitted directions for use
Bengal Wasp & Hornet Killer 93
EPA Reg. No. 68543-8
Your submission dated October 4, 2012

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) section 3(c)(7)(a), is acceptable and a stamped copy of the label is enclosed for your records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions regarding this letter, please contact Dana Pilitt, PhD of my staff at (703) 305-7071 or via e-mail at pilitt.dana@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gebken".

BENGAL WASP & HORNET KILLER 93

[] Denotes Optional Wording:

[This product can be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors on Wasp, Hornet, and Yellow Jacket nests.]

[Ready-to-Use

Reaches nests more than 20 feet above ground

Dielectric Breakdown Voltage: 57.2 KV by ASTM Test Method D-877-87

Guaranteed to work or your money back

Money Back Guarantee

57,200 volt dielectric strength

Non-Conductive

20' Blast

Sprays Up To 20 feet

This product should be used outdoors on wasp and hornet nests

Kills on Contact]

ACCEPTED
JAN - 7 2013
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 68543-8

ACTIVE INGREDIENTS:

Tetramethrin.....	0.200%
Phenothrin.....	0.125%
OTHER INGREDIENTS*.....	99.675%
TOTAL.....	100.000%

*Contains petroleum distillate

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Contains petroleum distillate - vomiting may cause aspiration pneumonia.
For information regarding medical emergencies or pesticide incidents, call 1-800-222-1222. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Net Weight _____ oz. [_____ grams]

[UPC bar code]

EPA Reg. No. 68543-8
EPA Est. No. (P) 11623-GA-1, (A) 58996-MO-1
Prefix corresponds to first letter of lot code.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present, or to inter-tidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Spray in upright position. Inverting can while spraying may lower can pressure and cause reduced spray distance and performance.

USE RESTRICTIONS:

- Do not apply this product in a way that will contact adults, children, or pets, either directly or through spray drift.
- Do not enter or allow others to enter the treated areas until sprays have dried.

- Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not use in commercial food/feed processing, preparation, storage, or serving areas.
- Remove pets and birds and cover fish aquariums before spraying, and turn aquarium systems off.
- Do not water treated area to the point of run-off. Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice and wasp and hornet nest treatments only.
- All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

For Control of Nests of Wasps, Yellow Jackets and Hornets: The best time to spray the nest is in the early morning or early evening when the air temperature is cooler, most insects are in the nest, and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest. Do not stand directly under the nest. Hold container upright at arms length and point the actuator at the nest. First spray the opening of the nest. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Wait 48 hours before removing the nest. Hose off foliage of desirable plants contacted with spray.

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Test in an inconspicuous area and re-check in a few hours before using in areas where spray may contact these surfaces. Avoid contact with leaf surfaces of growing plants.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling: Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container.

If Empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions.
