P.O. Box 18993
Memphis, TN 38118

JAN 15 2003

Subject: Submission of an Amendment fo First Aid and Disposal Statements per Pr Notice
2001-1 and 2001-6.

Product Name: Elite Flea and Tick Spray #8
EPA Reg. Number: 68688-30
Date of Submission: October 21, 2002

Dear Jean Butler;

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable subject to the comments listed below.

1. Page 1 of label, 3rd. column; Precautionary Statements, subtitle "Animals"; Change the statement "~~Avoid treatment of foals, nursing kittens and puppies under 12 weeks old.~~" to **"Do not treat foals, nursing kittens and puppies under 12 weeks old."**
2. Page 2 of label, 2nd. column; Immediately under Storage and Disposal; Change the statement "In case of emergency or for product use information...." to state "For Product use information call (901) 362-1950," Emergency contact numbers should be available 24 hours, 7 days/week.

Three copies of the finished labeling must be submitted prior to releasing the product for shipment. If you have any questions, you may contact Richard J. Gebken, at (703) 305-6701.

Sincerely,

Joseph Tavano

WARNING**

**SEE BACK PANEL FOR
PRECAUTIONARY STATEMENTS**

**MANUFACTURED BY:
SPEER PRODUCTS, INC.
P. O. Box 18993
Memphis, TN 38181-0993**

**EPA Est. No. 11715-TN-1
EPA Reg. No. 68688-30**

**READ ENTIRE LABEL BEFORE EACH
USE**

**USE ONLY ON CATS, KITTENS, DOGS,
PUPPIES, HORSES AND FOALS**

DIRECTIONS FOR USE

It is a violation of Federal Law to use this
product in a manner inconsistent with its
labeling..

**USE ONLY IN WELL VENTILATED
AREA**

CATS AND DOGS: Cover animal's eyes
with hands. With a firm stroke to get a proper
spray mist, spray head, ears and chest until
damp. With fingertips, rub into face around
mouth, nose and eyes. Then spray neck,
middle and hind quarters, finishing legs last.
For best penetration of spray to the skin, direct
spray against the natural lay of the hair. On
long haired dogs, rub your hand against the lay
of the hair, spraying the ruffled hair directly
behind the hand. Make sure spray thoroughly
wets ticks. Repeat every week, if needed.

Consult a veterinarian before using this
product on debilitated, aged, pregnant or
nursing animals, or animals on medication.

PUPPIES AND KITTENS: Treat same as
cats and dogs except nursing puppies and
kittens. Spray only along back or on your
fingertips and rub in.

**Do not use on puppies and kittens under 12
weeks of age.**

PETS SLEEPING QUARTERS: Spray
around baseboards, windows, door frames,
wall cracks and local areas of floors. If
mosquitos, gnats or flies are present, spray
lightly into the air. Repeat as needed. The
pets bedding should be sprayed, making sure
the area beneath the bedding is sprayed. After
spray has dried, remove old bedding and
replace with fresh bedding. Treat pets with
one of our registered Flea & Tick control
products before allowing them to enter treated
area.

HORSES AND FOALS:

(Horses & Foals Not For Slaughter)

Use full strength to control stable flies, horse
flies, deer flies, face flies, gnats and mosquitos.
Apply to face, legs, flanks, top line and other
body areas commonly attacked by these flies.
Do not wet horses skin with excessive spray.
After the application, brush thoroughly to
bring out the sheen on the coat. Repeat
treatment as needed.

**HOLD BOTTLE IN UPRIGHT POSITION
WHEN SPRAYING**

PRECAUTIONARY STATEMENTS

WARNING

**HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

HUMANS: Causes eye and skin irritation.
Do not get in eyes, on skin, or on clothing.
Harmful if swallowed or inhaled. Avoid
breathing mist. Keep out of eyes. Avoid
contamination of food. Wash hands with soap
and water after using.

ANIMALS: Avoid treatment of foals, nursing
kittens and puppies under 12 weeks old.
Sensitivities may occur after using ANY
pesticide product for pets. If signs of
sensitivity occur, bathe your pet with mild soap
and rinse with large amounts of water. If signs
continue, consult a veterinarian immediately.

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**ACCEPTED
with COMMENTS
in EPA Letter Dated:
JAN 15 2003
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,

HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-757-4943 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Keep away from heat and open flame. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

STORAGE AND DISPOSAL

STORAGE: Do not use or store near heat or open flame.

DISPOSAL: **If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

In case of emergency or for product use information call (901) 362-1950, Monday - Friday, 7:30 AM - 4:30 PM, CST (distributors may elect to use their own phone numbers).

DIRECTIONS FOR LIQUID DISPENSING COMB

KILLS FLEAS, TICKS, AND LICE ON CONTACT

The teeth of the comb are made of a porous nylon fiber much like a felt-tip pen. By simply combing your pet, the special flea and tick killing liquid saturates the comb's sturdy teeth and coats the animal's skin, fur and hair killing fleas and ticks on contact. This special liquid also contains agents to help keep your pet's coat smooth and shiny so your pet benefits from a healthy grooming, too. Comb is safe and gentle to be used daily.

DIRECTIONS FOR USE

Remove plug. Holding comb level, slowly add liquid through filling hole until wick is visibly damp. Do not overfill. Replace plug and allow a few minutes for teeth to become moistened. Comb pet thoroughly with a slow grooming motion. Be sure that both tips and sides of the teeth contact the skin, inner fur and hair. For pets with thick fur, groom by pushing back fur and combing around the roots. After use, wipe teeth gently with a dry paper towel or tissue. Store in a sealed plastic bag.
