**PRECAUTIONARY STATEMENTS
CAUTION**

Hazards to Humans and Domestic Animals

HUMANS: Harmful if swallowed or inhaled.
Avoid breathing mist. Keep out of eyes. Avoid
contamination of food. Wash hands with soap and
water after using.

ANIMALS: Do not use on animals under 12 weeks
of age. If treatment is necessary, spray on tips of
fingers and rub coat. Sensitivities may occur after
using ANY pesticide product for pets. If signs of
sensitivity occur, bathe your pet with mild soap and
rinse with large amounts of water. If signs
continue, consult a veterinarian immediately.

ENVIRONMENTAL HAZARDS: This product
is toxic to fish. Keep out of lakes, streams, ponds,
tidal marshes and estuaries. Do not apply where
runoff is likely to occur. Do not contaminate water
when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS:
Flammable. Keep away from heat and open flame.

DIRECTIONS

It is a violation of Federal Law to use this product in
a manner inconsistent with its labeling.

**USE ONLY IN WELL VENTILATED AREA
HOLD BOTTLE IN UPRIGHT POSITION
WHEN SPRAYING**

**Do not use this product in or on electrical
equipment due to the possibility of shock hazard.**

CATS AND DOGS

Cover animal's eyes with hands. With a firm stroke
to get a proper spray mist, spray head, ears and chest
until damp. With fingertips, rub into face around
mouth, nose and eyes. Then spray neck, middle and
hind quarters, finishing legs last. For best
penetration of spray to the skin, direct spray against
the natural lay of the hair. On long haired dogs, rub
your hand against the lay of the hair, spraying the
ruffled hair directly behind the hand. Make sure
spray thoroughly wets ticks. Do not repeat
treatment for one week. Consult a veterinarian
before using this product on debilitated, aged,
pregnant or nursing animals, or animals on
medication.

PUPPIES AND KITTENS

Treat same as cats and dogs except spray only along
back or on your fingertips and rub in.

PETS SLEEPING QUARTERS

Spray around baseboards, windows, door frames,
wall cracks and local area of floors. Repeat as
needed. The pets bedding should be sprayed,
making sure the area beneath the bedding is
sprayed. After spray has dried, remove old bedding
and replace with fresh bedding. Treat pets with one
of our registered Flea & Tick control products
before allowing them to enter treated area.

HORSES AND FOALS

Use full strength to control stable flies, horse flies,
deer flies, face flies, gnats and mosquitoes. Apply to
face, legs, flanks, top line and other body areas
commonly attacked by these flies. Do not wet
horses skin with excessive spray. After application,
brush thoroughly to bring out sheen on the coat.
Repeat treatment only as needed.

FIRST AID

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF SWALLOWED: Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

IF INHALED: Remove victim to fresh air. Get medical attention.

few minutes for teeth to become moistened. Comb pet thoroughly with a slow grooming motion. Be sure that both tips and sides of the teeth contact the skin, inner fur and hair. For pets with thick fur, groom by pushing back fur and combing around the roots. After use, wipe teeth gently with a dry paper towel or tissue. Store in a sealed plastic bag.

In case of emergency or for product use information call (901) 362-1950, Monday - Friday, 7:30 AM - 4:30 PM, CST (distributors may elect to use their own phone numbers and hours of operation).

STORAGE AND DISPOSAL

STORAGE: Do not use or store near heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Directions for Liquid Dispensing Comb KILLS FLEAS, TICKS, AND LICE ON CONTACT

The teeth of the comb are made of a porous nylon fiber much like a felt-tip pen. By simply combing your pet, the special flea and tick killing liquid saturates the comb's sturdy teeth and coats the animal's skin, fur and hair, killing fleas and ticks on contact. Comb is gentle enough to be used every 3 or 4 days.

DIRECTIONS FOR USE

Remove plug. Holding comb level, slowly add liquid through filling hole until wick is visibly damp. Do not overfill. Replace plug and allow a
