DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Auto-Mist 3 contains a highly effective insecticide designed especially for use in automatic dispensers. The dispenser activates the metered valve every 15 minutes. Usually the effectiveness of Auto-Mist 3 will be noticeable within one hour after the dispenser is activated. If less than 24 hour control is required the dispenser should be set to start one hour before control is desired and run one hour after control is no longer needed. Keep in mind that such factors as air flow rate, size of space treated, humidity and room temperature all affect insect activity and control. Therefore, one unit per 6,000 cubic feet should be considered as an average need with adjustments made depending on specific conditions at place of usage. As with any method of insect control, best results are achieved when sanitation and other positive insect prevention practices are followed.

KILLS

Flies, Mosquitos, Gnats and small Flying Moths.

FOR USE IN

Food handling and food preparation areas of restaurants and food processing plants and in stores, farms, dairies, barns, kennels, factories, schools, hotels, motels, offices, ships, planes, supermarkets, food warehouses, bottling plants, hospitals, nursing homes, day care centers, egg and milk handling areas of dairies and chicken houses. **DO NOT USE IN AIRCRAFT CABINS.**

When used in food handling or food preparation areas of restaurants and food processing plants, food must be removed or covered during treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
