PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER

Corrosive causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Remove contaminated clothing and wash before reuse. Wear goggles or face shield and rubber gloves when handling this product. Wash thoroughly with soap and water after handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT:

In case of contact immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call physician. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Do not discharge effluent into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your Region Office of the Environmental Protection Agency.

STORAGE AND DISPOSAL:

This product must be kept under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL:

Pesticide spray mixture or waste water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL:

Triple rinse (or equivalent). Then offer for recycling of reconditioning or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

GENERAL:

Consult federal, state, or local disposal authorities for approved alternative procedures such as limited open burning.

A BROAD SPECTRUM BACTERICIDE AND FUNGICIDE

FOR USE IN METAL WORKING FLUID AND OTHER PRESERVATIVE APPLICATIONS.

ACTIVE INGREDIENT:
Hexahydro-1,3,5-Tris(2-hydroxyethyl)-s-triazine.....78.5%
INERT INGREDIENTS.....21.5%

KEEP OUT OF REACH OF CHILDREN

DANGER

See Additional precautionary statements on left panel.

P.O. BOX 1002
Cranford, New Jersey 07016

METAL WORKING

Surcide P is a microbicide designed for use in the manufacture of metal working, and/or for use in existing systems which use metal working fluids. Surcide P controls and/or inhibits the growth of bacteria and/or fungi in industrial products such as soluble emulsion, semi-synthetic and synthetic cutting fluids, hydraulic fluids and chemical coolants. Surcide P can be added with minor agitation directly to the concentrate or the make-up fluid. In both instances the final concentration of Surcide P should be 0.10 - 0.15%.

ADDITION RATES CONCENTRATE

Add Surcide P to the concentrate to result in 0.10-0.15% in the final use dilution (0.8 - 1.2 pints per 100 gallons of diluted fluid). This dilution provides 800-1100 ppm active.

MAKE-UP FLUID (DILUTED FLUID)

Add Surcide P directly to the make-up fluid (diluted fluid) to result in a concentration of 0.10 - 0.15% (add 0.8-1.2 pints per 100 gallons of diluted fluid). Redose every 4 weeks or when the system emits foul odors.

For best result drain and clean the system before adding fresh cutting fluid, or when the cutting fluid fails (split emulsion).

COMMERCIAL AND INDUSTRIAL PRESERVATIVE

Surcide P can be used for the preservation of laundry detergents, fabric softeners, st. finishes, window cleaners, printing inks, surfactant/detergent solutions (not intended to come in contact with food), glues and adhesives (for non-food use applications only) and starch suspensions used to make corrugated boxes (for non-food applications only). To control microbial spoilage, add Surcide P directly to the manufacturing batch with minor agitation to result in a final concentration of 0.05-0.20% (add 0.4-1.8 pints per 100 gallons of product). This dilution provides 400-1550ppm active Surcide P.
