Subject: Amended Reregistration Label
Product Name: Davis Flea & Tick Mist
EPA Registration Number: 69061-6
EPA Decision Number: 411783, 414110, 410234

Dear Mr. Reynolds:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the pyrethrins, MGK 264, MGK 326, and PBO REDs, and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any CSFs other than those listed below are superseded.

- Basic CSF dated >>

02/15/12

A copy of your label is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new

revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Please note that, should you wish to add/retain a reference to the company's website on your label, the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under section 12 (a)(1)(E) of FIFRA. 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not be substantially different from those claims approved through the registration process. Therefore, should the Agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially different from the EPA-approved registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance (OECA). As an alternative, you may refer consumers to the company's phone number or e-mail address.

If you have any questions about this letter, please contact Gene Benbow at 703-347-0235 or benbow.gene@epa.gov.

Sincerely,

Richard J. Gebken
Product Manager (10)
Insecticide Branch
Registration Division (7504P)

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION

HUMANS: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long sleeved shirt, long pants, shoes and socks. User should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. User should remove clothing immediately if pesticide gets inside. Then wash thoroughly and change into clean clothing. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ANIMALS: Do not apply directly to or on eyes, mouth or genitalia of animals. Do not use on puppies, kittens or foals less than 12 weeks old. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals, or animals on medication. If treatment is necessary, spray on tips of fingers and rub coat. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

ANIMAL QUARTERS: For use in companion animal quarters only, do not broadcast outdoors. Remove animals from quarters before treating premises.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment, washwater, or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Keep away from heat and open flame. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR ON CLOTHING: Take off contaminated clothing. If you suspect a reaction to this product, discontinue use. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the International Poison Center at 1-888-740-8712 for emergency medical advice.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS, CATS, PUPPIES, KITTENS, HORSES AND FOALS

DO NOT USE ON HORSES OR FOALS INTENDED FOR SLAUGHTER

DO NOT APPLY OVER CUTS, WOUNDS OR IRRITATED SKIN

DO NOT APPLY NEAR EYES AND MOUTH. APPLY SPARINGLY AROUND EARS

USE ONLY IN A WELL VENTILATED AREA

HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING

Cats & Dogs: Cover animal's eyes with hands. With a firm stroke to get a proper spray mist, spray head, ears, and chest until damp. With fingertips rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing with the legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. **Do not reapply product for three days.**

Puppies & Kittens: Spray only along the back or on your fingertips and rub in.

Horses: Use full strength to control stable flies, horse flies, deer flies, face flies, gnats and mosquitoes. Apply to face, legs, flanks, top line and other body areas commonly attacked by these flies. Do not wet horse's skin with excessive spray. After application, brush thoroughly to bring out sheen on coat. Repeat treatment as needed. Not for use on horses intended for food.

Pet's Sleeping Quarters: Spray around the baseboards, windows, door frames, wall cracks and local floor areas. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed making sure the area beneath the bedding is sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with Davis Flea & Tick Mist or one of our other registered Flea & Tick control products before allowing them to enter treated areas.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool area.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
