RE: **EPA File Symbol 69268-3
H₂Orange₂ 120 Ready To Use
Your Amendment Dated 6/1/2001
Correction to EPA Letter and Label Dated 6/27/2001**

This letter provides a stamped copy of the correct version of the accepted label. The label we are accepting shows a label version date of 5/31/01 at the top of each page. The label version we incorrectly stamped and sent with our letter dated 6/27/2001, lists label version 3/1/01.

Note that with this master label, any sub-labels and alternate brand name labels (ABNL's) which contain the bacteria and virus claims containing an asterisk (*) on this label, must also contain the entire list of accepted bacteria and viruses currently shown on page two of this three page label. Furthermore, all sub-labels and ABNL's must contain all required elements of a standard pesticide label (eg., Signal Word, Precautionary Statements, active ingredient declaration, Storage and Disposal, Use Directions, special HIV instructions if listing HIV claims, etc.).

If you have any questions please feel free to contact Tony Kish at 703-308-9443, or myself at 703-308-6341.

Sincerely,

Marshall Swindell,
Product Manager Team 33,

EPA Reg. No. 69268-3

EPA Est. No. 69268-IL-001

ENVIROX, LLC.
MAPLE GROVE ROAD
GEORGETOWN, IL 61846

NET CONTENTS: 1 gallon, 32 oz, or 22 oz

This product is not to be used as a terminal sterilant/disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

3/4

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMAN AND DOMESTIC ANIMALS

Caution. Causes moderate eye irritation. Harmful if swallowed, absorbed through skin, or inhaled. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food.

FIRST AID

IF IN EYES: Hold eyelids open and flush with a steady gentle stream of water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then, continue rinsing eye. Get medical attention.

IF ON SKIN: Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air. If not breathing, call 911 or an ambulance, then, give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL: IN CASE OF SPILL: Clean up immediately. Place leaking container in well ventilated area. To clean up spill, flush area with large quantity of water. Avoid run-off into storm sewers and ditches leading to natural waterways.

STORAGE: Keep out of the reach of children. Do not contaminate water, food, and or feed by storage. Avoid freezing conditions. Avoid high temperatures. Do not exceed storage temperatures of 95°F. Best storage temperatures are between 35°F and 85°F

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty container. Do not reuse empty containers. Leave empty plastic bag in original box and discard in trash, sanitary landfill or by incineration, or if allowed by State and Local Authorities, by burning. If burned stay out of smoke.

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

H₂Orange₂ 120 (Ready to Use), when used as directed as a sanitizer, kills 99.9% or more of the following: ***Staphylococcus aureus*** (ATCC 6538), ***Salmonella choleraesuis***, (ATCC 10708), ***Klebsiella pneumoniae*** (ATCC 4352), ***Pseudomonas aeruginosa*** (ATCC 15442), ***Streptococcus faecalis*** (ATCC 19433), and ***Escherichia coli*** (ATCC 25922). When used as directed as a virucide, **H₂Orange₂ 120 (Ready to Use)** kills the following viruses in 5 minutes or less at room temperature (20+/-1°C): **Influenza A₂/Japan**, and **HIV-1 (Human Immunodeficiency Virus)**. When used as a fungicide, **H₂Orange₂ 120 (Ready to Use)** kills ***Trichophyton mentagrophytes*** in 5 minutes.

For General Household Cleaning: Hold 6 to 8 inches from surface, spray soiled surface and scrub or wipe with dry paper towel or lint-free cloth. No rinse is required. For heavy soils and stain removal let sit a few minutes before scrubbing. Removes food grease and stains, fingerprints, soap scum, pencil/crayon marks and general household soils. Use additional solution as needed to complete cleaning. Use on any household surface that is water safe. On delicate fabrics test a small area before cleaning. **Renovation Cleaning:** Spray surface, let sit for 5 to 10 minutes, then, scrub or wipe clean. Rinse released soils with clean water. **To Clean Mold & Mildew Stains:** Apply liberally, let sit five (5) minutes, then, scrub or wipe clean.

To use as a sanitizer, fungicide and virucide in bathrooms: Use the **H₂Orange₂ 120 (Ready to Use)** for sinks, faucets, counters, urinals (non-water covered surfaces), toilets (non-water covered surfaces) and all hand contact surfaces as well as walls, stalls and floors where urine and soils build up. Follow instructions for inanimate, hard, non-porous surfaces. Allow surface to remain wet for 5 minutes, then, either allow to air dry or wipe dry to remove excess liquid. Heavily soiled surfaces should be pre-cleaned with the same solution.

To use as a sanitizer, fungicide and virucide on inanimate, hard, non-porous surfaces: Apply the **H₂Orange₂ 120 (Ready to Use)** solution liberally to pre-cleaned hard surfaces, with a spray bottle, pump up pressure sprayer using a coarse spray, cloth, sponge or mop. Allow surface to remain wet for 5 minutes, then, either allow to air dry or wipe dry to remove excess liquid. Heavily soiled surfaces should be pre-cleaned with the same solution.

ACCEPTED

JUL 02 2001

Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 69268-3

4/4

HIV-1: To kill HIV-1 in 5 minutes at room temperature (20-25° C) on precleaned environmental surfaces/objects previously soiled with blood/body fluids use **H₂Orange₂ 120 (Ready to Use)** solution as is. For use in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surface/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type I (HIV-1 Associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (HUMAN IMMUNODEFICIENCY VIRUS OR AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

Personal Protection: Wear appropriate barrier protection such as latex gloves, gowns, masks or eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of **H₂Orange₂ 120 (Ready to Use)**

Contact time: The HIV-1 virus is inactivated in 5 minutes, with both organic load and when diluted in hard water (up to 400 ppm hardness).

Infectious Materials Disposal: Cleaning materials that may contain blood and other body fluids should be disposed of by autoclaving or as directed by the facility safety officer.

Deodorizing: For general deodorizing, use **H₂Orange₂ 120 (Ready to Use)** as is. Apply liberally to hard, non-porous surfaces to eliminate generally offensive odors. Apply to hard, non-porous surface thoroughly soaking for up to 10 minutes to eliminate odors due to spillage from medical dressings, and other spills such as urine or fecal matter; smoke or soot deposits, industrial plant processes, mildew and mold, to eliminate odors from bathrooms, kitchens, garbage containers, sickrooms and surfaces in musty closets.

CLEANING SOLUTION DILUTIONS & APPLICATIONS

H₂Orange₂ 120 (Ready to Use)

Streak free window, mirror and stainless steel cleaning
General floor cleaner for mopping & auto scrubbers
Bonnet cleaning solution for carpets
Light wipe down cleaner

Bathroom, shower room, tile & grout cleaner
Urine and garbage odor eliminator
Pre-spray for carpet extraction
General degreaser
Heavy soil wipe down cleaner
Heavy carpet spot remover
Cleans Mold & mildew stains
