

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

69268-4

Date of Issuance:

6/15/21

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

EnvirOx Storm

Name and Address of Registrant (include ZIP Code):

EnvirOx, LLC
1938 E. Fairchild Street
Danville, IL 61832

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Steven Snyderman, Product Manager 33
RMB2, Antimicrobials Division (7510P)

Date:

6/15/21

2. You are required to comply with the data requirements described in the DCI Order identified below:

- a. Hydrogen Peroxide: GDCI-000595-1127

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 69268-4.”
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 10/13/2020
- Alternate CSF 1 dated 10/13/2020

If you have any questions, please contact Perri Moeller by phone at (703) 347-8618, or via email at moeller.perri@epa.gov.

***Notes to Reviewer-**

(a) brackets [] indicate optional text.

(b) Commas are used to indicate that the text (after the comma) precedes the left-aligned first word (excepting when used in common statement "hard, nonporous"). For example, Mall[s], [Outlet] would include any of the following choices: Outlet Malls, Outlet Mall, Malls, or Mall.

(c) Braces { } are used to denote a text group to which the -and/or- applies (as are dashes). For example: {Not Recommended For Use On} -or- {Avoid Contact With} would be read as an -or- choice between the two phrases "Not Recommended for Use On" and "Avoid Contact With" phrasing.

(d) (*text) indicates the text is a note to reviewer.

(e) (**text) indicates text from another Table or list is to be inserted, as specified. It is understood that conjunctions, commas, capitals (or lower case), or dashes may be substituted, inserted or removed as appropriate for proper English or usage. Additionally, it is understood that a Table format is optional in presenting claims.)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

[Always refer to manufacturer's care instructions before using on equipment -or- devices.]

[A potable water rinse is required for food contact surfaces.] [Do not use on glassware, utensils or dishes.] [Do not use on direct food contact surfaces or food preparation equipment.]

[NOTE: Floors will be slippery when wet or contaminated with foreign materials.]

To [Clean][,] [and] Disinfect [and Deodorize] Hard, Nonporous Surfaces:

Pre-cleaning is required prior to [sanitizing] [or] [disinfecting].]

1. [Set trigger to SPRAY.] Spray 6-8 in[ches] from surface until surface is visibly wet.
2. Allow this product to penetrate soil and] {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label].}
3. Then [wipe off] [-or-] [Rinse.]
4. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. [If streaking is observed, wipe with a clean, damp [microfiber] cloth -or- paper towel].

For Use as a [Daily] [Bathroom] [Restroom] Cleaner [&] -or- [/] Disinfectant:

1. Pre-clean all surfaces.
2. Spray 6-8 in[ches] from hard, non-porous surfaces (until visibly wet).
3. [Allow this product to penetrate soil and] {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label].}
4. Wipe down surfaces or rinse. [If streaking is observed, wipe with a clean, [damp] [cloth] [microfiber cloth] [or] [paper towel]]. [Allow to air dry].

To Clean and Disinfect Bathtub, Shower Stalls and Other Large, Open Areas with Floor Drains:

1. Pre-clean all surfaces.
2. Spray 6-8 in[ches] from hard, non-porous surfaces of sealed floors, walls and ceilings. [Avoid over spraying.] To disinfect, {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label].}
3. Scrub using a deck brush or other coarse material as necessary.
4. [Simply] Rinse surfaces [thoroughly] -or- Wipe down surfaces and let air dry.

To Clean and Disinfect Toilet Bowls:

1. Pre-clean. all surfaces
2. Empty toilet bowl by forcing water through the trap. Spray 6-8 in[ches] from exposed surfaces in toilet bowls.
3. Swab entire surface area especially under the rim.
4. {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label].}
5. Flush toilet and rinse swab applicator thoroughly.

Animal Housing Facilities (Including Veterinary Clinics, Farms and Poultry Houses):

For cleaning and disinfecting the following hard, nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and animal feed from premises, including animal crates, quarters, and transportation.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities occupied or traversed by animals.
3. Empty (or cover) all troughs, racks, and other feeding and watering devices.
4. Visibly clean all surfaces with soap or detergent and rinse with potable water.
5. Saturate all hard, nonporous surfaces including floors, walls, empty cages and other water safe (washable) environmental surfaces by spraying with solution until visibly wet. To disinfect, {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label].}
6. Immerse objects such as forks, shovels, and scrapers used for removing litter and manure directly into solution.
7. Ventilate buildings and other enclosed spaces. Do not re-house animals or utilize equipment until treatment has been completed.
8. For disinfection of feed racks, troughs, automatic feeders, fountains and water appliances (waterers) spray with solution (until visibly wet) and let remain visibly wet for 10 min[utes] or contact time listed [below] [or] [on label]. Then thoroughly scrub all treated surfaces with soap or detergent, and rinse with potable water before reuse.

To Disinfectant Hard, Non-Porous Surfaces of Non-Circulating Footbaths (pedicure foot spa equipment):

1. Drain the water [from] [equipment] [the unit] [foot spa] [foot bath] [basin] [bowl] and remove any visible debris.
2. Visibly clean hard, non-porous surfaces [with this product] then rinse with water and drain.
3. Apply: Spray 6-8 in[ches] from surfaces [of footbath].
4. Brush or swab thoroughly and {Allow surface to remain visibly wet for 10 minutes to kill Norovirus (Feline Calicivirus as surrogate), Poliovirus Type 1, Rhinovirus Type 37, and for 5 minutes to kill all other organisms cited on the label.} -or- {Allow surface to remain wet for 10 min[utes] or contact time listed [below] [or] [on label].}
5. Rinse all [cleaned] [treated] surfaces with fresh water and drain [the rinse water].

For use as a Non-Food Contact Sanitizer on Hard Non-Porous Surfaces:

Pre-clean all surfaces.

1. Spray 6-8 in[ches] from hard, non-porous surface [until thoroughly wet].
{-or-}
Apply [product] with a trigger sprayer to completely wet hard non-porous surfaces.
2. Allow to remain visibly wet for 30 seconds.
3. Wipe [clean] [off] [dry] [and] [or] [rinse]. [No rinsing is required.] For all surfaces to be treated, a pre-cleaning is required.

To Clean [and] [or] Deodorize:

Directly spray onto hard, non-porous surface to completely wet, and wipe [clean] [dry] [off] [and] [or] allow to air dry. [For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate before wiping.]

To [Clean] [and] Remove Soap Scum:

Spray on surface [soap] [scum] and [simply] wipe off [with a dry paper towel] [or] [microfiber] [cloth] [or] [sponge]. [No rinse is necessary]. [For best results, use a lint-free or microfiber cloth.] Repeat for visibly soiled areas. [For visibly soiled areas, allow product to penetrate before wiping.] [For best results] [use regularly to prevent dirt and soap scum build up].

To Spot Clean: Spray and wipe clean with damp sponge or cloth. [Test product in an inconspicuous area.]

To Clean Hard [Non-Porous] [Water safe] Surfaces [and] [or] [Small Areas of Floors]: Spray soiled area, then wipe clean.

Non-living Allergen Destruction

To Clean and Destroy Specified Non-living Allergens: Spray, allow surface to remain visibly wet for 5 minutes, and wipe [off] [clean] [dry]. [Allow to air dry] [or] [rinse]. [If streaking is observed, wipe with a clean, damp cloth or paper towel.]

Non-living Allergens:

- Cockroach matter -or- particles
- Dust mite matter -or- particles
- Pet dander -or- dog and cat dander

To Spot Clean Carpet

[Test product in an inconspicuous area prior to use.] [Blot to remove excess material prior to treatment.] Spray a light even coating [from 6 – 8 inches above] on soiled area of the carpet until damp. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains). Rinse with water. Let air dry. Vacuum. [For best results, treat carpet before [soil] [or] [stain] dries.]

To Disinfect Food Processing Premises: Floors, Walls and Storage areas.

This product is not a Food Contact Sanitizer. Food products and packaging materials must be removed or carefully protected prior to using this product. This product is not intended for use on direct food contact surfaces or food preparation equipment **as a sanitizer**. [Direct food contact surfaces and equipment must be rinsed off with potable water and further sanitized with an FDA approved Food Contact Sanitizer prior to re-use.]

1. Pre-clean all surfaces.
2. Hold container 6-8 inches from the surface to be treated and spray area until it is covered with the solution.
3. Allow this product to penetrate and remain visibly wet for 10 min[utes] or the contact time listed [below] [on the label]
4. Wipe off with a clean cloth, mop or sponge and visibly rinse all surfaces in the area with potable water.

Blood Borne Pathogens Special Instructions for Use Against HIV-1 and HBV

This product kills HIV-1 and HBV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids. [Pre-clean surface.] [Follow your facility's written Blood Borne Pathogen Program and Procedure when using this product, take those precautions and don all the required PPE.] [When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings as appropriate.] Spray to saturate surface with product and allow surface to remain visibly wet for a minimum of 5 minutes [for HBV] [and 30 sec(onds) for HIV-1] prior to wiping off. The contact times for other bacteria, viruses, and fungi may differ. See product label for contact times. [Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.]

(*Note to reviewer- The following statement and directions only to be used on institutional labels with medical use sites with medical devices.)

Medical Device Disclaimer

This product is not to be used as a terminal sterilant or high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. **This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.**

To Preclean Instruments Prior to Terminal Sterilization or High-Level Disinfection:

First, visibly pre-rinse dirty instruments under running water to remove visible, gross debris.

1. Place instruments into a suitable container.
2. Spray this product onto instruments to visibly wet all surfaces.
3. Let remain visibly wet [for] 10 min[utes].
4. Rinse instruments. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Disinfect Non-Critical, Precleaned Instruments:

Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. [Clean and rinse lumens of hollow instruments.] Spray visible surfaces of lumens with this product. Only clearly visible surfaces of instruments can be pre-cleaned with this product.

1. Pre-clean all surfaces.
2. Spray all surfaces of instruments with this product until visibly wet. Let stand [for] 10 min[utes] at room temperature. Surfaces must remain visibly wet for the entire contact time.
3. Wipe with a clean, damp cloth or paper towel and allow to air dry.

[Tables]

When used as directed, this product is suitable for cleaning and disinfecting [and of] the hard, non-porous use surfaces:
(Insert any from Table 1.)

Table 1. Use Surfaces	
Air Vent[s] [Exteriors], [Exterior] [External] [Surfaces of]	Charging Stations

This product has been tested, and has demonstrated compatibilities with many materials. It is suggested that the product be applied in an inconspicuous area to determine compatibility prior to use. This product, when used as directed, is suitable for use on most hard, non-porous use surfaces. Avoid using on the following materials: zinc, bronze, tin, silver, porous stone surfaces, unsealed granite, and unsealed marble.

[When used as directed, this [broad spectrum disinfectant] product is effective against bacteria and viruses, on hard, nonporous surfaces.] (Any of the following optional claims may be made.)

Table 3. Antimicrobial Claims
30 sec[ond] sanitizer [against] [{S[taphylococcus] aureus} -and/or- { K[lebsiella] pneumoniae}] [on hard nonporous surfaces] <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
Antibacterial
Bacteria -and/or- virus -or germ fighting formula <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in the text)</i>
Bactericidal -or- Bactericide
Breaks Down non-living Allergens[!]
Broad spectrum [hospital] disinfectant [& virucidal] [cleaner] when used according to disinfectant directions <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in the text)</i>
Broad spectrum efficacy; kills <i>(insert number of different organisms from Table 4)</i> pathogens -or- germs <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
Can help reduce cross-contamination between treated surfaces
Clean -and/or- disinfect when used according to disinfectant directions
Clean -and/or- disinfect on the go when used according to disinfectant directions
Cleaner and [broad spectrum] disinfectant [and virucide] when used according to disinfection directions
Cleans , disinfects and deodorizes when used according to disinfectant directions
Cleans [,] [and] disinfects [and deodorizes] when used according to disinfectant directions
Contains hydrogen peroxide
Deodorizes by disinfecting with the power of hydrogen peroxide when used according to disinfection directions
Designed for healthcare
Destroys -or- deactivates non-living dust mite matter -or- particles, cockroach matter -or- particles, and pet dander allergens [found in dust]
Destroys -or- Eliminates non-living Allergens[!]
Disinfecting formula
Disinfection technology
Disinfects [99.9% of] viruses which may cause cold and flu <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
Disinfects -and/or- deodorizes -and/or- kills -and/or- removes germs
Easy [,] [and] convenient disinfecting [and cleaning] [in one product]
Easy convenient disinfecting
Effective against [2009] H1N1 [Flu Virus]

Table 3. Antimicrobial Claims

Effective against the following Multidrug Resistant Bacteria [including] [CRE] [CA-MRSA] [ESBL] [MRSA] [VRE][KPCR] (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Effective against non-enveloped viruses of concern including Rhinovirus, Norovirus and Rotavirus (<i>note to reviewer - foot note will be used to specify surrogate organism used for Norovirus</i>)
Efficacy against the following MI[ulti] D[rug] R[esistant] Bacteria [including] [C[arbapenem] R[esistant] E[scherichia] [coli]] [C[ommunity] [-] A[ssociated] [-] M[ethicillin] R[esistant] S[taphylococcus] A[ureus]] [E[xtended] S[pectrum] B[eta-]L[actamase][s] [-] E[scherichia] coli] [M[ethicillin] R[esistant] S[taphylococcus] A[ureus]] [V[ancomycin]-]R[esistant] E[nterococci]] [C[arbapenem] R[esistant] K[lebsiella] pneumoniae]
This product was tested according to the AOAC Germicidal Spray Test method against bacteria {S[taphylococcus] aureus -and/or- P[seudomonas] aeruginosa -and/or- S[almonella] Enterica} in the presence of organic soil (5% blood serum) [in 5 minutes]
Eliminates odors leaving [restroom] surfaces smelling clean and fresh, [This Product] [also]
For healthcare facilities use
For hospital use
For terminal cleaning
Formulated with [patented] hydrogen peroxide technology
Germicidal spray (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Kills [99.9% of] bacteria (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Kills (<i>insert number of different microorganisms from Table 4</i>) pathogens
Kills [2009] H1N1 [Flu Virus]
Kills [99.9% of] Germs including [2009] H1N1 [Flu Virus]
Kills Acinetobacter baumannii [in 5 min][utes]
Kills and cleans when used according to disinfectant directions. (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Kills -and/or- [removes] [99.9% of] bacteria -and/or- germs -and/or- viruses from toys (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text and "germs" will be qualified with bacteria and/or viruses from Table 4</i>)
Kills -and/or- eliminates -and/or- disinfects -and/or- destroys -and/or- removes -and/or- gets rid of] bacteria -and/or- germs -and/or- viruses on (<i>insert use surface(s) from Table 1</i>)
Kills Avian Influenza A (H3N2) [Reassortment Virus] [in 5 min][utes]
Kills Avian Influenza A (H5N1) [in 5 min][utes]
Kills bacteria and viruses (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Kills bacteria listed on label in 5 min[ute]s
Kills C[arbapenem] R[esistant] E[scherichia] coli [in 5 min][utes]
Kills C[arbapenem] R[esistant] K[lebsiella] pneumoniae [in 5 min][utes]
Kills C[ommunity] A[cquired] -or- A[ssociated] M[ethicillin]-]R[esistant] S[taphylococcus] A[ureus] -or- (CA-MRSA) [Genotype USA 400] [in 5 min][utes]
Kills the [insert virus(es)] that may cold & flu

Table 3. Antimicrobial Claims

Kills Duck Hepatitis B Virus (Surrogate for Human Hepatitis B Virus (HBV)) [in 5 min][utes]
Kills E[nterococcus] faecalis [in 5 min][utes]
Kills E[scherichia] coli [in 5 min][utes]
Kills Extended-Spectrum Beta-Lactamase Producing E[scherichia] coli -or- (ESBL) [in 5 min][utes]
Kills Feline Calicivirus (Surrogate for Norovirus) [in 10 min][utes]
Kills Germs -and/or- 2009 H1N1 Virus that may cause the flu (note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4)
Kills H[epatitis] B V[irus] ([based upon] Duck Hepatitis B Virus surrogate) [in 5 min][utes]
Kills Herpes Simplex Type 1 [in 5 min][utes]
Kills Human Adenovirus Type 5 [in 5 min][utes]
Kills Human Coronavirus [in 5 min][utes]
Kills Influenza A (H1N1) [in 5 min][utes]
Kills K[lebsiella] pneumoniae [in 5 min][utes]
Kills L[isteria] monocytogenes [in 5 min][utes]
Kills M[ethicillin] R[esistant] S[taphylococcus] aureus -or- (MRSA) [in 5 min][utes]
Kills microorganisms on [hospital] hard, nonporous surfaces
Kills Norovirus ([based upon] Feline Calicivirus surrogate) [in 10 min][utes]
Kills odor-causing bacteria
Kills odor-causing bacteria in the kitchen -and/or- bathroom
Kills -or- Eliminates 99.9% HIV in 30 sec[onds][!]
Kills -or- eliminates 99.99% -or- disinfects -or- destroys -or- removes -or- gets rid of bacteria -and/or- germs -and/or- viruses in (<i>insert use site(s) from Table 2</i>)
Kills P[seudomonas] aeruginosa [in 5 min][utes]
Kills Poliovirus [Type 1] [in 10 min][utes]
Kills Respiratory Syncytial Virus (RSV) [in 5 min][utes]
Kills Rhinovirus Type 37 [in 10 min][utes]
Kills Rotavirus (WA) [in 5 min][utes]
Kills S[almonella] enterica [in 5 min][utes]
Kills S[higella] dysenteriae [in 5 min][utes]
Kills S[taphylococcus] aureus [in 5 min][utes]
Kills S[treptococcus] pyogenes [in 5 min][utes]
Kills V[ancomycin] R[esistant] E[nterococcus] faecalis -or- (VRE) [in 5 min][utes]
Kills Viruses listed on label [in 10 minutes or less]
Meets surface disinfection recommendations from OSHA Bloodborne Pathogen Standards.
Cleaning and disinfecting [against] [{S[taphylococcus] aureus} -and/or- {P[seudomonas] aeruginosa} -and/or- {[Salmonella] Enterica}] (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Cleaner and sanitizer when used according to sanitization directions (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)

Table 3. Antimicrobial Claims

Disinfectant cleaner when used according to disinfectant directions (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Penetrates and breaks down non-living dust mite matter -or- particles, cockroach matter -or- particles, and pet dander allergens [found in dust]
Proven disinfection technology
Ready to use disinfectant cleaner when used according to disinfectant directions
Reduces non-living Allergens[!]
Reduces dust mite matter -or- particles, cockroach matter -or- particles, and pet dander allergens [found in dust]
Removes soil [dirt] [grime] [mold] [food residue] [blood] [urine] [fecal matter] and other common soils found in [animal housing facilities] [grooming facilities] [kennels] [pet stores] [veterinary clinics] [laboratories] [small animal facilities]
Removes Soil [dirt] [grime] [mold] [food residue] [blood] and other organic matter commonly found in hospitals [in healthcare facilities] [on medical surfaces], [This product]
Sanitizes hard nonporous surfaces in 30 seconds[!] [against] [S[taphylococcus] aureus -and/or- K[lebsiella] pneumoniae] (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
Simply clean and disinfect when used according to disinfectant directions (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
This product cleans, disinfects and deodorizes hard, nonporous hospital -and/or- medical surfaces when used according to disinfectant directions. [with no rinsing required] (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
This product cleans, disinfects and deodorizes hard, nonporous surfaces in one step
This product is a [hospital-use] germicidal [disinfectant] cleaner and deodorant -and/or- odor neutralizer designed for general cleaning, [and] disinfecting [deodorizing] [of] hard, nonporous surfaces when used according to disinfectant directions (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text and ("germicidal" will be qualified with bacteria and/or viruses from Table 4)</i>)
This product is a ready to use [broad spectrum] [germicidal] [Virucidal] [disinfectant] cleaner and deodorizer designed for general cleaning [and] disinfecting -and/or- deodorizing [of] hard, nonporous surfaces (<i>note to reviewer - foot note will be used to specify applicable organisms if not directly in text</i>)
This product is designed specifically as a general [ready-to-use -and/or- non-abrasive] cleaner and disinfectant for use in[:] (<i>insert use site(s) from Table 2</i>)
This product is formulated to disinfect hard nonporous surfaces[:] [such as] [associated with] (<i>insert surfaces(s) from Table 1 Use Surfaces -and/or- Table 2 Use Sites</i>)
This product kills germs and destroys non-living allergens while cleaning hard, nonporous surfaces (<i>note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4</i>)
This product uses an oxidizing agent to provide disinfection
This product's non-abrasive formula is designed for use on -or- Use daily on -or- Use daily to clean and disinfect hard, nonporous surfaces[:] plated or stainless steel, chrome, glazed porcelain, glazed tile, laminated surfaces associated with sealed floors, walls, countertops, cages, crates, kennels, and animal equipment found in animal housing facilities.
Touch up cleaning -and/or- disinfection when used according to disinfectant directions

Table 3. Antimicrobial Claims
Tough on germs, [and] [safe enough] [easy enough] for everyday use <i>(note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4)</i>
Tough on germs, easy to use around patient [areas] <i>(note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4)</i>
Tough on germs, gentle on [many] hard nonporous surfaces <i>(note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4)</i>
Two in one, cleaning and disinfecting when used according to disinfectant directions
Two in one, no sacrifice on cleaning and disinfecting when used according to disinfectant directions
Use as part of your Bloodborne Pathogen Program to Kill HIV and HBV [in five -or- 5 min[utes]]
Use in places you are concerned about bacteria -and/or- viruses -and/or- germs on hard, non-porous surfaces <i>(note to reviewer - "germs" will be qualified with bacteria and/or viruses from Table 4)</i>
Use -or- cleans and disinfects on healthcare surfaces when used according to disinfectant directions
Use this product to prevent the spread of nosocomial infections
Use where odors are a problem
Versatile cleaner [virucidal] disinfectant when used according to disinfectant directions. <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
Virucidal -or- Virucide <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
When used as directed, this product is effective against [a] [variety of] [broad spectrum] [of] bacteria and viruses, on hard, nonporous surfaces <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>
When used as directed, this product's active ingredient is a [broad spectrum disinfectant e[making it] effective against bacteria and viruses on hard, nonporous surfaces <i>(note to reviewer - foot note will be used to specify applicable organisms if not directly in text)</i>

This product has demonstrated efficacy against a number of organisms under AOAC GLP testing conditions. The 3 Main Disinfectant Claims (P. aeruginosa, S. enterica, and S. aureus) were all tested in the presence of 5% soil load (bovine serum). This product kills (disinfectant level) or reduces (sanitizer level) the organisms listed in Table 4 in the designated Contact Time listed.

(Note to Reviewer – the below Table (Table 4) may be used in whole, or in part, as a visual aid for marketing claims or on label)

Table 4. Organisms & Contact Times		
Bacteria - Sanitizer	Contact Time	Strain and/or ATCC
Staphylococcus aureus	30 sec[onds]	ATCC 6538
Klebsiella pneumoniae	30 sec[onds]	ATCC 4352
Bacteria - Disinfectant	Contact Time	Strain and/or ATCC
Pseudomonas aeruginosa	5 min[utes]	ATCC 15442
Salmonella enterica	5 min[utes]	ATCC 10708
Staphylococcus aureus	5 min[utes]	ATCC 6538
Acinetobacter baumannii	5 min[utes]	ATCC BAA-1709
Enterococcus faecalis	5 min[utes]	ATCC 29212
Escherichia coli	5 min[utes]	ATCC 11229

Klebsiella pneumoniae	5 min[utes]	ATCC 4352
Listeria monocytogenes	5 min[utes]	ATCC 19117
Shigella dysenteriae	5 min[utes]	ATCC 11835
Streptococcus pyogenes	5 min[utes]	ATCC 19615
Carbapenem Resistant Escherichia coli	5 min[utes]	ATCC 81371
Carbapenem Resistant Klebsiella pneumoniae	5 min[utes]	ATCC BAA-1705
Community Acquired Methicillin-resistant Staphylococcus aureus (CA-MRSA) Genotype USA 400	5 min[utes]	NRS 123
Extended-Spectrum Beta-Lactamase Producing Escherichia coli (ESBL)	5 min[utes]	ATCC BAA-196
Methicillin Resistant Staphylococcus aureus (MRSA)	5 min[utes]	ATCC 33592
Vancomycin Resistant Enterococcus faecalis (VRE)	5 min[utes]	ATCC 51575
Viruses Enveloped		
Viruses Enveloped	Contact Time	Strain and/or ATCC
Avian Influenza A (H3N2) Reassortment Virus	5 min[utes]	ATCC VR-2072 (Strain A/Washington/897/80 x A/Mallard/New York/6750/78)
Avian Influenza A (H5N1)	5 min[utes]	Strain VNH5N1-PR8/CDC-RG (CDC # 2006719965)
Human Hepatitis B Virus (HBV) (Duck Hepatitis B Virus as surrogate)	5 min[utes]	42248
Herpes Simplex Type 1	5 min[utes]	ATCC VR-733, Strain F(1)
HIV	30 sec[onds]	HTLV-IIIB
Human Coronavirus	5 min[utes]	ATCC VR-740, Strain 229E
Influenza A (H1N1)	5 min[utes]	ATCC VR-1469, Strain A/PR/8/34
Respiratory Syncytial Virus (RSV)	5 min[utes]	ATCC VR-26, Strain Long
Viruses Large Non-enveloped		
Viruses Large Non-enveloped	Contact Time	Strain and/or ATCC
Human Adenovirus Type 5	5 min[utes]	ATCC VR-5, Strain Adenoid 75
Rotavirus (WA)	5 min[utes]	ATCC VR-2018
Viruses Small Non-enveloped		
Viruses Small Non-enveloped	Contact Time	Strain and/or ATCC
Norovirus (Feline Calicivirus as surrogate)	10 min[utes]	ATCC VR-782
Poliovirus Type 1	10 min[utes]	ATCC VR-1562, Strain Chat
Rhinovirus Type 37	10 min[utes]	ATCC VR-1147, Strain 151-1

Emerging Viral Pathogen Claims

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

For an emerging viral pathogen that is a/an:	... follow the directions for use for the following organisms on the label:
Enveloped virus	One of the following: Norovirus (Feline Calicivirus as surrogate) Rhinovirus Type 37
Large non-enveloped virus	One of the following: Norovirus (Feline Calicivirus as surrogate) Rhinovirus Type 37
Small non-enveloped virus	One of the following: Norovirus (Feline Calicivirus as surrogate) Rhinovirus Type 37

[Product name] has demonstrated effectiveness against viruses similar to ***[name of emerging virus]*** on hard, **non-porous surfaces**. Therefore, ***[product name]*** can be used against ***[name of emerging virus]*** when used in accordance with the directions for use against ***[name of supporting virus(es)]*** on **hard, non-porous surfaces**. Refer to the ***[CDC or OIE]*** website at ***[pathogen-specific website address]*** for additional information.

[Name of illness/outbreak] is caused by ***[name of emerging virus]***. ***[Product name]*** kills similar viruses and therefore can be used against ***[name of emerging virus]*** when used in accordance with the directions for use against ***[name of supporting virus(es)]*** on **hard, non-porous surfaces**. Refer to the ***[CDC or OIE]*** website at ***[website address]*** for additional information.”

(*Note to Reviewer - any of the following miscellaneous optional marketing claims and general statements in Table 5 may be used for this product.)

Table 5. General Claims
Avoid getting mist in {breathing zone} -or- face -or- eyes
Brightens
Clean before you shop
Cleans
Cleans [up] grease and grime
Cleans bathroom soils
Cleans blood stains
Cleans everyday messes
Cleans fingerprints
Cleans food stains
Cleans mildew stains
Cleans rust
Cleans to a shine
Clear drying formula
Color safe
Compatible with equipment surfaces (insert surface material from Table 1)
Compatible with -or- Suitable -and/or for-use-on [Equipment surfaces] (<i>insert from Table 1</i>)
Consult SDS for accidental spills
Consult SDS for appropriate PPE
Cuts -and/or- removes grease -and/or- grime -and/or- sweat -and/or- soap scum
Cuts cleaning time
Cuts -or- Penetrates Grease
Deodorizer [for Institutional Use]
Deodorizes
Deodorizes food odors [like cabbage, garlic and onion] [left behind on kitchen surfaces] [after cooking]
Deodorizes odors caused by bacteria -or- microorganisms [and non-fresh foods]
Designed -or- Ideal for daily [cleaning] [use]
Direct nozzle away from user, [Always]
Do not allow this product to mix with chlorine bleach [dangerous -or- poisonous gases -or- fumes may be generated]
Easy [cleaning]
Easy to use
Effective [cleaner -or- cleaning] [formula]
EnvirOx is a Women Owned Business
Fits on your [cleaning] cart
For best results, treat stains/soils while still damp

Table 5. General Claims

For direct application
For easy cleaning
For use in the kitchen on counters, sinks, exterior surfaces of appliances, and stovetops. [A rinse with potable water is required for surfaces in direct contact with food.]
Fragrance Free (fragrance free formulation only)
Ideal for use in gyms -or- wellness centers -or- health clubs -or- studios -or- offices -or- public areas
Ideal for use in schools -or- daycare -or- universities -or- colleges -or classrooms
Ideal for use on high touch surfaces -or- fomites [identified on this label] [such as (insert use surface from Table 1)]
Labor saving no-rinse formula (rinsing required on food contact surfaces)
Leaves a fresh, clean smell -or- scent
Leaves virtually no residue
Low/no Residues
Makes cleaning [so much] easier
Multi surface cleaner & disinfectant when used according to disinfection directions
No added [perfumes] -and/ or- [dyes] (*fragrance free formulation only)
No fragrance added (*fragrance free formulation only)
No mixing, measuring, or rinsing required
No rinsing
Non-abrasive
Non-corrosive
Packaging made with (insert)% recycled -or- recyclable plastic
Pleasant odor
Pleasant smell
Proven cleaning -and/or- disinfecting when used according to disinfection directions
Recyclable bottle
Removes [tough] stains
Removes -and/or- Cleans the following: (insert stain(s)/soil(s) from Table 6)
Removes dried on [blood] stains
Removes grease and grime
Removes -or- eliminates odors
Safe to -or- for use on [the following surface[s] [material][s] (insert surface material(s) from Table 1)
Simply -or- Just spray to wet, and wipe off after {the appropriate contact time} -or- (insert contact time(s) for specific pathogen(s) from Table 4) to kill -and/or- eliminate (insert specific pathogen(s) from Table 4)
Spray trigger
Suitable for use on hard, nonporous equipment surfaces

Table 5. General Claims

This product can be used to deodorize hard, nonporous surfaces insert surface(s) including [:] (insert surfaces from Table 1) -and/or- [on] [in] (insert use site(s) from Table 2) [where strong -or- obnoxious -or- lingering odors may develop]

This product causes moderate eye irritation [, protect eyes from mist] [, use in a well ventilated area]

This product deodorizes areas that are hard to keep fresh smelling, such as (insert use site(s) from Table 2) [, and other areas prone to odors caused by microorganisms -or- bacteria]

This product deodorizes those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.

This product is made in the US[A]

This product requires that caution be taken to avoid getting product in eyes [it causes eye irritation]

This product will deodorize surfaces in -or- on insert surface(s) (insert from Table 1 -and/or- insert use sites from Table 2) [and other places bacteria growth can cause foul-odors -or- malodors -or- strong-odors]

Tough on grime

Unscented (fragrance free formulation only)

Use daily

Use for touch up quick cleaning

Use in a well ventilated area, [Always]

Use in Bathrooms, sinks and faucets and floor areas

Use on glass -or- metal surfaces

Use with microfiber cloths for best results

When used as directed, this product can be used to treat and remove stains, including: (Insert any from Table 6.)

Table 6. Stains that can be treated		
Bathtub Ring[s]	Food residues -and/or- soils -and/or- stains	Pen -or- Ink [Marks]
Beverage Stains	Fruit [stains]	Pet Stains
Blood	Grease	Rust
Body oils	Grease, [Automotive -or- Splattered]	Smudges
Coffee [stains]	Grime	Soap Scum
Cosmetics	Heel Marks -or- scuffs	Sticky Food Messes -or- Spills
Crayon and Pencil [Marks]	Juice Stains	Tea [stains]
Dead skin	Lab[oratory] stains	Tough Soils
Dirt	Mold stains	Urine [stains]
Fecal matter	Mud	Wine Stains
Fingerprints	Other common soils -and/or- stains	
Food -and/or- Greasy -and/or- Oily Spills -and/or- Splatters -and/or- Messes	Other organic matter	

Packaging Related Statements

(*Note to Reviewer- Appropriate language can be selected from this section, depending on packaging, but is not required.)

[For bottles with induction seal:] Unscrew cap, remove seal and place the [trigger] [sprayer on the bottle.

[For bottles with sprayer:]

To Operate: Open hinged cover of sprayer and snap into opening on top. -or- Turn nozzle [counterclockwise] to "spray" -or- "stream" [setting]. -or- Adjust [nozzle] to desired pattern.

[For containers with top pump dispensing mechanism:]

[Use:] Replace trigger sprayer and return to use. -or- Replace cap and use as you normally would.

[For Refill container:] Unscrew cap [, remove seal] and transfer your trigger to this bottle.

[Optional Directions for Product in pump up sprayers or bottles larger than 1 quart:]

Fill only with this product.

To fill [container]: Remove trigger sprayer from empty bottle.

[Pour:] Unscrew cap (and remove seal) on refill container and pour contents directly into empty container. Use a funnel to minimize product spills (waste). Pour product into spray bottle over sink or tub basin.

[Use:] Replace trigger sprayer and return to use. -or- Replace cap and use as you normally would.

[For Refill container:] Unscrew cap [, remove seal] and transfer product to this container.

[To transfer product to smaller containers (1 qt or less):]

[This product may be transferred into clean, properly labeled containers for use elsewhere within your facility.] The small container and transfer items (funnels or hand pumps) must be clean and dry. Pour (or pump) product directly into a properly labeled smaller container being careful not to spill any product. Place sprayer back on the bottle. Refill in a well-ventilated area

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

IN CASE OF SPILL: To clean up spill, flood area with large quantities of water. Product or reinstates that cannot be used should be diluted with water before disposal in a sanitary sewer.

PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Avoid freezing conditions. Avoid high temperatures. Do not exceed storage temperatures of 95 F. Best storage temperatures are between 35 F and 85 F. Overheating in storage may result in increased degradation of product, which will decrease product effectiveness. Keep concentrate away from incompatible materials.

PESTICIDE DISPOSAL: Do not contaminate food or feed by storage, disposal, or cleaning of equipment. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

[CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill empty container. Wrap and put in trash or offer for recycling, if available. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full of water and re-cap. Shake for 10 seconds. Pour rinsate into application or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. **If Partially Filled:** Call your local solid water for disposal instructions. Never place unused product down any indoor or outdoor drain. Triple rinse container (or equivalent) promptly after emptying.]

[Or] (For bottles intended to be refilled by the ender-user i.e. not for re-sale)

(CONTAINER HANDLING: Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer empty container for recycling, if available, or wrap and discard in trash. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full of water and re-cap. Shake for 10 seconds. Pour rinsate into application or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. **If Partially Filled:** Call your local solid water for disposal instructions. Never place unused product down any indoor or outdoor drain. Triple rinse container (or equivalent) promptly after emptying.)
