Dear Mr Adams,

Re: Your Applications dated July 20, 1995, for Registration of Multi-Source Labs Ultra 3-N-One Lotion and Spray EPA Registration Numbers 69313-R, 69313-E

Your new formulas received 02/27/96 have been evaluated and are now found to be similar to TREO, Primavera's product Reg. No. 65233-1. Your applications for registration referenced above, submitted under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable and the registrations have been granted.

The Notice of Registrations and a stamped copy of the labels are enclosed for your records. When submitting your final printed labels as directed by the Notice of Registration, please address your correspondence to the address in the enclosed March 4, 1996 letter to Registrants.

Sincerely,

Janet L. Andersen

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is unconditionally registered, however, it is not regarded as permanently acceptable. Unconditional registration does not eliminate the need for continual reassessment of a pesticide. If EPA determines, at any time, that additional data are required to maintain an existing registration, the Agency will require submission of such data under Section 3(c)(2)(B) of the Federal Insecticide Fungicide and Rodenticide Act (FIFRA).

1. A stamped copy of the label is enclosed for your records.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 69313-1" and including the word "Lotion" in the name on the front panel.
3. Submit five copies of the final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
