Kim Davis  
Animal Dermatology Laboratories  
c/o RegWest Company, LLC  
8203 West 20<sup>th</sup> Street, Suite A  
Greeley, CO 80634

Subject: Label Amendment – Addition of rabbits  
Product Name: Flea, Tick and Ear Mite Treatment  
EPA Registration Number: 69407-1  
Application Date: May 19, 2015  
Decision Number: 505147

Dear Ms. Davis:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

with FIFRA section 6. If you have any questions, please contact Jennifer Gaines by phone at 703-305-5967, or via email at [gaines.jennifer@epa.gov](mailto:gaines.jennifer@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Urbanski'.

**READ ENTIRE LABEL BEFORE EACH USE**  
**USE ONLY ON CATS, DOGS AND RABBITS [CATS, DOGS, RABBITS AND LIVESTOCK]**

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### Restrictions

- Apply this product only as specified on this label.
- Do not contaminate food or foodstuffs.
- Remove pets and birds and cover fish aquariums before spraying.
- Only protected handlers may be in the area during application.
- Except when applying directly to pets, do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
- Do not enter or allow others to enter until vapors, mists and aerosols have dispersed and the treated area has been thoroughly ventilated.
- Do not remain in treated area; immediately exit area and remain outside the treated area until aerosols,

vapors and/or mists have dispersed.

- For direct application to non-domestic animals/livestock: Do not apply more than 1 time per day.
- When used in dairy barns or facilities: Close bulk milk container lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash animals' teats before milking.
- Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

### Personal Protective Equipment

All handlers must wear: long-sleeve shirt, long pants, shoes and socks.

### User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

### User Safety Recommendations

- Users should wash hands with plenty of soap and water before eating, drinking, chewing gum, using tobacco or using the toilet.
- Users should immediately remove clothing/PPE if pesticide gets inside; then thoroughly wash and put on clean clothing.
- Users should immediately remove PPE after handling this product. Wash the outside of gloves before removing. As soon as possible, thoroughly wash and change into clean clothing.

### Shake Well Before Use

**For direct application to cats, dogs and rabbits (over 12 weeks of age) to kill fleas and ticks:** Hold the container upright. Spray at a distance of 8-10 inches. Starting at the tail, spray over entire hair coat while moving the dispenser rapidly, making sure the coat is thoroughly wetted to the skin, including the legs and underbody. While spraying, fluff the hair so the spray will penetrate to the skin. Make sure spray thoroughly wets ticks. Spray against the lay of the hair, roughing the hair on long-haired cats, dogs or rabbits. Do not spray into the eyes, face or genitalia. For best results in killing ticks, spray directly on the tick. **For direct application to cats, dogs and rabbits (over 12 weeks of age) to kill ear mites:** Place 10 drops in each ear and massage. Do not reapply more often than once every 14 days.

**For direct application to residential dwellings, commercial & institutional indoor sites and pet premises:** To kill **Fleas** and **Brown Dog Ticks** thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, moldings, window & door frames and localized areas of floor & floor covering. Place fresh bedding in animal quarters following treatment. Concurrent treatment of animals is recommended. Repeat treatment as needed.

**For direct application to non-domestic animals/livestock:** To protect cattle, horses and hogs from **Horn Flies**, **House Flies**, **Mosquitoes** and **Gnats**, apply a light mist sufficient to wet the surface of the hair. To kill **Stable Flies**, **Horse Flies** and **Deer Flies** apply at the rate of 2 fluid ounces per adult animal, sufficient to thoroughly wet the hair. Repeat treatment daily or at intervals necessary to give continued protection. To kill **Blood Sucking Lice** apply to the infested areas of the animal, using a stiff brush to get the spray to the base of the hair. Repeat every 2 to 3 weeks if required.

To kill **Poultry Lice:** Thoroughly spray roosts, walls and nests or cages, then spray a fine mist over the birds. To kill **Bedbugs** and **Mites** in poultry houses, spray crevices of roost poles, cracks in walls and cracks in nests where these insects hide.

### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Keep this product in its tightly closed, original container when not in use. Store in a cool, dry (preferably locked) place inaccessible to children and animals. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** If **empty:** Non-refillable container; do not reuse or refill this container. Offer for recycling if available. If **partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

*(Per PR Notice 2007-4 the lot number or batch code will appear either on the container or label.)*

## PRECAUTIONARY STATEMENTS

### Hazards to Domestic Animals

**[CAUTION:]** Do not use on kittens, puppies or kits under 12 weeks of age. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, immediately consult a veterinarian.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-521-2525. [To obtain more information or in case of an emergency call (800) 521-2525.]

### Environmental Hazards

This product is toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

To the extent consistent with applicable law, Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
