REVABLUE

[Revacil Program]

[Algae Control]

[For control of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish]

[Revablue is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish]

[1-877-REVACIL]

ACTIVE INGREDIENT:

Poly[oxyethylene(dimethyliminio)ethylene-(dimethyliminio)ethylene dichloride]..... 30.0%

INERT INGREDIENT:..... 70.0%

TOTAL:..... 100.0%

This product contains 2.67 lb. of active ingredient per gallon and weighs 8.9 lb. per gallon.

Net Contents: _____

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side Panel for Additional Precautions and First Aid Treatment

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID

If swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER

For product information, call 1-877-738-2245, Monday through Friday, 9:00 a.m. to 5 p.m. For emergency information, call your local poison control center.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

(Note to reviewer: If container size is 5 gallons or larger, the following Environmental Hazards statements will be used:)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office EPA.

• All text in brackets [xxx] is optional and may or may not be included on a final label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains, and ponds containing heavy growth of algae should be cleaned prior to using REVABLUE.

For pools having just visible algae growth add an initial dose of 24 to 36 fluid ounces of REVABLUE per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 13 to 24 fluid ounces of REVABLUE per 10,000 gallons of water. Subsequent additions of 4 to 9 fluid ounces of REVABLUE per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 2 to 4 fluid ounces of REVABLUE per 1,000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub, decorative fountain, or pond, add initially 1 to 2 fluid ounces of REVABLUE per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of REVABLUE should be made every 5 to 7 days after initial treatment for maintenance.

REVABLUE will prevent growth of most algae during the off season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 fluid ounces of algaecide per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 25 to 37 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

REVABLUE is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. REVABLUE can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix REVABLUE with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash.

NOTICE TO BUYERS AND USERS: No warranty or warranties whether expressed or implied are given with respect to this product. All liability with respect to the purchase and use of this product is assumed by the buyer or user or any other party and all liability arising from this product to any person or entity is disclaimed.
