Subject: Notification of Minor Label Changes per PR Notice 98-10
EPA Reg. No. 69470-7
Application Dated: October 3, 2011
Receipt Date: October 4, 2011

Dear Mr. Katsigras:

This letter acknowledges receipt of your notification submitted under the provisions of Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9 and PR Notice 98-10.

Proposed Notification:

Addition of new container type and its appropriate Storage and Disposal statements.

Addition of the following Alternate Brand Names to EPA reg. No. 69470-7:

- CDB® CLEARON SUPER COARSE
- CDB® CLEARON COARSE EX.
- CDB® CLEARON EX. COARSE
- CDB® CLEARON EXTRA COARSE
- CDB® CLEARON EXTRA EXTRA COARSE
- CDB® CLEARON EX. EX. COARSE

General Comments:

Based on a review of the material submitted, the following comments apply:

The application for notification to add alternate brand names, as referenced above, is acceptable. However, the application to add a new container type and its appropriate Storage and Disposal statements is unacceptable.

The following revisions are suggested:

CONCURRENCES						
SYMBOL	1510P					
SURNAME	LAYTON					
DATE	11-2-11					

- Per PR Notice 2007-4 (Appendix C), the first line of the container handling instructions must be revised to read as follows (see highlighted changes):

“Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose.”

or

“Refillable container. Refill this container with [common chemical name] only. Do not reuse this container for any other purpose.”

- The format described in the statement above is required for all refillable container types; revision of the handling instructions is recommended for all refillable container types on the CDB® CLEARON COARSE label, including:
 - Rigid refillable container (bucket or drum with liner) greater than 50 lbs
 - Refillable plastic sack container (with liner) greater than 50 lbs
- For clarity to the user, it is recommended that the final disposal instructions be revised by adding a separate paragraph with a heading. Please see the following example:

CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. If container is contaminated and cannot be reused, completely empty container by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then triple rinse container (or equivalent) after emptying.

Final Disposal Instructions: Triple rise as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full of water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat the procedure two more times. Then offer for recycling if available or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Should you have any questions or comments concerning this letter, please contact Zoë Layton at Layton.Zoe@epa.gov or call (703) 308-0440.

Sincerely,

CONCURRENCES

Attention: Ms. Monisha Harris / PM 32

**SUBJECT: Notification of Minor Label Changes per PR Notice 98-10
EPA Reg. No. 69470-7**

Dear Ms. Harris:

Clearon Corp. is submitting a Notification under the provisions of PR Notice 98-10 to advise the Agency of minor changes to the label.

The label changes include:
Addition of new container type and its appropriate Storage and Disposal statements.
Addition of alternate brand names.

No other changes have been made to the label, so it is otherwise identical to that approved by the Agency on May 27, 2011

Please find enclosed the following documents to support the notification:

- Application form (EPA Form 8570-1)
- Two (2) copies of the revised label with the changes highlighted.

If you have any questions or need additional information, please feel free to contact me by phone at (304) 720-3924 or via email katsigrasg@clearon.com.

Sincerely yours,

George Katsigras,
Regulatory Affairs Specialist

**PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: DANGER: Strong oxidizing agent. Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

For formulation into end-use products intended for disinfectants, sanitizers, fungicides, bactericides and algacides for pools, spas, hot tubs, industrial recirculating water cooling towers, air washers and evaporative condensers, sewage treatment, food contact surfaces, laundry and egg sanitizing.

Formulators using this product are responsible for obtaining EPA registration of their formulated products.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Keep product dry in tightly closed container when not in use.

PESTICIDE STORAGE: Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

In case of contamination or decomposition do not reseal container. If possible, isolate container in open well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

When handling or dealing with spills, use impact-resistant goggles with side-shields, or face shield; body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reseal container; isolate unsealed drum in the open or in a well-ventilated area; flood with large volumes of water if necessary.

7 of 9

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING AND DISPOSAL:

{For nonrefillable plastic sack container (with liner) greater than 50 lbs}

CONTAINER HANDLING: Nonrefillable container. Do not re-use or refill this container. Completely empty sack and liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. When completely empty, offer for recycling, if available or dispose of sack and liner in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For rigid nonrefillable container (bucket or drum with liner) greater than 50 lbs}

CONTAINER HANDLING: Nonrefillable container. Do not re-use or refill this container. Completely empty liner/bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. When completely empty, offer for recycling, if available or dispose of liner/bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full of water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For rigid nonrefillable container (bucket or drum without liner) greater than 50 lbs}

CONTAINER HANDLING: Nonrefillable container. Do not re-use or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full of water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For rigid nonrefillable container (bucket or drum without liner) equal to or less than 50 lbs}

CONTAINER HANDLING: Nonrefillable container. Do not re-use or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke

{For rigid refillable container (bucket or drum with liner) greater than 50 lbs}

CONTAINER HANDLING: Refillable container. Refill this container with CDB Clearon Coarse only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, remove liner and completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. When completely empty, for recycling, if available or dispose of liner/bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Then triple rinse container (or equivalent) after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full of water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Then offer for recycling if available or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For refillable plastic sack container (with liner) greater than 50 lbs}

CONTAINER HANDLING: Refillable container. Refill this container with CDB Clearon Coarse only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. If container is contaminated and cannot be reused, completely empty liner and sack by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. When completely empty, offer for recycling, if available or dispose of liner and sack in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For refillable metal or plastic bin container greater than 50 lbs}

CONTAINER HANDLING: Refillable container. Refill this container with CDB Clearon Coarse only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. If container is contaminated and cannot be reused, completely empty container by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then triple rinse container (or equivalent) after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full of water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
