EPA Reg. No. xxxx-xx

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:
69470-34

Date of Issuance:
March 13, 2013

Term of Issuance:
Conditional

Name of Pesticide Product:
Bromine Shock

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Clearon Corporation
95 MacCorkle Avenue, SW
S. Charleston, WV 25303

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This Product (OPP Decision No. D470457) is conditionally registered in accordance with FIFRA sec. 3(c) 7(A) provided that you comply with the instructions identified in this Notice Of Registration.

- 1.) Submit and/or cite all data required for registration of your Product under FIFRA sec. 3(c) 5 when the Agency requires all registrants of similar Products to submit such data; and submit acceptable responses required for re-registration of your Product under FIFRA section 4.

Monisha Harris,
EPA Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

March 13, 2013

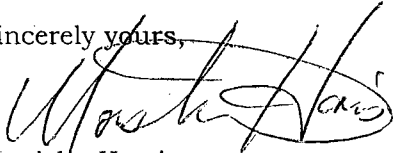

2.) Submit, promptly, three (3) copies of the final printed label prior to releasing this product for sale.

If these conditions are not complied with, registration will be subject to cancellation in accordance with FIFRA sec 6(e).

An EPA-stamped **Accepted** copy of the Product Label is enclosed for your records.

If you have questions or concerns about this Notice Of Registration, then please contact Killian Swift via email at Swift.Killian@epa.gov or by telephone at **703-308-6346**. When you are submitting information or data in response to this Notice Of Registration, then please send a copy of this Notice Of Registration with your response in order to facilitate processing.

Sincerely yours,

Monisha Harris,
EPA Product Manager 32
Regulatory Management Branch II
Antimicrobials Division 7510P

Enclosure: EPA-stamped **Accepted** "Bromine Shock" Product Label.

BROMINE SHOCK

{Alternate Brand Name:} [CRYSTAL BLUE]

INGREDIENTS:

Sodium dichloro-s-triazinetrione.....	85.0%
Sodium bromide.....	15.0%
OTHER INGREDIENTS.....	0%
TOTAL INGREDIENTS.....	100.0%
Available halogen (calculated as Cl).....	53.5%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center, or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage.	

See [back] [side] panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive: Causes irreversible eye damage. Causes skin burns. Harmful if swallowed or absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight)}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 50 pounds (solid, dry weight)}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

This product is a practical, easy to use sanitizer for spa and hot tub water. It rapidly and completely dissolves without cloudy or insoluble residue in water to provide effective bromine disinfection. This product may be used as a super oxidation treatment to rid spa and hot tub of organic wastes.

{This following statement will only be used if optional section of directions for Treatment of Visible Algae is included on label}

[This product may also be used to treat visible algae in spas and hot tubs.]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

{Directions to be used for swimming pool sanitization}

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. Add stabilizer to establish a minimum level of 30-40 ppm to reduce degradative effects of sunlight upon the chlorine residual. Check for metals. Before using this product, add stain and scale inhibitor to prevent staining of pool surface due to metals. When using other products as outlined in the directions for this product, always follow directions on those products.

With pump running, broadcast 0.5 pounds of this product per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 3 ppm chlorine (or measured as 7 ppm bromine) is established as determined by the use of a test kit. To prevent damage to pool surface, use a pool brush to disperse granules that may have settled to the bottom of the pool. NEVER ALLOW UNDISSOLVED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.

{Directions to be used for swimming pool shock treatment}

Broadcast 1.5 pounds of this product per 10,000 gallons directly into the water in the deep end of the pool. To prevent damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of your pool. NEVER ALLOW UNDISSOLVED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.

REENTRY: Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine (or measured as 7 ppm bromine) due to risk of bodily harm.

{Directions to be used for spa and hot tub sanitization}

Ensure all spa and hot tub equipment is working properly. Backwash or clean the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. When using other products as outlined in the directions for this product, always follow directions on those products. Spas should be drained and cleaned at least every 60 days or whenever water becomes difficult to manage or keep clear. Bath oils, salts and lotions should not be used unless specifically formulated for use in spas and hot tubs as they can lead to cloudy water.

FOR SPA AND HOT TUB SANITIZATION: Add 1 level teaspoon of this product per 200 gallons of water with circulation system operating. Test for available bromine and repeat sanitation dose at 15 to 20 minute intervals until a residual of 3-6 ppm is established. It is recommended that a test kit be used regularly to determine when additional doses are needed to maintain a residual of 3-6 ppm bromine.

{Directions to be used for spa shock treatment}

FOR SUPER OXIDATION: A super oxidation dose is needed to destroy water soluble organic wastes. This may be needed on a daily basis in a heavily used spa or once a week in a moderately

6/7

used spa. Add 4 teaspoons of this product per 200 gallons of water with circulation system operating.

{Directions to be uses for treatment of visible algae}

[FOR TREATMENT OF VISIBLE ALGAE: If visible algae is present, brush spa surfaces and start circulation system operating, without air injection if possible. Add 4 teaspoons of this product for each 200 gallons of water. Allow system to circulate for 15 to 20 minutes. Treatment may be repeated in 24 hours if algae is still present.]

Reentry into treated spas is prohibited above levels of 7 ppm bromine due to risk of bodily injury.

STORAGE AND DISPOSAL Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

OPTIONAL MARKETING STATEMENTS

{Optional marketing statements that may be used with spa and hot tub sanitizer, oxidizer and/or algae treatment}

- [1 step fast dissolving brominating granules]
- [Super oxidation treatment]
- [One-step sanitizer and oxidizer]
- [Acts as a sanitizer & oxidizer]
- [Low odor] [Ideal in hot water]
- [Restores water clarity]
- [Concentrated formula]

7/7

[Algae treatment for Spas & Hot Tubs] *{This statement will only be used if optional section of directions for Treatment of Visible Algae is included on label}*

{Optional marketing statements that may be used with swimming sanitizer, oxidizer and/ algae treatment}

[For use in vinyl, painted, fiberglass or color plaster surface pools]

[Granular Stabilized Chlorinator]

[Restores water clarity]

[Ideal for pool start-ups]

[Ideal for white plaster pools]

[Fast-acting granular algae killer]

[Ideal for vinyl pools]

[For all pool types]

[For all pool surfaces]

[Quick-dissolving]

[Quick-dissolving stabilized brominating granules]

[Quick-dissolving sanitizer and oxidizer]
