

LarvXTMSG

Biological Larvicide Soluble Granules

ACTIVE INGREDIENT:

Bacillus thuringiensis, subspecies *israelensis*
262 International Toxic Units (ITU) per mg
(Equivalent to 0.119 billion ITU per pound)00.26%

INERT INGREDIENTS:99.74%
100.00%

There is no direct relationship between intended activity (potency) and the Percent Active Ingredient by Weight.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENTS OF PRACTICAL TREATMENT

IF IN THE EYES: Flush with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LarvXTM SG is a microbial insecticide effective against mosquitoes in a variety of habitats.

Mosquito Habitat Examples	Rate Range*
Irrigation runoff, flood water, woodland pools, snow melt pools, ponds, pastures, rice fields, freshwater marshes, ditches, tidal water, salt marshes.	2 - 10 lbs/Acre

In addition, standing water containing mosquito larvae, in fields growing alfalfa, almonds, asparagus, corn, cotton, dates, grapes, peaches and walnuts may be treated at the recommended rates.

*Use 10-20 lbs/acre when late 3rd and early 4th instar larvae predominate, mosquito populations are high, water is deep, heavily polluted, and/or algae is abundant. Soft bottom sites may require the higher rates.

Apply uniformly by conventional aerial or ground equipment as needed to maintain mosquito control. For permanently flooded habitats, a 7 to 14 day interval between applications may be employed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
Causes moderate eye irritation. As a general precaution when exposed to potentially high concentrations of living microbial products such as this, all mixer/loaders

and applicators not in enclosed cabs or aircraft must wear a dust/mist filtering respirator meeting NIOSH standards of at least N-95, R-95, or P-95. Avoid contact with skin and eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles. Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment-and-weather-related factors determine the potential for spray drift. The applicator and the grower are responsible for considering all these factors when making decisions.

STORAGE AND DISPOSAL

Do not contaminate potable water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

NOTICE TO USER

Seller makes no warranty, expressed or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on the label. User assumes all risk of use, storage or handling not in strict accordance with label directions.
