Ms. Juli Mann Paralegal Specialist Steptoe & Johnson LLP 1330 Connecticut Avenue, NW. Washington, DC 20036-1795

Subject: CIVITAS™ EPA Registration No. 69526-13 Notification Submitted on August 24, 2010

Dear Ms. Mann:

On August 24, 2010, the Agency received your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the product Civitas™, EPA Reg. No. 69526-13. The Registration Division (RD) finds that the application falls within the scope of PRN 98-10.

The label submitted on August 24, 2010, has been stamped "Notification" and placed in our records.

If you have any questions regarding this letter, you may reach me by telephone at 703-305-6406, by FAX at 703-308-0029, or via e-mail at jacobs.bill@epa.gov.

Sincerely yours,

William W. Jacobs Insecticide-Rodenticide Branch Registration Division (7505P)

Attention: Venus Eagle (PM 1)

Subject: Notification per PR 98-10

Product: CivitasTM (EPA Reg. No. 69526-13)

Dear Ms. Eagle:

On behalf of our client, Petro Canada, enclosed please find a notification for CivitasTM (EPA Reg. No. 69526-13). Changes to the label include: addition of company logo; update company name and address; and, identification of alternate language for the "Net Contents" statement. All changes are highlighted on the enclosed label (pages 1, 2 and 8).

Enclosed with this application, please find EPA Form 8750-1 and one copy of the label indicating the revised information. This notification is consistent with PR 98-10.

Please contact me if there are any questions.

Sincerely,

ti mann

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

Personal Protective Equipment (PPE)

Some materials that are chemical resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selection chart.

Applicators and other handlers must wear:

- · Long sleeved shirt and long pants;
- · Chemical-resistant gloves, such as: barrier laminate or Nitrile rubber, Neoprene rubber or Viton;
- Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent materials that have been drenched or heavily damaged by this product's concentrate. Do not reuse them.

Users Safety Recommendations

Users should:

- wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet;
- remove clothing and/or PPE immediately if pesticide gets inside and then wash thoroughly and change into clean clothing;
- remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. Apply this product only as specified on the label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. Aerial application of this product is prohibited.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Keep children and pets out of the treated area until sprays have dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, replace lids and close tightly. Do not put concentrate or dilute material into food or drink containers. Keep drums closed to prevent entry of water. Do not freeze. Roll drum before use if stored longer than 3 months.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

PESTICIDE DISPOSAL: Dispose of wastes resulting from use of this product on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:**

[275 Gallon Polyethylene Bladder in Steel Cage: Do not reuse or refill this container. Return bladder and steel cage to your CIVITAS[™] dealer.]

[55 Gallon Polyethylene Drums: Do not reuse or refill this container. Return drum to your CIVITAS™ dealer.]

[30 Gallon Polyethylene Drums: Do not reuse or refill this container. Return drum to your CIVITAS™ dealer.]

[5 Gallon Polyethylene Pail: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining comtents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. If recycling is unavailable, puncture and dispose of in sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.]

USE RESTRICTIONS

CIVITAS[™] is a broad spectrum, fungicide and insecticide registered for use on turf and the landscape ornamentals listed on this label. CIVITAS[™] may be used to control powdery mildew, adelgids and webworms on landscape ornamentals.

CIVITAS[™] may be applied as part of an alternating spray program or in tank mixes with other registered, turf and ornamental protection products. Read all label directions for proper use of other turf and ornamental protection products.

CIVITAS™ may be used as a preventative treatment for the control of many diseases on turf.

For turf applications, CIVITAS™ must only be used in conjunction with Petro-Canada's CIVITAS™ HARMONIZER.

Do not use CIVITAS[™] HARMONIZER for ornamental applications.

CIVITAS[™] may be applied with spray equipment commonly used for ground applications. Ensure sufficient agitation is provided either through the use of mechanical mixing or thorough circulation.

Note: This product has not been tested on all species or varieties. Before treating a large area, treat a small area and observe prior to full scale applications.

For ground applications, apply CIVITAS[™] in sufficient water volume for adequate coverage and canopy penetration. All applications must be made according to the use directions that follow.

Note: Turf may show a luster after having been sprayed with this product.

SPRAY DRIFT MANAGEMENT

A variety of factors including weather conditions (e.g., wind direction, wind speed, temperature, and relative humidity) and method of application (e.g. ground or airblast) can influence pesticide drift. The applicator and grower must evaluate all factors and make appropriate adjustments when applying this product.

Wind Speed

Do not apply at wind speeds greater than 15 mph at the application site.

Temperature Inversions

If applying at wind speeds less than 3 mph, the applicator must determine if (a) conditions of temperature inversion exist, or (b) stable atmospheric conditions exist at or below nozzle height. Do not make applications into areas of temperature inversions or stable atmospheric conditions.

Release Height

Apply using a nozzle height of no more than 4 feet above the ground or crop canopy.

Droplet Size:

Apply as a medium or coarser spray (ASAE standard 572), and the minimum volume mean diameter (VMD) for spinning atomizer nozzles.

For airblast applications, turn off outward-pointing nozzles at row ends and when spraying outer row. To minimize spray loss over the top in orchard applications, spray must be directed into the canopy.

INTEGRATED PEST MANAGEMENT (IPM)

Pests are not known to develop resistance to CIVITAS[™]. This product can be used in resistance management strategies or in integrated pest management (IPM) programs. Consult with your local Cooperative Extension Specialist on using this product for resistance management and using it in an IPM program.

MIXING DIRECTIONS

DIRECTIONS

Use only in equipment with sufficient agitation to keep spray thoroughly mixed. Provide sufficient agitation during mixing and application to maintain a uniform emulsion. Be sure tank is clean.

DO NOT USE THIS MATERIAL IF IT DOES NOT EMULSIFY.

Note: Use efficient equipment of the proper type. Avoid spraying during or immediately prior to hot or freezing weather, rain or other unsuitable conditions; avoid over spraying or double spraying. Plants should be sprayed only when in vigorous condition and when their moisture condition is suitable. Before using, make certain spray tank is free of sulfur residues.

For Ornamental Applications:

With agitator running, start filling tank with water; add CIVITASTM when tank is about 1/2 full. If this mixture turns white, it indicates good emulsification. Fill the tank with water, adding other desired materials as tank is filling.

For Turf Applications:

CIVITAS[™] must only be used in conjunction with Petro-Canada's CIVITAS[™] HARMONIZER. CIVITAS[™] HARMONIZER enhances the color of treated turf while minimizing the impact of stresses.

Carefully calculate the quantity of CIVITAS[™] and CIVITAS[™] HARMONIZER needed before mixing. Shake or agitate CIVITAS[™] HARMONIZER immediately prior to use. With agitator running, start filling tank with water; add CIVITAS[™] when tank is about 1/2 full. If this mixture turns white, it indicates good emulsification. Fill the tank with water, adding CIVITAS[™] HARMONIZER as tank is filling. Spray mix should have a uniform opaque dark green color. Keep agitation during application. Prepare only enough spray mix for the current day's use, do not store spray mix.

Tank Mixes

DO NOT combine $CIVITAS^{TM}$ in the spray tank with pesticides, surfactants, or fertilizers, unless your prior use has shown the combination to be physically compatible and non-injurious under your conditions. DO NOT combine $CIVITAS^{TM}$ with chlorothalonil as phytotoxicity may result from the combination when applied to turf.
