CLOR MOR ALGAECIDE 30

{Optional marketing statements that may be used with swimming pool algacide}
[Non-Foaming, ideal for pools with attached spas]
[Algacide for Use in Swimming Pools]
[Prevents all types of algae]
[Algae Control for Swimming Pools]
[Non-Foaming]

{Optional marketing statements that may be used with spa algacide}
[Algae Control for Spas]
[Prevents all types of algae]
[For Spas]
[Non-Foaming]
[Non-Foaming Algae Preventative]

{Optional marketing statements that may be used with winter pools algae preventative}
[Winter Algacide]
[Prevents all types of algae]
[Non-Foaming Algae Preventative]

{Optional marketing statements that may be used for Non-Pool/Non-Spa Uses.}
[For Control of Algae, Bacteria, Fungi in Cooling Water and Recirculating Cooling Systems]
[For control of Algae in Decorative Fountains]

ACTIVE INGREDIENT:
Poly [oxyethylene(dimethyliminio)ethylene
(dimethyliminio) ethylene dichloride]. 30.0%
INERT INGREDIENTS: 70.0%
TOTAL INGREDIENTS: 100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Use Directions Reference	
1.	Clor Mor Algacide 30 EPA REG. No. 69681-1 (approved 16OCT2003). All uses except for the non-pool uses.
2.	Buckman W-30-1 EPA REG No. 1448-232 (approved 20DEC2005). All Non-pool uses

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight)}.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

{Environmental hazards statement for end-use products in containers greater than 5 gallons (liquid) or greater than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

{Directions to be used for swimming pool algaecide}

SWIMMING POOL ALGAECIDE AND ALGAE PREVENTATIVE

[This product is used to control and prevent the growth of algae in swimming pools [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains]]. [This product may be used in systems sanitized with chlorinating or brominating products. This product will not foam and prevents all types of algae.]

[Use this non-foaming algaecide to prevent and control swimming pool algae. Ideal for pools with attached spas. Can be applied in pools with chlorinating or brominating sanitizing systems.]

Pools containing heavy growth of algae should be cleaned prior to using this product. For pools having light algae growth, pour the initial dose of 24-36 fluid ounces of this product per 10,000 gallons of water directly into pool. Remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, pour the initial dose of 13-24 fluid ounces of the product per 10,000 gallons of water directly into pool. Additions of 4-9 fluid ounces of this product per 10,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering pool.

{Directions to be used for spa algaecide}

ALGAECIDE AND ALGAE PREVENTATIVE FOR SPAS AND HOT TUBS

[This non-foaming product is used to control the growth of algae in spas, whirlpools, and hot tubs.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Spas containing heavy growth of algae should be cleaned prior to using this product. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 2-4 fluid ounces of this product per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 1-2 fluid ounces of this product per 1,000 gallons of water. Subsequent additions of 0.5-0.8 fluid ounces of this product per 1000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering spa.

{Directions to be used for winter pool algaecide}

WINTER ALGAE PREVENTATIVE FOR SWIMMING POOLS

[This product when used as directed will prevent growth of most algae during the off-season winter months when pools are not in use.] [This non-foaming algae preventative works to prevent algae growth when the pool is not being used due to cold winter temperatures.]

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

For pools which have been properly treated during the swimming season and are free of visible algae, add 13-21 fluid ounces of this product per 10,000 gallons of water. If at the end of the swimming pool season pool has some visible algae growth, add 25-37 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of this product throughout the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off season.

{Text for pool and spa labels only}

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

{Directions to be used for non-pool/non-spa uses. One or more use patterns may appear on a single end use label. This Directions for Use statement only applies to non-pool/non-spa uses}

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

COOLING TOWERS AND RECIRCULATING COOLING SYSTEMS

Prior to the use of the product in water cooling towers, systems should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 1.90 to 4.75 fluid ounces of this product per 1,000 gallons of water to provide 16 to 40 ppm of product, based on the total weight of water in the system. Repeat initial dosage until control is evident. Make subsequent slug additions of 0.47 to 4.75 fluid ounces of this product per 1,000 gallons of water (4 to 40 ppm this product) every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleed-off and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

AIR WASHERS

This product is used to control bacteria in industrial air washing systems that maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 7.1 to 11.9 fluid ounces of this product per 1,000 gallons of water is recommended. Repeat dosage until control is evident. Subsequent slug additions of 4.8 to 11.9 fluid ounces of this product per 1,000 gallons of water should be employed each 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleed-off and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

DECORATIVE FOUNTAINS

This product is used to control the growth of algae in decorative fountains that do not contain fish. Heavy growths of algae should be manually cleaned prior to treatment. Fountains with just visible algae growth require an initial dose of 2.0 to 4.0 fluid ounces of this product per 1,000 gallons of water. To treat a freshly cleaned and filled fountain, add to 1.0 to 2.0 fluid ounces of the product per 1,000 gallons of water. Maintenance dosages of 0.5 to 0.8 fluid ounces of this product per 1,000 gallons of water should be added every 5 to 7 days as needed. This product may be used in fountains with chlorinating chemicals, but do not mix this product with concentrated dry or liquid chlorinating products.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
