Subject: Product Name: Clor Mor Algaecide 60  
EPA Registration No.: 69681-2  
Application Date: May 7, 2008  
Receipt Date: May 8, 2008

Dear Ms. Eldem,

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

**Proposed Notification**

- Update storage and disposal instructions
- Add new marketing language

**General Comments**

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me by telephone at (703) 308-6422 or email at [heyward.adam@epa.gov](mailto:heyward.adam@epa.gov) between the hours of 7:00am and 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Adam Heyward  
Product Manager (34)  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

**RE: Notification – Clor Mor Aglaecide 60– 69681-2  
Update to Storage and Disposal per Agency notice: PR2007-4; Removal of duplicate text;  
and Added Marketing Statements.**

AllChem Performance Products, LP is submitting the enclosed notification to update the Storage and Disposal instructions per the Agencies notice: PR2007-4. We also added in more marketing statements. All changes/additions have been highlighted in red on one of the attached labels.

This action does not require submission of registration service fees under PRIA.

You will find the following included with this submission:

- 1) EPA Application Form x 2 copies
- 2) One redlined copy of the label and one copy of final label.

Please send through a confirmation of Agency acceptance and feel free to contact me by phone at (352) 333-7357 or by email at [judy.eldem@allchem.com](mailto:judy.eldem@allchem.com) if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Eldem", written in a cursive style.

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**FIRST AID**

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment.**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.  
Call a poison control center or doctor for treatment advice.

**NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.**

Net Contents:

**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS: CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight)}.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

{Environmental hazards statement for end-use products in containers greater than 5 gallons (liquid) or greater than 50 pounds (solid, dry weight)}

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product

to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**{STORAGE AND DISPOSAL - {For pesticides with only household/residential uses in nonrefillable containers.}** Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Keep container closed when not in use. Leaking or damaged containers should be placed in plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

**DISPOSAL:**

**If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.]

**{STORAGE AND DISPOSAL - {For all pesticides except products with only household/residential uses in nonrefillable containers.}** Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Keep container closed when not in use. Leaking or damaged containers should be placed in plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

**DISPOSAL:**

**If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**Residue Removal:** Triple rinse container (or equivalent) promptly after emptying.

{Rigid nonrefillable containers small enough to shake with capacities equal to or less than 5 gallons}

[Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.]

{Rigid nonrefillable containers too large to shake with capacities equal to or greater than 5 gallons or 50 lbs}

[Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.]

~~**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage and disposal.~~

~~**PESTICIDE STORAGE:** Keep container closed when not in use. Leaking or damaged containers should be placed in plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.~~

~~**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on-site at an approved waste disposal facility.~~

~~**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.~~

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

{Directions to be used for swimming pool algaecide}

**SWIMMING POOL ALGAECIDE AND ALGAE PREVENTATIVE**

[This product is used to control and prevent the growth of algae in swimming pools [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains]]. [This product may be used in systems sanitized with chlorinating or brominating products. This product will not foam and prevents all types of algae.] [Use this non-foaming algaecide to prevent and control swimming pool algae. Ideal for pools with attached spas. Can be applied in pools with chlorinating or brominating sanitizing systems.]

Pools containing heavy growth of algae should be cleaned prior to using this product. For pools having light algae growth, pour the initial dose of 11-17 fluid ounces of this product per 10,000 gallons of water directly into pool. Remove settled algae. For treatment of a freshly cleaned and filled pool, add 6-11 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 2-4 fluid ounces of this product per 10,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering pool.

{Directions to be used for spa algaecide}

**ALGAECIDE AND ALGAE PREVENTATIVE FOR SPAS AND HOT TUBS**

[This non-foaming product is used to control the growth of algae in spas, whirlpools, and hot tubs]

Spas containing heavy growth of algae should be cleaned prior to using this product. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 1.0-2.0 fluid ounces of this product per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add 0.6-1.1 fluid ounces of this product per 1,000 gallons of water. Subsequent additions of 0.2-0.4 fluid ounces of this product per 1,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering spa.

{Directions to be used for winter pool algaecide}

**WINTER ALGAE PREVENTATIVE FOR SWIMMING POOLS**

[This product when used as directed will prevent growth of most algae during the off-season winter months when pools are not in use.] [This non-foaming algae preventative works to prevent algae growth when the pool is not being used due to cold winter temperatures.]

For pools which have been properly treated during the swimming season and are free of visible algae, add 6-10 fluid ounces of this product per 10,000 gallons of water. If at the end of the swimming pool season, pool has some visible algae growth, add 12-17 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

{Directions to be used for non-pool/non-spa uses. One or more use patterns may appear on a single end use label. This Directions for Use statement only applies to non-pool/non-spa uses}

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**COOLING TOWERS AND RECIRCULATING COOLING SYSTEMS**

This product is used to control algae, bacteria and fungi in recirculating commercial and industrial water cooling towers and recirculating cooling systems. Prior to use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 0.9 to 2.2 fluid ounces of this product per 1,000 gallons of water to provide 8 to 20 ppm of product, based on the total weight of water in the system. Repeat initial dosage until control is evident. Subsequent slug additions of 0.2 to 2.2 fluid ounces of this product per 1,000 gallons of water (2 to 20 ppm of this product) should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleed-off and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

**AIR WASHERS**

This product is used to control bacteria in industrial air-washing systems that maintain effective mist eliminating components. Prior to use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 3.33 to 5.55 fluid ounces of this product per 1,000 gallons of water is recommended. Repeat dosage until control is evident. Subsequent slug additions of 2.25 to 5.55 fluid ounces of this product per 1,000 gallons of water should be added every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleed-off and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

**DECORATIVE FOUNTAINS**

This product is used to control the growth of algae in decorative fountains that do not contain fish. Heavy growths of algae should be cleaned prior to treatment. Fountains with just visible algae growth require an initial dose of 1.0 to 2.0 fluid ounces of this product per 1,000 gallons of water. To treat a freshly cleaned and filled fountain, add to 0.6 to 1.1 fluid ounces of the product per 1,000 gallons of water. Subsequent additions of 0.2 to 0.4 fluid ounces of this product should be made every 5 to 7 days after initial treatment for maintenance.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
