Subject: Allchem Performance Products, LP
CLOR MOR DY-SHOCK
EPA Registration No. 69681-13
Application Date: August 20, 2003
Receipt Date: September 3, 2003

Dear Mr. Lyle:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- Add the new first aid statement per PR Notice 2001-1
- Revise the Storage and Disposal statements
- Add Marketing Text
- Change company name to "Allchem Performance Products, LP"

Conditions

1. Revise the Ingredient statement as follows:

Active Ingredient:	
Sodium dichlor-s-triazinetrione	57.0%*
Other Ingredients	43.0%
Total	100.0%

* Provides 35% Available Chlorine

2. You must add the re-entry language under Superchlorination directions for use to read:

CONCURRENCES

SYMBOL	7510C						
SURNAME	Mitchell						
DATE	11-17-03						

15
Re-entry into treated pools is prohibited above levels of 3ppm of chlorine due to risk of bodily injury.

3. *You must revise the re-entry language under Swimming Pool directions for use to read:*

Re-entry into treated pools is prohibited above levels of 3ppm of chlorine due to risk of bodily injury.

General Comments

The company name change is acceptable and will be made a part of the file for this product.

A stamped copy of the labeling accepted with conditions is enclosed. Submit a copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Wanda Mitchell at (703) 308-6345.

Sincerely,

*Robert S. Brennis
Product Manager - Team 32
Regulatory Management Branch II
Antimicrobials Division (7510C)*

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

NET WEIGHT: lbs. (kg)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER.

CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: DANGER. STRONG OXIDIZING

AGENT. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with the generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Adjust the pH of the pool water to between 7.2 and 7.8 as determined by a suitable test kit. Adjust the pool water total alkalinity to between 100 and 125 ppm. In new pools (pools that have been filled with fresh water) add Chlorine Stabilizer at a rate of one (1) pound per 5,000 gallons of water. This addition of Chlorine Stabilizer will result in a stabilizer level of approximately 30 ppm. Regular use of this product will provide any needed stabilizer make up.

Before initiating daily chlorine use, superchlorinate (shock treat) the pool water to eight (8) ppm chlorine residual by using 1 to 2 lbs. of this product per 7,500 gallons of water as determined by a suitable test kit. Allow the chlorine residual to return to the 1.0 - 1.5 ppm range as determined by a chlorine test kit.

For daily use, add this product at the rate of 2.5 oz. per 5,000 gallons of water. Add this product through the pool skimmer. Test the pool water with a chlorine test kit. More or less of this product may be needed to maintain a chlorine residual between 1.0 and 1.5 ppm.

EPA Letter Date

NOV 17 2003

Under the Federal Insecticide,
Fungicide and Rodenticide Act as
amended by the pesticide,
registered under EPA Reg. No. 69681-13

During especially hot periods and after heavy bather loads, superchlorinate (shock treat) the pool water to 8.0 ppm as directed above. Failure to superchlorinate can lead to the growth of pool water algae. If algae are present in the pool, use Clor Mor Algacide 60 Plus as directed on the product label.

REENTRY INTO TREATED POOLS IS PROHIBITED ABOVE LEVELS OF 3.0 PPM OF CHLORINE.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding container.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
