Corsicana, TX 75110

Subject: **Clor Mor Perfect Shock 15**
EPA Registration No. 69681-18
Application Date: March 27, 2009
Receipt Date: April 1, 2009

Dear Ms. Eldem:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification:

- Revisions to Stage and Disposal Statement per PR Notice 2007-4

General Comments:

Based on a review of the material submitted, the following comment applies:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Henson
Product Reviewer (32)

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

"Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Section - III

1. Material This Product Will Be Packaged In:					
Child-Resistant Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	2. CLOR MOR® PERFECT SHOCK 15

Optional marketing statements that may be used with [swimming pool] [spa] shock treatment and oxidizer applications:

- [For use in vinyl, plaster, painted or fiberglass surface pools]
- [For use on all [pool] [spa] types]
- [For use on all [pool] [spa] surfaces]
- [Ideal for vinyl pools]
- [Ideal for plaster pools]
- [Ideal for all [pool] [spa] types]
- [Ideal for all [pool] [spa] surfaces]
- [Ideal for [pool] [spa] start-ups]
- [Ideal for pool closings]
- [Ideal for winterizing treatments]
- [Effective winter shock treatment]
- [Quick dissolving]
- [Multi-functional oxidizer]
- [Multi-functional low chlorine oxidizer]
- [Multi-functional [pool] [spa] shock]
- [Multi-functional low chlorine [pool] [spa] shock]
- [Multi-functional shock treatment]
- [Multi-functional low chlorine shock treatment]
- [Multi-purpose shock and oxidizer]
- [Multi-purpose low chlorine shock and oxidizer]
- [Multi-oxidizer shock treatment]
- [For swimming pools and spas]
- [Fast acting]
- [Establishes immediate chlorine residual]
- [Boosts chlorine residual]
- [Boost bromine residuals in bromine treated spas]
- [Restores water clarity] [Controls]
- [Produces clear, sparkling water]
- [Add weekly for sparkling clarity]
- [[Part of a] weekly care [program]
- [Clears cloudy water]
- [[Oxidizes] [Eliminates] [Controls] contaminants that cause cloudy water]
- [[Oxidizes] [Eliminates] [Controls] organic contaminants]
- [[Oxidizes] [Eliminates] [Controls] organic waste]
- [[Oxidizes] [Eliminates] [Controls] swimmer contaminants]
- [[Prevents][Controls] algae]
- [Contains Oxone® oxygen-based oxidizer]
- [Combines the benefits of Oxone® with chlorine residual protection]
- [The combined power of Oxone® and chlorine]
- [Combines the power of Oxone® with low levels of chlorine]
- [Shock and oxidizer]
- [Shock, oxidizer, buffer and clarifier]
- [Eliminates chloramine odors]
- [Reduces chloramines]
- [Reduces chloramines which can cause irritation]
- [Shock and swim in 15 minutes]
- [Same day shock and swim]

[Anytime shock]
[Ideal for bromine treated spas]
[Ideal for spas with mineral systems]

ACTIVE INGREDIENTS

Sodium dichloro-s-triazinetriane 15.00%

OTHER INGREDIENTS 85.00%

100.00%

Available Chlorine 9.5%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for further treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for further treatment advice.

If Swallowed: Call Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage

See [Back] [Front] [Side] Panel Box for Additional Precautions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear chemical resistant gloves and protective eyewear. May be fatal if inhaled. Do not breathe dust or spray mists. Harmful if swallowed or absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

{Environmental Hazard statement for end-use products in containers of less than or equal to 5 gallons (liquid) or less than 50 pounds (solid, dry weight)}
[ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms.]

{Environmental Hazard statement for end-use products in containers of equal to or great than 5 gallons (liquid) or equal to or greater than 50 pounds (solid, dry weight)}

[ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA].

PHYSICAL OR CHEMICAL HAZARDS: Contains oxidizing agents. Do not mix with other chemicals or any other substance. Do not pre-dissolve or add water to this product. Always apply product directly into the pool or spa. Contamination of this product with moisture or small amounts of water, other chemicals, organic matter or other substances, can lead to product decomposition with generation of heat, liberation of hazardous gases, and potentially fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container outdoors in open air, and flood with large amounts of water.

Clor Mor Perfect Shock 15 is a powerful oxygen based oxidizer, and a chlorinating agent, combined with a pH buffer and a dry clarifier. This unique formulation provides the benefits of oxygen-based oxidation, while boosting free chlorine concentrations. This one-two punch keeps water sparkling clear, by oxidizing and eliminating organic contaminants. Since Clor Mor Perfect Shock 15 is buffered, it will not affect water balance; therefore pH and total alkalinity will remain unchanged. The addition of dry clarifier aids the oxidation/filtration process so water contaminants are more readily removed by routine filtration. Clor Mor Perfect Shock15 is specially formulated to prevent dull, hazy water, [and when used in conjunction with an EPA registered sanitizer like chlorine or bromine, inhibit the growth of algae.] Add Clor Mor Perfect Shock15 to [pool water every week] [spa water after every use] to oxidize contaminants introduced by bathers, and to maintain sparkling clear [pool] [spa] water.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY:

For Pools:

Always add with pump and filter running to ensure complete mixing and good circulation. Clor Mor Perfect Shock 15 is completely soluble and dissolves quickly, so no

7/9

mixing is required. Broadcast this product uniformly over the surface of the water, [adding about two thirds of the total dose into the deep end of the pool]. Apply product when swimming pool is not in use. Swimming may resume as soon as 15 minutes after product application, provided the chlorine residual concentration in the pool is between 1 and 3 ppm. Reentry is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

For pools with moderate daily use, add this product weekly at a dose of 1 pound per 10,000 gallons of pool water. Each pound of Clor Mor Perfect Shock 15 will raise the free chlorine concentration by 1 ppm (part per million) in 10,000 gallons of pool water. More frequent and/or heavier doses may be required during periods of heavy use or following heavy rains or high winds. [If an algae problem exists, add granular chlorine or an algaecide according to label directions.]

For pool opening and pool closing applications, add this product at a dose of 2 pounds per 10,000 gallons of pool water. This dose will provide sufficient oxidizer to eliminate most of the contaminants that accumulate in pool water, and will immediately raise the free chlorine concentration by 2 ppm (parts per million) in 10,000 gallons of pool water.

For Spas:

Always add Clor Mor Perfect Shock 15 with pump and filter operating to ensure complete mixing and good circulation. Clor Mor Perfect Shock 15 is completely soluble and dissolves quickly, so no mixing is required. Broadcast this product uniformly over the surface of the spa water. Apply when spa is not in use.

For most spas with normal bathing loads, this product should be added after every use, and once each week for maintenance, at a dose of 1-1½ ounce per 300 gallons of spa water. Each 1 ounce dose of this product will raise the free chlorine concentration by about 2 ppm (part per million) in 300 gallons of spa water. More frequent and/or heavier doses may be required during periods of extremely heavy use. Test chlorine level prior to re-entry to make sure the residual concentration in the spa is between 1 and 3 ppm. Reentry is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

Note: When used in conjunction with bromine sanitizers, this product will regenerate active bromine by oxidizing inert bromide salt to active bromine sanitizer. Both chlorine and bromine will be present for a short period of time. Test bromine level prior to re-entry to make sure the residual concentration in the spa is between 1 and 4 ppm.

~~[Storage and Disposal text for product sold in unit pack bags]~~

~~**STORAGE AND DISPOSAL:** Keep this product dry, in its original unopened bag until use. Store in a cool, dry, well-ventilated area, away from combustible materials, incompatible chemicals and sources of heat. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag in open area if possible and flood area with large amounts of water to dissolve all~~

~~material before discarding this bag. Do not contaminate food or feed by storage or disposal.~~

~~**CONTAINER DISPOSAL:** Rinse empty bag thoroughly. Do not reuse bag. Discard in trash.~~

9/9

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Residue Removal: Triple rinse container (or equivalent) promptly after emptying.
{Rigid nonrefillable containers small enough to shake with capacities equal to or less than 5 gallons}

[Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.]

{Rigid nonrefillable containers too large to shake with capacities equal to or greater than 5 gallons or 50 lbs}

[Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.]]
