U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:
69681-34

Date of Issuance:
12/08/2011

Term of Issuance:
Unconditional

Name of Pesticide Product:
Clor Mor Triple-Action Chlorinating Tabs

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
**Judy Eldem
Regulatory Manager
AllChem Performance Products
416 S. Main Street
Corsicana, TX 75110**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision Number: D-456798) is unconditionally registered in accordance with FIFRA sec 3(c)(7)(a) provided that you:

1. Submit a 1 year storage stability and corrosion characteristics study following OPPTS 830.6317 and 830.6320 guidelines.
2. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data and submit acceptable responses required for re-registration of your product under FIFRA section 4.

Signature of Approving Official:

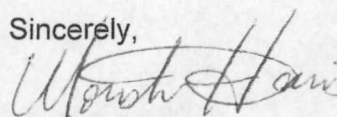

Monisha Harris Product Manager Team 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:
12/08/2011

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped label with comments is enclosed for your records. Submit one (1) copy of your final printed labeling prior to release of this product for shipment. Should you have any questions concerning this letter, please contact me by telephone at (703) 308-0410 during the hours of 8:00 am to 4:00 pm EST.

Sincerely,

Monisha Harris
Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Clor Mor Triple-Action Chlorinating Tabs

ACTIVE INGREDIENTS:	
Trichloro-s-triazinetriene	79.2%
Boron sodium oxide (B ₄ Na ₂ O ₇), pentahydrate	10.0%
OTHER INGREDIENTS:	
TOTAL INGREDIENTS	100.0%
(Available Chlorine 72%)	

**ACCEPTED
with COMMENTS
in EPA Letter Dated:**

DEC -8 2011

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.**

69681-34

**KEEP OUT OF THE REACH OF CHILDREN
DANGER**

See [back] [side] [panel] for [First Aid and] additional precautionary statements.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 911.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Net Contents:

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Highly Corrosive. Causes skin burns and irreversible eye damage. May be fatal if swallowed. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with any other chemicals except water. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

{Environmental hazards statements for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

4/5

{Environmental hazards statements for end-use products in containers of equal to, greater than 5 gallons (liquid), equal to, or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.]

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not contaminate food or feed by storage or disposal. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

- [Patented Chlorinating Technology]
- [Dual Active Ingredient Multi-Function Pool Care Product]
- [Algistat]
- [Triple-Action Formula]
- [Multi Function Triple Action Formula]
- [Suppresses algae]
- [Kills Bacteria, Controls Algae, and Clarifies]
- [For Routine Sanitation and Clarification]
- [Keeps Water Clear]
- [For Application in Skimmers, Floaters and Feeders]
- [For use in all pool types] {This statement alerts consumer to the fact they may use this product in above ground, in ground, indoor, outdoor, plaster, vinyl, fiberglass pools}
- [Suitable for use with alternative devices such as ionizers, ozonators, and mineral feeders]
- [Sanitizes, Clarifies, and protects against Algae]
- [With Built – In Clarifier, Filter Enhancer, Algae Preventative]
- [Contains Light Shield] {Marketing designation for cyanuric acid's UV stabilization of HOCl}
- [Dual active system that sanitizes, and suppresses algae]
- [3" Tablets]
- [3 – Inch Tablets]
- [A] [STEP 1] [1] [B] [STEP 2] [2] {Sanitizers are marketed as the first step or second step of a three or four step program, designated as shown, to treat swimming pool water}

{Following chart is optional}

Our Ingredients:	What They Do:
Trichloro-s-triazinetriene	Sanitizes, Kills Bacteria, and Prevents Algae
Boron sodium oxide (B ₄ Na ₂ O ₇)pentahydrate	Prevents Algae
Clarifier/Filter enhancer	Provides Crystal Clear Water

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

SWIMMING POOL SANITIZER

[We specially formulated this product to meet the rigorous demands of the pool service professional and the discerning pool owner.] [This patented multi-action formula continuously sanitizes, clarifies, enhances filtration, and controls algae – all in one easy to use tablet.]

Ensure all pool equipment is working properly. If necessary, backwash or clean the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. Add stabilizer to establish a minimum level of 20-30 ppm cyanuric acid to reduce the degrading effects of sunlight upon the chlorine residual. Superchlorinate the pool so a chlorine residual between 1-4 ppm is obtained. When using other products as outlined in directions for this product, always follow directions on those products.

This product contains a clarifier/flocculating agent that helps the filter system remove impurities from water via filtration. When necessary, backwash or clean the filter system following manufacturer's directions. [For chemically cleaning the filter, an acidic filter cleaner is recommended.]

[WHEN USED IN AUTOMATIC CHLORINATORS AND FLOATERS:

This product can be used in proportioning mechanisms such as automatic chlorinators and floaters as a maintenance treatment. Fill unit with this product and, following manufacturer's directions, adjust the feeding mechanism to assure a constant treatment level of 1-4 ppm available chlorine in the pool water. Use a test kit or test strips to monitor chlorine levels. Adjust the feed mechanism as needed. Check and refill the automatic chlorinator or floater as needed. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.]

[WHEN USED IN SKIMMERS:

Initially add two tablet of this product per 10,000 gallons of water or portion thereof. (**See below) Add additional product as determined by a test kit or test strip to maintain available chlorine levels of 1-4 ppm. Divide number of tablets evenly for pools with multiple skimmers. This product may be used in plastic skimmers only if skimmer and the piping between skimmer and pump are plastic. Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result. Do not turn pump off for more than 8 hours in vinyl pools when tablets are in skimmer.

** Operate pool recirculation system approximately 10 hours per day for best results. Adjusting the hours of pool recirculation or the number of tablets added to the skimmer helps to regulate the sanitizer level. The number of tablets required and frequency of addition will vary with the number of swimmers, water temperature, rain showers, and pump operating time.]

Reentry into treated swimming pools is prohibited when chlorine levels are above 4 ppm due to risk of bodily injury.

{The following is optional text for swimming pool use directions.}

[HOW TO CALCULATE POOL CAPACITY

Shape of Pool Gallons of water

- Rectangular Average depth x average length x average width x 7.5
- Circular Diameter x diameter x average depth x 5.9
- Oval Full width x full length x average depth x 5.9
- Irregular Consult pool builder]
