PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS. STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release hazardous gases which is irritating to eyes, lungs, and mucous membranes.

STORAGE AND DISPOSAL: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. Do not reuse container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

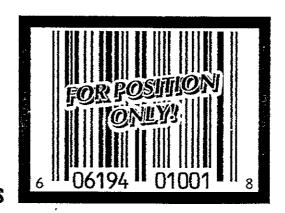

IN THE EVENT OF A MEDICAL EMERGENCY CALL CHEMTREC 1-800-424-9300

SOLD ONLY BY THE CASE CONSUMER COMMODITY ORM-D

Chlorinating liquid is convenient and economical to use for routine sanitizing or for periodic superchlorination of your pool. When used regularly as part of a complete maintenance program, it will help prevent the growth of harmful algae and micro-organisms.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

NOTE: This product degrades with age, use a chlorinating liquid test kit and increase dosage as necessary to obtain the required level of available chlorinating liquid.

SHOCK/SUPERCHLORINATION: Add 54 to 108 oz. of this product for each 10,000 gallons of pool water to yield an available chlorinating residual of 5 - 10 ppm. Do not use pool until residual is less than 3.0 ppm.

DAILY CHLORINATION: Add 12 oz. of this product for each 10,000 gallons of pool water to provide approximately 1.0 ppm available chlorinating liquid.

Maintain 1.0 to 1.5 ppm in unstabilized pools and 1.0 to 3.0 ppm in stabilized pools. Add chlorinating liquid at night after running filter. Check in the morning and adjust as necessary.

IMPORTANT: Maintain pH between 7.2 - 7.6. Maintain alkalinity between 50 to 100 ppm.

DO NOT STORE CHLORINATING LIQUID NEXT TO ACID

STORE IN A COOL DRY PLACE
