DIRECTIONS FOR USE

- Animals frequently defecate on hot rocks and other cage furniture items inside your terrarium. When used regularly, *WIPE OUT 1 2* can eliminate these high bacteria/ammonia levels on your cage furniture items.
- Remove hot rocks, caves, and other cage furniture items (including substrate) from your terrarium.
- Saturate the surfaces of the items by spraying on Wipe Out 1 2 and let them stand for 5 minutes. Then wipe items dry.

REMEMBER - Substrates for desert terrariums (i.e. gravel) must be completely dry before returning to terrarium to avoid high humidity levels. Always replace substrate if a foul odor persists.
