DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

EcoSharp™ Weed & Grass Killer-Ready To Use is a foliar active weed control product which contains vinegar as the active ingredient and extracts from lemon juice. It is non-selective to both broadleaf and grassy weeds and is used on non-food areas such as borders, driveways, sidewalks, around mature tree bases, around buildings, in fence rows, in greenhouses, and around flower beds.

EcoSharp Weed & Grass Killer-Ready To Use is fast acting. Foliar contact results in rapid desiccation and control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses (see Table on page. 3). Re-treatment is required for control of established perennial weeds.

FOR EARLY SEASON ANNUAL WEED CONTROL: When weeds are small (3 to 5 leaf) and actively growing, apply EcoSharp Weed & Grass Killer-Ready To Use to the foliage of weeds, making sure that all of the foliage is wet. Thorough coverage is necessary to achieve desirable control.

EcoSharp Weed & Grass Killer-Ready To Use is fast acting. It can be applied up to one hour before rainfall and still be effective. If it rains less than one hour after treatment, determine if treated leaves are showing symptoms. If symptoms are not obvious, wait until the leaves dry and re-treat.

EcoSharp™ WEED & GRASS KILLER-RTU

FOR CONTROL OF LARGER ANNUALS AND BURNDOWN OF PERENNIAL WEED GROWTH: Larger annual weeds and perennials are more difficult to control and may require re-treatment. Treat initially as above and repeat if new growth of leaves appear. Thorough coverage of all green foliage is necessary to achieve desirable control.

Best results are achieved from spring/early summer applications to actively growing young weeds. Weeds that are mature, dormant, or hardened due to moisture stress are more tolerant of herbicide treatments. Only contacted vegetation will be affected. Rainfall within one hour of application will reduce degree of control.

Application to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture may cause staining, mottling, or otherwise mar finished metal surfaces.

DO NOT APPLY THIS PRODUCT THROUGH ANY TYPE OF IRRIGATION SYSTEM.

DO NOT ALLOW CONTACT WITH DESIRABLE PLANTS. OVERSPRAY OR DRIFT WILL INJURE OR KILL CONTACTED VEGETATION.

TYPICAL WEEDS CONTROLLED
ANNUAL BROADLEAF WEEDS: Black medic, Chickweed, Cinquefoil (rough), Lambsquarters, Mustard spp., Oxalis spp., Pigweed spp., Ragweed spp.
