Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5) subject to the comments listed below:

1. Make the following label changes:

- a. Add the phrase "EPA Registration Number 70051-29" to your label before you release the product for shipment.
b. Add intended sites and pests for end products to the front panel, right below product name. Something like "For formulating into end-use insecticide products for outdoor and indoor use in ornamentals and agricultural crops" will suffice.
c. Under Storage and Disposal statement, change the subheading "Storage" to "Pesticide Storage."

- d. Delete the statement "Contains 0.175 pounds (79.45 grams) of dihydroazadirachtin per pound" from the front panel. This amount is evident in the percentage statement, and does not need to be repeated.
  - e. Change the company name and address to your own on the front panel.
  - f. Explain the reason for the product expiration date on the front panel.
  - g. Give appropriate EPA establishment number.
  - h. Since your application form does not give container size or net contents information, add appropriate net contents to the label.
2. Submit five copies of the final printed labeling before you release this product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Unconditional registration does not eliminate the need for continual reassessment of a pesticide. If EPA determines, at any time, that additional data are required to maintain in effect, an existing registration, the Agency will require submission of such data under Section 3(c)(2)(B) of FIFRA.

A stamped copy of the label is enclosed for your records.

Sincerely,

Janet L. Andersen, Director  
Biopesticides and Pollution  
Prevention Division (7501W)
