**SIDE PANEL**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**Caution**

Prolonged or frequently repeated skin contact may cause allergic skin reactions in some individuals. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Remove contaminated clothing and wash clothing before reuse. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

---

**FIRST AID**

**IF ON SKIN OR CLOTHING:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15–20 minutes.
- Call a poison control center or doctor for treatment advice.

**IF IN EYES:**

- Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1–800–XXX–XXXX for emergency medical treatment information.

## SIDE PANEL – Ornamental Use Label

### Environmental Hazards:

This pesticide is extremely toxic to fish and aquatic organisms and toxic to wildlife. Do not place the device on pond, river, lake or stream banks, or other places where they can fall into water.

---

### DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

### Directions for Using Attract and Kill Target Device

The Olive Fly Attract and Kill Target Device provides season long protection against olive fly attack to olive fruit in ornamental plantings. Use the target device as follows.

Wear gloves when hanging the device.

Use Rate: Apply 1 Target Device per tree:

Hang 1 target device on each olive tree as follows:

- Apply before olive fruit remaining from previous season becomes susceptible to egg laying or before the first attack of new fruit of the season. Contact your local agricultural extension specialist for guidance on olive fly activity in your area.
- Use one device per tree.

- Hang the device in the tree on a branch that is not likely to break or be pruned before the end of the season. Hang the device in the tree as high as practical.
- Hang the device by sliding it over the branch so that the branch is in the center of the device, and hook using the tab attachments. When attached properly, the device will form a cone shape around the branch with the lures on the inner surface of the cone. Insure that the lures are on the inner side of the cone as attached to the tree branch.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in cool, dry area away from heat or open flame.

**Pesticide Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

### WARRANTY

CERTIS USA LLC warrants that the material contained herein conforms to the description on the label and is reasonably fit for the purposes referred to in the directions for use. Timing and method of application, weather, watering practices, nature of soil, the insect problem, condition of the crop, incompatibility with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herein. NO OTHER EXPRESS OR IMPLIED WARRANTY OF THE FITNESS OR MERCHANTABILITY IS MADE.
