RE: Product Name: MCSI Methoprene Ant Killer Bait
EPA Reg. No: 70062-6
Application for Label Notification Dated September 28, 2010 to update storage
and disposal statement per PR Notice 2007-4 and to update the name, address, net
contents and EPA registration number

Dear Ms. Galloway:

The Biopesticides and Pollution Prevention Division is in receipt of your application for Notification under Pesticide Registration (PR) Notice 98-10 dated above. A preliminary screen of this request has been conducted for its applicability under PR Notice 98-10 and it has been determined that the action(s) requested falls within the scope of PR Notice 98-10. Our records have been duly noted, and the label submitted with this application has been stamped "Notification Accepted" and will be placed accordingly in our records.

If you have any questions concerning this action, please feel free to contact Ms. Menyon Adams at (703) 347-8496 or email at adams.menyon@epa.gov.

Sincerely,

Linda Hollis

Linda Hollis, Chief
Biochemical Pesticides Branch
Biopesticides and Pollution Prevention
Division (7511P)

SUBJECT: MCSI Methoprene Ant Killer Bait, EPA Reg. No. 70062-6

Dear Ms. Hollis,

Please find enclosed the following documents on behalf of BĀBOLNA BIOENVIRONMENTAL CENTRE LTD., for MCSI Methoprene Ant Killer Bait, EPA Reg. No. 70062-6:

- Application for Pesticide (EPA Form 8570-1).
- One copy of "clean" draft labeling for MCSI Methoprene Ant Killer Bait.
- One copy of "highlighted" draft labeling for MCSI Methoprene Ant Killer Bait.
- A copy of the Transfer of Pesticide Registrations and Data from Company Number 63823 to Company Number 70062 letter.

The registration of MCSI Methoprene Ant Killer Bait was transferred from EPA Reg. No. 63823-45 to EPA Reg. No. 70062-6 on July 16, 2008, due to MANAGEMENT CONTRACT SERVICES, INC. transferring their registrations to BĀBOLNA BIOENVIRONMENTAL CENTRE LTD. Provided is a copy of the Transfer of Pesticide Registrations and Data letter for your reference. Pursuant to the transfer of the registration of MCSI Methoprene Ant Killer Bait, the enclosed draft labeling reflects the current registrant name and address, net contents, and EPA registration number. Additionally, the storage and disposal section of the label has been updated. Changes made to the enclosed revised label comply with the requirements of PR Notice 98-10. All changes are highlighted in yellow background with additions in normal type-face and deletions in ~~strikethrough~~.

Please contact us if you have any questions or need additional information.

Best regards,

Peggy Galloway

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CONTROL OF PHARAOH ANTS

General Information

MCSI METHOPRENE ANT KILLER BAIT is an insect growth regulator (IGR). When foraging ant workers take bait into the mound to feed the queen and brood, methoprene kills larvae, disrupts egg development and metamorphosis, and prevent egg production by the queen.

Pharaoh ants lay their nests in hidden places (mainly in kitchens and bathrooms), in wall cracks, and along pipes and sockets. A single nest may consist of several thousand workers and, unlike other ant species, several queens. If a single queen and any workers survive the treatment, the population will be able to reproduce. Where there are many ants present, it is recommended to reduce the number of migratory workers by using a traditional insecticide spray two (2) weeks before the application of MCSI METHOPRENE ANT KILLER BAIT. Following the use of the bait, a final treatment with a traditional insecticide spray can kill the few remaining workers. NOTE: DO NOT APPLY ANY OTHER INSECTICIDE FORMULATION WHILE USING THE BAIT.

Bait Application

To open the entrances of the bait station, cut off top of packaging along the dotted line as indicated. From the bottom of the bait station, tear off the sticker-protecting foil and stick the bait station near frequently used routes of foraging ants. To avoid spilling the bait, position the bait station with its entrances facing upwards or sideways as indicated by the arrow. Following placement of the bait, you may observe more ants than before due to the bait's attraction. If there is a large population of ants and/or the bait station becomes empty or damaged (e.g., gets drenched), replace it with a new bait station. It is recommended to leave the bait at the same place for a period of 3 months, even if the ants disappear from the premises much earlier.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store unused product in original container only in a cool, dry area out of the reach of children or animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

WARRANTY AND CONDITIONS OF SALE

MCSI METHOPRENE ANT KILLER BAIT

To the fullest extent permitted by law, seller makes no warranty, express or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instruction.
