Washington, D.C. 20036

Subject: Label Amendment – Updated Precautionary Language, Marketing Claims, and Storage and Disposal Language
Product Name: Sani-Pure Sanitizer and Cleaner
EPA Registration Number: 70258-4
Application Date: July 13, 2017
Decision Number: 531645

Dear Ms. Amadio:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 70258-4
Decision No. 531645

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Donna Kamarei at (703)347-0443 or via email at Kamarei.donna@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Wanda G. Fuller, for". The signature is written in a cursive style.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles, or face shield, protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish and aquatic organisms. Do not discharge into lakes, streams, ponds or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT:

MIX ONLY WITH WATER, according to label instructions ("Directions"). Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water.

PESTICIDE DISPOSAL: Product or residues that cannot be used must be diluted with water before disposal in a sanitary sewer.

CONTAINER DISPOSAL Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

FOR RINSE OR IMMERSION METHODS OF SANITIZING:

Prepare 100 ppm sanitizing solution by thoroughly mixing 1/2 ounce of this product (1 ounce = 2 tablespoons) with 1 gallon of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 1 ounce of this product with one gallon of water to provide approximately 200 ppm available chlorine by weight. Clean equipment in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution for a least 2 minutes and allow the sanitizer to drain. If solution contains less than 50 ppm available chlorine, as determined by a suitable test kit, either discard the solution or add sufficient product to establish a 200 ppm residual. Do not rinse equipment with water after treatment and do not soak equipment overnight. Sanitizers used in automated systems may be used for general cleaning but may not be re-used for sanitizing purposes.

NET CONTENTS:

Right Panel on Label

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CLEANING PRIOR TO SANITIZING:

Equipment must be cleaned prior to sanitizing with a good detergent, followed by a potable water rinse. Gross food particles and soil must be removed by a pre-flush, or pre-scrape and, when necessary, pre-soak treatment. Sanitizing: For manual operations, fresh sanitizing solution should be prepared at least daily or more if the solution becomes diluted or soiled.

TEA & COFFEE VESSELS, ICED CAPPUCCINO & GRANITA MACHINES:

Use 2 tablespoons (1 oz.) of SANI-PURE for each 1 gallon of water (liquid) capacity to provide approximately 200 ppm available chlorine. Immerse and allow solution to soak in warm water for 2 minutes. Brush vessel surfaces. (If applicable, run a "cycle" of any machine being sanitized so that lines, valves and faucets are also sanitized.) Then drain thoroughly. **ALLOW TO AIR DRY ONLY. DO NOT WIPE.**

SOFT SERVE MACHINES:

Use 1 oz. (2 tablespoons) of SANI-PURE added to each gallon of water in mix hopper. Pump into freezer and operate for about five minutes drain for sanitizing, repeat process with a 2 minute cycle of mixing, then drain. Air dry only.

FOR RINSE OR IMMERSION METHODS OF SANITIZING:

Prepare 100 ppm sanitizing solution by thoroughly mixing 1/2 ounce of this product (1 ounce = 2 tablespoons) with 1 gallon of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 1 ounce of this product with one gallon of water to provide approximately 200 ppm available chlorine by weight. Clean equipment in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution for at least 2 minutes and allow the sanitizer to drain. If solution contains less than 50 ppm available chlorine, as determined by a suitable test kit, either discard the solution or add sufficient product to establish a 200 ppm residual. Do not rinse equipment with water after treatment and do not soak equipment overnight. Sanitizers used in automated systems may be used for general cleaning but may not be re-used for sanitizing purposes.

ALL OTHER VESSELS & UTENSILS:

Use 1 oz. (2 tablespoons) of sanitizer for each gallon of liquid capacity. Allow to soak for 2-3 minutes. Drain and allow to air dry.
