Subject: Label Amendment: Emerging Viral Pathogens Claim
Product Name: 2% Sodium Hypochlorite Spray
EPA Registration Number: 70271-15
Application Date: March 13, 2020
Decision Number: 560939

Dear Ms. Brandon:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is large non-enveloped and enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Rhinovirus Type 37 is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact the disinfectants list at disinfectantslist@epa.gov.

Sincerely,

Steven Snyderman, Acting Product Manager 33

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wear protective gloves for repeated use.

FIRST AID: Call a Poison Control Center [1-866-366-5048] or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

[Optional: may be included if desired but not required based on toxicity studies:]

If inhaled: Move to fresh air immediately and restore breathing. If breathing problems develop, call 911 then give a mouth to mouth resuscitation. **If swallowed:** DO NOT INDUCE VOMITING. Have person drink a glassful of water if able to swallow. Do not give anything by mouth to unconscious person.]

[In accordance with PR notice 95-1, use the following complete Environmental Hazards statement for containers 5 gallons and larger]

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

[For containers smaller than 5 gallons use the following:]

Environmental Hazards

This product is toxic to fish and aquatic organisms.

Physical or Chemical Hazards

Strong oxidizer. Flush drains before and after use. Do not use or mix with other household chemicals, such as toilet bowl cleaners, rust removers, acid or ammonia containing products. To do so will release hazardous gasses. Prolonged contact with metal, old porcelain, or worn plastic laminate may cause pitting or discoloration.

[DISINFECTING / SANITIZING CLAIMS: Choose from the following as appropriate, location is optional.]
[ATCC numbers are required on the master label, but are not required to be listed on the production label]
[This product, when used as directed on hard, non-porous surfaces, is effective against the following:]

DISINFECTANT:

FUNGICIDAL [If fungicidal organisms claims used, fungi/mold/mildew 5 minute directions must be on label]
Trichophyton mentagrophytes [(Athlete's foot fungus)] [ATCC 9533]
Aspergillus brasiliensis [(mildew)] [ATCC 16404]

BACTERICIDAL

Escherichia coli [(E. coli)] [ATCC 11229]
Pseudomonas aeruginosa (Pseudomonas) [ATCC 15442]¹ [use only with 5 minute directions on label]
Salmonella enterica [(Salmonella)] [ATCC 10708]
Staphylococcus aureus [(Staph)] [ATCC 6538]
Methicillin Resistant Staphylococcus aureus [(MRSA)] [ATCC 33592]
Streptococcus pyogenes [(Strep)] [ATCC 12344]
¹ 5 minute contact time

VIRUCIDAL*** [link viruses with asterisks as shown]

Avian Influenza A virus [(Avian Flu Virus)] [ATCC VR-2072]
Influenza A virus [ATCC VR-544]
H1N1 Influenza A virus [ATCC VR-333, Strain A/Swine/Iowa/15/30] [Pandemic 2009 H1N1 Influenza A virus]
Rhinovirus type 37 [(viruses that cause colds [and flu])] [ATCC VR-1147, Strain 151-1]

SANITIZER:

[full strength 30 seconds, Toilet bowl 5 minutes]

FOR USE IN:

[The following headings may be placed above or in front of appropriate directions (e.g., Household Use in front of directions for dishes or floors)]

Daycare Center[s]	Diners	Eating Establishments	Farm[s] – Dairy [Dairies]
Food Processing Plant[s]	Foodservice	Fitness Centers	Gym [Health] Clubs
Home[s]	Hotel[s]	Household[s]	Institution[s]
[Pet] Kennel[s]	Locker Room[s]	Restaurant[s]	School[s]
Veterinary Premises			

Hospitals, Medical Clinics, Medical Facilities, Nursing Homes [use specific directions below]

Kitchen - [Clean and] disinfect hard, nonporous surfaces [including]: Appliances, countertops, faucets, floors, freezers, garbage disposals, glass, glazed ceramic tile, linoleum, microwave ovens, painted woodwork, refrigerators, sinks, stoves, stove tops, trash cans, trash bins, vinyl, walls, work surfaces
[Select any combination of Kitchen Use Sites as appropriate]

Bathroom - Disinfect [and deodorize] hard, nonporous surfaces [including]: Bathtubs, countertops, faucets, floors, glazed ceramic tile, glazed porcelain, showers, shower walls, sinks, vinyl, walls
[Select any combination of Bathroom Use Sites as appropriate]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Use one or more of the following use directions as appropriate; may be used in any order.]

CLEANING, DEODORIZING, STAIN REMOVAL: [Select one or more sets of directions as appropriate]

To clean [and remove stains]: Use full strength or mix 1 cup of this product in 1 gallon of water. Apply with a sponge, mop or rag. Rinse or wipe clean.

To clean floors: Mop floor with 1 cup of this product mixed with 1 gallon of water. Rinse for best shine.

Toilet bowls: Flush toilet and add ¼ cup of this product to bowl water. Brush thoroughly to wet all surfaces, including under the rim. Let stand 5 minutes before flushing.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. [Rinse or] wipe clean.

ALLERGENS: [Select one or more sets of directions as appropriate]

To [clean and] remove specified allergens³: Use full strength or mix 1 cup of this product in 1 gallon of water. Apply with a sponge, mop or rag. Rinse or wipe clean.

[Spray application] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. [Rinse or] wipe clean.

Allergens³:

- Dust mite matter -or- particles
- Cockroach matter -or- particles
- Pet dander

[Household/Commercial/Institutional Use]

DISINFECTION: *[Select one or more sets of directions as appropriate]*

[If both wipe and spray directions are used on any of the label's disinfection directions (including disinfection, kitchen, bathroom, fungi (mold/mildew)) the following sentence need appear only once "For heavily soiled surfaces, preclean surface before disinfecting." The bracketed asterisk [] shows the sentence which may be removed.]*

DISINFECTION: [To [clean and] disinfect hard, non-porous surfaces]:

Apply [this product] with sponge, mop, or rag to wet surface[s] completely. Let stand 1 minute. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before disinfecting.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 60 seconds [or 1 minute]. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before disinfecting.

[For [use as a spray for] Avian Influenza A virus: This product should be used as a spray only for surfaces which are not conducive to treatment by immersion or excess liquid (e.g., cages, equipment tables, lab benches, faucets handles, door knobs, and similar "high touch" surfaces).]

KITCHEN¹ [Use sites]: Hard non porous surfaces [including]: Appliances, countertops, faucets, floors, freezers, garbage disposals, glass, glazed ceramic tile, linoleum, microwave ovens, painted woodwork, refrigerators, sinks, stoves, stove tops, trash cans, trash bins, vinyl, walls, work surfaces

KITCHEN: [To] [clean and] disinfect hard, nonporous surfaces *[Choose Use Site from the above list¹]:*

Apply [this product] with sponge, mop, or rag to wet surface completely. Let stand 1 minute. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before disinfecting.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 60 seconds [or 1 minute]. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before disinfecting.

BATHROOM² [Use Sites]: Hard non porous [surfaces] [including]: Bathtubs, countertops, faucets, floors, glazed ceramic tile, glazed porcelain, showers, shower walls, sinks, vinyl, walls

BATHROOM: [To] Disinfect [and deodorize] hard, nonporous surfaces *[Choose Use Site from the above list²]:*

Apply [this product] with sponge, mop, or rag to wet surface completely. Let stand 1 minute. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before disinfecting.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 60 seconds [or 1 minute]. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before disinfecting.

[[Hospital Use] or [To Kill Pseudomonas aeruginosa:]]

DISINFECTION: [To [clean and] disinfect hard, non-porous surfaces]:

Apply [this product] with sponge, mop, or rag to wet surface completely. Let stand 5 minutes. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before disinfecting.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 5 minutes. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before disinfecting.

[If trichophyton, aspergillus, or mold/mildew listed on label then the following must be used:]

[FUNGI AND] MOLD AND MILDEW: *[Select one or more sets of directions as appropriate]*

Kills mold and mildew [in 5 minutes]

Kills Athlete's Foot Fungus [in 5 minutes]

To [clean and] kill fungi [and/or] mold [and/or] mildew [on hard, nonporous surfaces]:

Apply [this product] with sponge, mop, or rag to wet surface[s] completely. Let stand 5 minutes. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before disinfecting.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 5 minutes. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before disinfecting.

SANITIZING: *[Select one or more sets of directions as appropriate]*

[If both wipe and spray directions are used on the label's sanitizing directions, the following sentence need appear only once: "For heavily soiled surfaces, preclean surface before disinfecting." The bracketed asterisk [] shows the sentence which may be removed.]*

[To [clean and] Sanitize nonfood hard, nonporous surfaces]:

Apply [this product] with sponge, mop, or rag to wet surface completely. Let stand 30 seconds. [Rinse or] wipe clean. [*]For heavily soiled surfaces, preclean surface before sanitizing.

[Spray application:] [Turn nozzle [counter] clockwise to [open -or- spray -or- foam].] Spray product 4-6 inches from surface until thoroughly wet. Let stand 30 seconds. [Rinse or] wipe clean. For heavily soiled surfaces, preclean surface before sanitizing.

Toilet Bowls: To sanitize and deodorize pre-cleaned toilet bowls, use 1 ½ cups of this product.

1. Flush, pour in bleach – swab with brush, making sure to get under the rim
2. Let stand for 5 minutes.
3. Flush. DO NOT use with bowl cleaners or any other household chemicals.

REFILL

[Refill only with this product]

To Refill [Spray Bottles]:

1. **Remove:** Remove trigger sprayer [or cap] from empty bottle.
2. **Pour:** Unscrew cap on refill and pour contents directly into empty bottle.
3. **Use:** Replace trigger sprayer and use as you normally would.

[Alternate language:]

[Remove trigger sprayer from empty bottle,] unscrew cap and transfer your trigger sprayer to this bottle.

[Use one or more of the following headings:]

[Veterinary Clinics] [Animal Life Science Laboratories] [Zoos] [Pet Shops] [Kennels] [Breeding and Grooming Establishments] [Animal Housing Facilities] [Poultry Houses] [Hatcheries]: [Kills Avian Influenza A virus]. For cleaning and disinfecting hard, non-porous surfaces: equipment, utensils, instruments, cages, kennels, stables, and catteries. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from floors, walls, and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with potable water. Saturate surfaces with this product and let stand for 1 minute. Drain and rinse with potable water. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals as well as forks, shovels, scrapers used in removing litter and manure. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed and then rinsed. All treated feed/water bowls, racks, troughs, automatic feeders, fountains, and waterers must be rinsed with potable water before reuse.

STORAGE AND DISPOSAL

[For non refillable container:]

Store in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. **Non refillable container.** Do not re-use or refill this container. Offer for recycling if available or place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

[OR:

Alternate wording for refillable container:]

Store in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. **Refillable container.** Refill this container with this product only. Do not re-use this container for any other purpose. Offer container for recycling if available or place in trash collection.
