KIK International, LLC  
c/o Delta Analytical Corporation  
12510 Prosperity Drive, Suite 160  
Silver Spring, MD 20904

Subject: PRIA Label Amendment – Application to Add Additional Public Health Claims to the Product Label.  
Product Name: “Nova”  
EPA Registration Number: 70271-31  
Application Date: August 26, 2020  
Decision Number: 565884

Dear Ms. Sumski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

Page 2 of 2  
EPA Reg. No. 70271-31  
Decision No. 565884

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Michael Varco by phone at 703-347-0403, or via email at [Varco.Michael@epa.gov](mailto:Varco.Michael@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Fuller', with a long horizontal line extending to the right.

Demson Fuller, Product Manager 32

**KEEP OUT OF REACH OF CHILDREN  
DANGER***{Note to Reviewer: In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.}*

**FIRST AID:** Call a poison control center [(1-800-222-1222)] [(1-866-366-5048)] or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on skin or clothing:** Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. **If swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. **Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

See side [or back] panel for additional precautionary labeling. [additional precautions]

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans and Domestic Animals**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear safety glasses and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Avoid breathing vapors and use in a well-ventilated area. Remove and wash contaminated clothing before reuse.

*[In accordance with PR notice 95-1, use the following complete Environmental Hazards statement for containers 5 gallons and larger:*

**Environmental Hazards**

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

*[For containers smaller than 5 gallons use the following:]*

**Environmental Hazards**

This product is toxic to fish and aquatic organisms.

**Physical and Chemical Hazards**

**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) may release chlorine gas and other hazardous gases irritating to eyes, lungs, and mucous membranes. Prolonged contact with metal may cause pitting or discoloration.

**STORAGE AND DISPOSAL**

Do not contaminate food or feed by storage, disposal or cleaning of equipment. Store in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water. Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

**Container Disposal:**

*[For Residential uses only]*

Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash [collection].

*[For Institutional uses only, nonrefillable container 5 gallons or less]*

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Dispose of rinsate in sanitary sewer. Offer for recycling if available or place in trash.

**[List of Approved Organisms:]**

[ATCC numbers are required on the master label, but are not required to be listed on the production label]

This product, when used as directed on hard, non-porous, pre-cleaned surfaces, is effective against the following:

[Note: Disinfection Use Rate of 1/3 cup product to 1 gallon of water, 10 minute contact time]

**FUNGICIDAL**

- *Trichophyton interdigitale* (Athlete's foot fungus) [ATCC 9533]

**BACTERICIDAL**

- *Escherichia coli* (E. coli) [ATCC 11229]
- *Pseudomonas aeruginosa* (pseudomonas) [ATCC 15442]
- *Salmonella enterica* (salmonella) [ATCC 10708]
- *Staphylococcus aureus* (staph) [ATCC 6538]

**VIRUCIDAL**

- Influenza A H3N2 virus [ATCC VR-544]
- Rhinovirus type 37 [ATCC VR-1147]
- SARS-Related Coronavirus 2 (SARS-CoV-2) (Cause of COVID-19) [Strain Isolate USA-WA1/2020]

[Note: Non-food contact Sanitizer Use Rate of 1/3 cup product to 1 gallon of water, 2 minute contact time; toilet bowl sanitizing directions 5 minute contact time]

**Non-food contact Sanitizer**

- *Staphylococcus aureus* (staph) [ATCC 6538]
- *Enterobacter aerogenes* [ATCC 13048]

[Laundry Sanitizer Use Rate of 2/3 cup product to 16 gallons of water, 10 minute contact time]

**Laundry Sanitizer**

- *Staphylococcus aureus* (staph) [ATCC 6538]
- *Klebsiella pneumoniae* [ATCC 4352]

[Note: Mildew Claims Disinfection Use Rate of 3/4 cup product to 1 gallon of water, 10 minute contact time; included in separate alternate disinfection directions section B]

- [• *Aspergillus brasiliensis* (mildew) [ATCC 16404]]

**[Optional Antimicrobial Claims:]** [Note: In accordance with EPA 2005 “Germs” policy, asterisk next to “germs” is optional because all three major classes of organisms are approved.]

[Note: "New" and "Old" can only be used with bottle graphics for the first 6 months after product placed into the marketplace]

## Emerging Viral Pathogens Claims

[This product qualifies for emerging viral pathogen claims per EPA's "Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels" when used in accordance with the appropriate use directions indicated below.]

[This product meets the criteria to make claims against emerging viral pathogens from the following viral categories:]

For an emerging viral pathogen that is a/an:	...follow the directions for use for the following organism on the label:
Enveloped Virus	Rhinovirus type 37
Large Non-Enveloped Virus	Rhinovirus type 37

[Statements must adhere to one or both of the following formats:]

**[Product name]** has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **[product name]** can be used against **[name of emerging virus]** when used in accordance with the directions for use [against **[name of supporting virus – see table above]**] on hard non-porous surfaces. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

**[Name of illness/outbreak]** is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use [against **[name of supporting virus – see table above]**] on hard non-porous surfaces. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

[These statements shall not appear on marketplace (final printed) labels]

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**[LAUNDRY USE]:** [Choose one or more sets of directions as appropriate:]

Laundry	Product	Water	Instructions
 <p><b>DO NOT</b> use on Acetate, Leather, Silk, Spandex, Wool, Mohair or non-fast colors.</p>	<p><b>Whiten Laundry</b></p> 		<ol style="list-style-type: none"> <li>Sort laundry by color.</li> <li>Add laundry detergent.</li> <li>Fill bleach dispenser to max line or add the designated measured amount of bleach to wash water.</li> <li>Add laundry to the machine and start the wash cycle. To sanitize laundry ensure laundry is in contact with bleach for at least 10 minutes.</li> </ol>
	<p><b>Sanitize Laundry</b></p> 		
<p>Laundry Sanitizers: Bacteria: <i>Klebsiella pneumoniae</i>, <i>Staphylococcus aureus</i> (staph)</p>			

**LAUNDRY USE:**

1. Before adding clothes, mix 1/3 cup of bleach with water in washing machine. For HE Washers, add using the bleach dispenser following the machine manufacturer’s instructions. 2. Add clothes. 3. Wash and rinse with usual cycles. [DO NOT use on Acetate, Leather, Silk, Spandex, Wool, or Mohair and [or] non-fast colors.]

**LAUNDRY USE:**

- Sort your laundry by color and fabric type.
- Add 1/3 cup of bleach and laundry detergent to wash water.
- Add laundry.

**To Sanitize Laundry<sup>##</sup>:** add 2/3 cup of this product per load for standard washing machine [16 gallon]. If clothes are in machine, dilute product with 1 quart of the wash water before adding. Wash and rinse with usual cycles ensuring laundry is in contact with bleach solution for at least 10 minutes.

<sup>##</sup> Sanitizes: *Staphylococcus aureus* (staph) & *Klebsiella pneumoniae*

**[A. DISINFECTION DIRECTIONS WITH USE RATE OF 1/3 CUP PRODUCT TO 1 GALLON OF WATER. If Aspergillus is on the label, see B. ALTERNATE DIRECTIONS WITH USE RATE 3/4 cup]**

**[DISINFECTING] [To Disinfect]:** [Choose one or more sets of directions as appropriate:]

Disinfect Hard Non-porous Surfaces:	Product	Water	Instructions
 <p>Bathtubs, countertops, faucets, floors, glazed ceramic tile, glazed porcelain, showers, plastic shower curtains, shower walls, sinks, vinyl, walls</p>			<ol style="list-style-type: none"> <li>1. Use 1/3 cup of bleach per gallon of water.</li> <li>2. Pre-wash surface and rinse, then apply the disinfecting solution.</li> <li>3. Let stand 10 minutes, then rinse thoroughly and air dry.</li> </ol>

**[KITCHEN:** [Optional to list one or more:][Use sites] Appliances, faucets, garbage disposals, microwaves, sinks, stoves, stove tops, trash cans, trash bins [Surfaces:] Countertops, plastic cutting boards, floors, glass, glazed ceramic tile, linoleum, painted woodwork, vinyl, walls, work surfaces]

**Kitchen:** Clean and disinfect hard non-porous surfaces [May add use sites and surfaces from the “kitchen” list directly above]:

1. Use 1/3 cup of bleach per 1 gallon of water.
2. Pre-wash surface and rinse, then apply the disinfecting solution.
3. Let stand 10 minutes, then rinse thoroughly and air dry.

**[BATHROOM:** [Optional to list one or more:][Use sites] Bathtubs, faucets, showers, shower walls, sinks,] [Surfaces:] countertops, floors, glazed ceramic tile, glazed porcelain, plastic shower curtains, vinyl, walls]

**[To Disinfect] Bathroom:** Disinfect and deodorize hard non-porous surfaces [May add use sites and surfaces from the “bathroom” list directly above]:

1. Use 1/3 cup of bleach per 1 gallon of water.
2. Pre-wash surface and rinse, then apply the disinfecting solution.
3. Let stand 10 minutes, then rinse thoroughly and air dry.

**[To Disinfect] Kitchens and Bathrooms:** Disinfect, deodorize hard non-porous surfaces [and kill 99.9% of germs[\*]:] [on] counters, [in] sinks, showers, bathtubs and [on] vinyl and tile[d] floors.

1. Pre-wash surface and rinse, then apply the disinfecting solution.
2. Disinfect surfaces with a solution of 1/3 cup of bleach per 1 gallon of water
3. Let stand 10 minutes then rinse with water and allow to dry.

**Disinfect Hard Non-porous Surfaces:**

1. Use 1/3 cup of Bleach per 1 gallon of water.
2. Pre-wash surface and rinse, then apply the disinfecting solution.
3. Let stand 10 minutes, then rinse thoroughly and air dry.

**For Disinfecting -** Mix 1/3 cup bleach with 1 gallon of water.
