Silver Spring, MD 20904

Subject: PRIA Label Amendment – addition of SARS-CoV-2 to the label.
Product Name: Jade
EPA Registration Number: 70271-36
Received Date: February 2, 2020
Action Case Number/Decision Number: 00216906

Dear Ms. Sumski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Page 2 of 2
EPA Reg. No. 70271-36
Action Case No./Decision No. 00216906

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact via email at Oiguenblik.Emilia@epa.gov or Heffernan.aline@epa.gov.

Sincerely,

Aline Heffernan

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear safety glasses and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID: Call a Poison Control Center [1-800-222-1222] [1-866-366-5048] or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IF**

IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

[For containers smaller than 5 gallons use the following:]

Environmental Hazards

This product is toxic to fish and aquatic organisms.

Physical and Chemical Hazards

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) may release chlorine gas and other hazardous gases irritating to eyes, lungs, and mucous membranes. Prolonged contact with metal may cause pitting or discoloration.

{Reader's Note: Storage and Disposal will come immediately after Directions for Use on marketplace labels.}

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage, disposal or cleaning of equipment. Store in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water. Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Disposal:

[For Residential uses only]

Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash [collection].

[For Institutional uses only, nonrefillable container 5 gallons or less]

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container $\frac{1}{4}$ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Dispose of rinsate in sanitary sewer. Offer for recycling if available or place in trash.

[DISINFECTING CLAIMS: Choose from the following as appropriate, location is optional.]
[ATCC numbers are required on the master label, but are not required to be listed on the production label]
[This product, when used as directed on hard, non-porous surfaces, is effective against the following:]

DISINFECTANT:

BACTERICIDAL

Escherichia coli [(E. coli)] [ATCC 11229]
Pseudomonas aeruginosa [(Pseudomonas)] [ATCC 15442]
Salmonella enterica [(Salmonella)] [ATCC 10708]
Staphylococcus aureus [(Staph)] [ATCC 6538]

VIRUCIDAL

Influenza A virus (Strain Hong Kong) [ATCC VR-544]
Rhinovirus type 37 [ATCC VR-1147, Strain 151-1]
SARS-Related Coronavirus 2 (SARS-CoV-2) (Cause of COVID-19) [Strain Isolate USA-WA1/2020]

FUNGICIDAL:

Trichophyton interdigitale (Athlete's foot fungus) [ATCC 9533]

[Note: Non-food contact Sanitizer Use Rate of 1/2 cup product to 1 gallon of water, 2 minute contact time; toilet bowl sanitizing directions 1/2 cup undiluted, 5 minute contact time]

Non-food contact Sanitizer

- *Staphylococcus aureus* (staph) [ATCC 6538]
- *Enterobacter aerogenes* [ATCC 13048]

[Standard Machines Laundry Sanitizer Use Rate of 1 cup product to 16 gallons of water, 10 minute contact time]
[HE Machines Laundry Sanitizer Use Rate of 1/2 cup product to 8 gallons of water, 10 minute contact time]

Laundry Sanitizer

- *Staphylococcus aureus* (staph) [ATCC 6538]
- *Klebsiella pneumoniae* [ATCC 4352]

[Note: Mildew Claims Disinfection Use Rate of 1 1/2 cups product to 1 gallon of water, 10 minute contact time; included in separate alternate disinfection directions section B]

- *Aspergillus brasiliensis* (mildew) [ATCC 16404]

[Optional Antimicrobial Claims:] [Note: In accordance with EPA 2005 "Germs" policy, asterisk next to "germs" is optional because all three major classes of organisms are approved.]

This applies to all marketplace labels, whether for the basic registrant or supplemental distributor.]

Emerging Viral Pathogens Claims

[This product qualifies for emerging viral pathogen claims per EPA's "Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels" when used in accordance with the appropriate use directions indicated below.]

[This product meets the criteria to make claims against emerging viral pathogens from the following viral categories:]

For an emerging viral pathogen that is a/an:	...follow the directions for use for the following organism on the label:
Enveloped Virus	Rhinovirus type 37
Large Non-Enveloped Virus	Rhinovirus type 37

[Statements must adhere to one or both of the following formats:]

[Product name] has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **[product name]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus – see table above]** on hard non-porous surfaces. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use [against **[name of supporting virus – see table above]**] on hard non-porous surfaces. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

[These statements shall not appear on marketplace (final printed) labels]

FOR USE IN:

[The following headings may be placed above or in front of appropriate directions (e.g., Household Use in front of directions for dishes or floors)]

- | | | |
|----------------|------------------|-----------------|
| DAYCARE CENTER | HOUSEHOLD [USE] | HOTEL |
| HEALTH CLUBS | INSTITUTION | OFFICE BUILDING |
| HOME [USE] | MEDICAL CLINIC | RESTROOM |
| HOSPITAL [USE] | MEDICAL FACILITY | SCHOOL |

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Use one or more of the following use directions as appropriate; may be used in any order.]

[LAUNDRY USE]: [Choose one or more sets of directions as appropriate:]

Laundry	Product	Water	Instructions
 DO NOT use on Acetate, Leather, Silk, Spandex, Wool, Mohair or non-fast colors.	Whiten Laundry 1/3 Cup		1. Sort laundry by color. 2. Add laundry detergent. 3. Fill bleach dispenser to max line or add the designated measured amount of bleach to wash water. 4. Add laundry to the machine and start the wash cycle. To sanitize laundry ensure laundry is in contact with bleach for at least 10 minutes.
	Sanitize Laundry 1/2 Cup		
	1 Cup		
Laundry Sanitizers: Bacteria: <i>Klebsiella pneumoniae</i> , <i>Staphylococcus aureus</i> (staph)			

LAUNDRY USE:

- Before adding clothes, mix 1/3 cup of bleach with water in washing machine. For HE Washers, add using the bleach dispenser following the machine manufacturer’s instructions. 2. Add clothes. 3. Wash and rinse with usual cycles. [DO NOT use on Acetate, Leather, Silk, Spandex, Wool, or Mohair and [or] non-fast colors.]

LAUNDRY USE:

- Sort your laundry by color and fabric type.
- Add 1/3 cup of bleach and laundry detergent to wash water.
- Add laundry.

To Sanitize Laundry+++ add 1 cup of this product per load for standard washing machine [16 gallon]; 1/2 cup for front load [HE] [8 gallon] automatic. If clothes are in machine, dilute product with 1 quart of the wash water before adding. Wash and rinse with usual cycles ensuring laundry is in contact with bleach solution for at least 10 minutes.

+++ Sanitizes: *Staphylococcus aureus* (staph) & *Klebsiella pneumoniae*

[Cleaning]: [Choose one or more sets of directions as appropriate:]

To clean [and remove stains]: Mix 1/3 cup of this product in 1 gallon of water. Apply with a sponge, mop or rag. Rinse or wipe clean.

To clean floors: Mop floor with 1/3 cup of this product mixed with 1 gallon of water. Rinse for best shine.

ALLERGENS: [Select one or more sets of directions as appropriate]

To [clean and] remove specified allergens³: Use full strength or mix 1 cup of this product in 1 gallon of water. Apply with a sponge, mop or rag. Rinse or wipe clean.

[Spray application] [Turn nozzle [counter] clockwise to [open -or- spray].] Spray product 4-6 inches from surface until thoroughly wet. [Rinse or] wipe clean.

Allergens³:

- Dust mite matter -or- particles
- Cockroach matter -or- particles
- Pet dander

DISINFECTING: [Select one or more sets of directions as appropriate]

Disinfect Hard Non-porous Surfaces:	Product	Water	Instructions
Bathtubs, countertops, faucets, floors, glazed ceramic tile, glazed porcelain, showers, plastic shower curtains, shower walls, sinks, vinyl, walls	½ CUP	1 GAL[LON]	<ol style="list-style-type: none"> 1. Use 1/2 cup of bleach per gallon of water. 2. Pre-wash surface and rinse, then apply the disinfecting solution. 3. Allow surface to remain visibly wet for 10 minutes, then rinse thoroughly and air dry.

DISINFECTION: To [clean and] disinfect hard, non-porous surfaces:

1. Use 1/2 cup of bleach per gallon of water.
2. Pre-wash surface and rinse, then apply the disinfecting solution.
3. Let stand 10 minutes, then rinse thoroughly and air dry.

[KITCHEN: [Optional to list one or more:][Use sites] Appliances, faucets, garbage disposals, microwaves, sinks, room temperature stoves and stove tops, trash cans, trash bins [Surfaces:] Countertops, plastic cutting boards, floors, glass, glazed ceramic tile, linoleum, painted woodwork, vinyl, walls, work surfaces] {Graphics representing the approved use sites/surfaces may also be used on marketplace labels; no people, animal, or food will be depicted in use site/surface graphics.}

Kitchen: Clean and disinfect hard non-porous surfaces [May add use sites and surfaces from the “kitchen” list directly above] :

1. Use 1/2 cup of bleach per 1 gallon of water.
2. Pre-wash surface and rinse, then apply the disinfecting solution.
3. Allow surface to remain visibly wet for 10 minutes, then rinse thoroughly and air dry.

[BATHROOM: [Optional to list one or more:] [Use sites] Bathtubs, faucets, showers, shower walls, sinks,] [Surfaces:] countertops, floors, glazed ceramic tile, glazed porcelain, plastic shower curtains, vinyl, walls] {Graphics representing the approved use sites/surfaces may also be used on marketplace labels; no people, animal, or food will be depicted in use site/surface graphics.}
