PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals. Danger. Causes irreversible eye damage. Do not get in eyes. Wear protective eyewear (goggles, face shield, or safety glasses). Harmful if swallowed or absorbed through the skin. Avoid contact with skin or clothing. Wash thoroughly after handling. Remove contaminated clothing and wash clothing before reuse. Wear chemical resistant gloves, chemical resistant aprons, chemical resistant footwear, and goggles, or face shield when loading application equipment unless a closed loading system is used. Avoid working near high concentrations of spray or mist vapor. Use with adequate ventilation.

ENVIRONMENTAL HAZARDS

For terrestrial uses. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. HaySaver is a preservative for hay that is baled at 16% to 30% moisture. It can be used on alfalfa, Bermuda grass, blue grass, brome grass, clover, cowpea hay, fescue, lespedeza, lupines, orchard grass, peanut hay, peavine hay, rye grass, soybean hay, sudan grass, timothy, and vetch. When used in accordance with label directions, it will prevent the growth of mold in the hay and the related heating, discoloration, and loss of feed value.

FOR USE ON HAY: Spray HaySaver on the hay as it is fed into the baler using the application rates indicated in the chart below:

	Small Square & Large Round Balers		Large Square Balers	
Hay Moisture	Stem Moisture lb/ton	Dew Moisture lb/ton	Stem Moisture lb/ton	Dew Moisture lb/ton
16% - 22%	4	2	6	3
22% - 26%	8	6	10	8
27% - 30%	16	12	Do not bale	16
Over 30%	----- Not recommended -----			

1. Avoid baling if the windrow moisture level exceeds 30 percent.
2. Always check the hay moisture level before baling high moisture hay.
3. For rained-on hay or poorly ventilated storage, increase the application rate by 4-5 lb/ton.
4. Make sure that the spray nozzle's openings and placement are such that good coverage is obtained.
5. Make sure that the storage area for the baled hay is well ventilated.
6. Do not store untreated dry hay on top of treated wet hay.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Seal tightly. Do not store in direct sunlight.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal or excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of, by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY

Artco Distribution Inc. is in no way responsible to people or property resulting from the use of this product that is inconsistent with this label.
