NOV 10 2010

Dear Ms. Clemmer:

SUBJECT: Label Amendment  
XL 2GR  
EPA Registration No. 70506-56  
Your Application Dated August 12, 2010

The label amendment referred to above, submitted in accordance with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following comments:

1. On page 2, replace the word "General" with "Product".

A stamped copy is enclosed for your records. Please submit one (1) copy of your final printed labeling before you release the product for shipment. This amended labeling supersedes all previously accepted ones.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Kathryn V. Montague".

Kathryn V. Montague  
Product Manager (23)  
Herbicide Branch  
Registration Division (7505P)

Enclosure

# XL 2GR

Contains Surflan®

XL 2GR is an easy-to-use herbicide. XL 2GR stops unsightly weeds and weed grasses BEFORE they start to grow in your established ornamental shrubs, flower beds and warm-season lawn grasses around your home. Used according to label directions, XL 2GR provides effective weed control all season long -- and gives your landscape that neat and clean look.

XL 2GR controls weeds in the following areas:

- Landscape ornamental trees and shrubs
- Ornamental ground covers
- Established flower beds
- Ornamental bulbs
- Established warm season turfgrasses including:
  - bermudagrass
  - buffalograss
  - centipedegrass
  - St. Augustinegrass
  - zoysiagrass
  - bahiagrass
  - tall fescue

**ACCEPTED  
with COMMENTS  
In EPA Letter Dated:**

NOV 10 2010  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

70506-56

**Active Ingredients:**

benefin: <i>N</i> -butyl- <i>N</i> -ethyl- $\alpha,\alpha,\alpha$ -trifluoro-2,6-dinitro- <i>p</i> -toluidine.....	1.0%
oryzalin: 3,5-dinitro- <i>N,N'</i> -dipropylsulfanilamide.....	1.0%

<b>Other Ingredients</b> .....	<b>98.0%</b>
<b>Total</b> .....	<b>100.0%</b>

Keep Out of Reach of Children

## CAUTION PRECAUCION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

**First Aid**

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical treatment information, contact the Rocky Mountain Poison Control Center at 1-866-767-5089.

For chemical emergency: spill, leak, fire, exposure, or accident, call CHEMTREC 1-800-424-9300.

**Notice:** Read the entire label. Use only according to label directions. **Before using this product, read the Conditions of Sale and Limitation of Warranty and Liability elsewhere on this label. If terms are unacceptable, return at once unopened.**

Agricultural Chemical: Do not ship or store with food, feeds, drugs, or clothing.

**Manufactured for:**

**United Phosphorus, Inc.**

---

**Precautionary Statements**

---

**Hazards to Humans and Domestic Animals****CAUTION**

Causes moderate eye irritation • Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

**Environmental Hazards**

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

---

**Directions for Use**

---

It is a violation of Federal law to use this product in a manner inconsistent with labeling. Read all directions carefully before using this product.

**GENERAL PRECAUTIONS AND RESTRICTIONS**

**Not for use on plants grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in interior landscapes, ornamental gardens or parks, or on golf courses or lawns and grounds.**

- Do not apply this product by air.
- Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.
- Do not apply this product in a way that will contact any person or pets, either directly or through drift. Keep people and pets out of the area during application.
- Wash hands with soap and water promptly after use and after contact with treated plants on day of application.
- This product must be watered in immediately after application to dissolve the granules. A single rainfall or irrigation of ½ inch or more is required after product application.
- Do not allow other people or pets to enter the treated area until dusts have settled. Except for those people involved in the watering-in, do not enter or allow other people or pets to enter the treated areas until the watering-in is complete and the grass is dry.
- Do not graze or feed forage from treated areas to livestock.

**WHAT IS XL 2GR?**

XL 2GR is a pre-emergence herbicide applied to the soil surface to prevent the growth of undesirable weeds and grasses. Simple for homeowner use, XL 2GR forms a protective "barrier" in the soil surface which prevent weeds from emerging.

**WHAT WEEDS DOES XL 2GR CONTROL?**

Used properly, XL 2GR controls the following broadleaf weeds and weed grasses:

**Broadleaf Weeds**

bittercress  
 carpetweed  
 coast fiddleneck  
 common chickweed  
 common groundsel  
 common purslane  
 desert rockpurslane  
 Florida pusley  
 henbit  
 lambsquarters  
 London rocket  
 pigweeds  
 prostrate knotweed  
 prostrate spurge  
 puncturevine  
 redstem filaree  
 shepherdspurse  
 whitestem filaree  
 yellow woodsorrel (oxalis)

**Weed Grasses**

annual bluegrass  
 barnyardgrass  
 brachiaria  
 browntop panicum  
 crabgrasses  
 crowfootgrass  
 fall panicum  
 foxtails  
 field sandbur  
 goosegrass  
 Italian ryegrass  
 johnsongrass (seedling only)  
 junglerice  
 little barley  
 little lovegrass  
 Mexican lovegrass  
 orcutt lovegrass  
 red sprangletop  
 signalgrass  
 southwestern cupgrass  
 Texas panicum  
 wild oats  
 witchgrass

XL 2GR provides partial control of the following weeds, depending on soil and weather conditions:

**Broadleaf Weeds**

annual sowthistle  
 black mustard  
 black nightshade  
 climbing milkweed  
 common mallow  
 common ragweed  
 horseweed  
 ladythumb

**Weed Grasses**

morningglory  
 prickly lettuce  
 smartweed  
 spotted spurge  
 teaweed (prickly sida)  
 velvetleaf  
 volunteer wheat  
 wild mustard

***WHERE CAN I USE XL 2GR?***

Apply XL 2GR over the top of **ESTABLISHED** shrubs, flowers, ground covers, bulbs, and warm season grasses. **ESTABLISHED** plants are those that have been transplanted into their final growing location and have the soil firmly settled around the roots from packing and rainfall or irrigation. To determine if it is permitted to apply XL 2GR over the top of any specific plant, refer to the "**List of Tolerant Plants**" located near the end of this label. In areas treated with XL 2GR, plant only ornamental species listed on the label for a period of one-year following application or injury may occur.

**Note:** If you will be transplanting plants into previously treated areas, untreated soil should be used to backfill such plants, or injury may occur.

Do not apply XL 2GR in ornamental plantings where the herbicide may runoff onto lawn areas containing dichondra or cool season turfgrasses. XL 2GR can cause severe injury or death in these plants.

**Always read and follow the label directions when applying XL 2GR.**

5/11

## **WHEN TO APPLY XL 2GR**

XL 2GR stops weeds during germination. IT WILL NOT KILL ESTABLISHED WEEDS. Proper timing of application is important for best results. To be effective, XL 2GR must be applied before the weeds emerge.

### **In ornamental flower and shrub beds**

For best results, apply XL 2GR as soon as possible after tilling, killing or pulling existing weeds from bed area. Since many weeds germinate in the spring, an application in early spring prior to the germination of annual broadleaf weeds and weed grasses is ideal (consult your extension agent or master gardener for the proper time to treat in your area). In warm climates with long growing seasons, a second application may be required 6 to 8 months after the first application to extend effective control.

### **Over the top of ornamental bulbs**

Apply XL 2GR to the soil surface in the fall 2 to 4 weeks after planting of bulbs, but before annual weeds begin to sprout. Apply XL 2GR again in late winter or early spring. Before applying, remove any existing weeds from bed area. In the spring, do not apply to tulip plants that have grown to a height greater than 3/4". If you will be transplanting plants listed on this label into previously treated beds, use untreated soil to backfill such plants, or injury may occur. Otherwise, wait one year and cultivate deeply prior to planting other plants following use of XL 2GR.

### **In warm-season turfgrasses such as: tall fescue, bermudagrass, St.**

#### **Augustinegrass, centipedegrass, zoysiagrass, buffalograss or bahiagrass**

For maximum effectiveness, apply prior to the germination of broadleaf weeds and grass weeds (consult your extension agent for the proper time in your area). Apply in late winter to prevent emergence of spring germinating weeds, early spring to prevent summer annual weed grasses and broadleaf weeds, and late summer or early fall to prevent emergence of annual bluegrass and broadleaf winter annuals. If you miss the initial application period, partial control can still be achieved by using XL 2GR later than the optimal time since weeds and weed grasses continue to sprout throughout the growing season. Be sure to kill or pull all existing weeds prior to applying XL 2GR because XL 2GR will not control established weeds. In warm climates with long growing seasons, a second application may be required 4 to 6 months after the first application to extend control.

### **Turfgrass Precautions:**

- XL 2GR should not be applied in the spring to turfgrass planted the previous fall.
- In bermudagrass areas that have been over-seeded with winter grasses, a spring application of XL 2GR may thin the overseeded grasses.
- XL 2GR should not be used on dichondra.
- XL 2GR should not be applied to newly sprigged areas of bermudagrass, St. Augustinegrass, centipedegrass, or zoysiagrass until these turfs are well established.
- Do not use on turf type tall fescue in spring and summer following fall seeding.
- Do not apply XL 2GR in late summer or early fall to areas where fall overseeding will occur.
- Wait at least six weeks after application of XL 2GR to reseed turfgrasses. When using XL 2GR at the highest rate, delay reseeding for 12 to 16 weeks following application.
- For satisfactory reseeding results, increase the amount of seed used and use equipment designed to place seed in contact with the soil.
- This product must be watered in as soon as possible after application to dissolve the granules. A single rainfall or irrigation of 1/2 inch or more is required after product application.

## **HOW TO APPLY XL 2GR**

Read and follow all instructions for the application equipment. Always calibrate equipment according to the manufacturer's directions before applying.

### **On ornamental tree and shrub and flower beds**

Before applying XL 2GR, make sure shrub beds are free of established weeds. Remove weed residues,

prunings, and trash. Remove or break up large soil clods. Apply XL 2GR evenly over the shrub or bedding area using equipment designed to apply granular herbicides or insecticides (such as a rotary spreader). Read and follow all instructions for the application equipment. Always calibrate equipment according to the manufacturer's directions before applying. During application, check frequently to be sure equipment is working properly and distributing granules uniformly. For a more uniform application, spread one-half the desired amount over the area in one direction, then apply the remaining half at right angles to the first. For optimum weed control performance, thoroughly water in XL 2GR within a few hours after application to dissolve the granules.

**On tall fescue, bermudagrass, St. Augustinegrass, centipedegrass, zoysiagrass, buffalograss and bahiagrass lawns**

Apply XL 2GR to established turf before germination of target weeds since XL 2GR will not control established weeds. Apply XL 2GR evenly over the turfgrass area using a rotary spreader or other equipment used to apply granular herbicides or insecticides. Calibrate equipment according to the manufacturer's directions before applying. During application, check frequently to be sure equipment is working properly and distributing granules uniformly. For a more uniform application, spread one-half the desired amount over the area in one direction, then apply the remaining half at right angles to the first. For optimum weed control performance, thoroughly water in XL 2GR within a few hours after application to dissolve the granules.

**HOW MUCH XL 2GR SHOULD BE APPLIED?**

Use the charts below to determine how much XL 2GR to apply. Over-application may result in plant injury or excessive soil residue.

**Ornamental shrubs and beds:**

Desired Length of Control	Rate of XL 2GR (lb/1000 sq ft)	Minimum Time Between Applications (months)	Total Amount Allowed per Year (lb/1000 sq ft)
3 - 4 months	4 1/2**	2	9

\*\*Equivalent to 200 lb. XL 2GR per acre.

**Ornamental bulb beds:**

Time of Application	Soil Texture	Rate of XL 2GR (lb/1000 sq ft)	Minimum Time Between Applications (months)	Total Amount Allowed per Year (lb/1000 sq ft)
Fall	Coarse	1 3/4**	3	3.4
Fall	Medium and Fine	3 1/2****	3	5.2
Feb. - March	All Soil Textures	1 3/4**	3	5.2

\*\*Equivalent to 75 lb. XL 2GR per acre

\*\*\*\*Equivalent to 150 lb XL 2GR per acre

**Turfgrass:**

Type of weed	Time of Application	Amount of XL 2GR†
spring germinating	late winter	2 1/2 to 3 1/2 lb / 1000 sq ft
summer annual grass-weeds and broadleaf weeds	early spring	3 1/2 lb / 1000 sq ft

7/11

annual bluegrass ( <i>Poa annua</i> ) and broadleaf winter annuals	late summer/early fall	3 1/2 lb / 1000 sq ft
--------------------------------------------------------------------	------------------------	-----------------------

<sup>†</sup>XL 2GR may thin established annual bluegrass (*Poa annua*) turfs and fine-leaved fescues at rates above 2 1/2 lb/1000 sq ft

Rate of XL 2GR (lb/1000 sq ft)	Minimum Time Between Applications (months)	Total Amount Allowed per Year (lb/1000 sq ft)
2 1/2 - 3 1/2**	3	5 - 7

\*\*Equivalent to 100 – 150 lb XL 2GR per acre

**Helpful Application Techniques for XL 2GR**

**On Ornamental Shrub Beds:**

1. Handheld rotary applicators are ideal for broadcast applying XL 2GR. The rate of application depends on the gauge setting, walking speed of the operator and the speed of turning the crank. Walk and turn the crank at a constant rate of speed.
2. For hard to reach, small areas, a small container with holes punched in the bottom makes an excellent shaker type applicator.
3. On large areas, the push-type propelled rotary applicator does a fine job.
4. Optimum weed control performance will be obtained if XL 2GR is watered in to the soil within a few hours after application.

**On Turfgrass:**

1. Small area application is easy using a small rotary applicator. To insure proper coverage and avoid missed areas, early morning treatment when wheel tracks are evident in the dew and the wind is calm is ideal.

**Spreader Settings:**

*[Editor's note: Subregistrant may include spreader settings for recommended equipment.]*

**List of Tolerant Plants**

Do not apply to Begonia, Coleus, Slender Deutzia, Douglas Fir, Techny Arborvitae and Eastern Hemlock as injury may occur.

The following ESTABLISHED plants are tolerant to applications of XL 2GR.

**Established Flowers**

- Aster, Stokes
- Baby's Breath
- Bird Of Paradise
- Blazing Star
- Bleeding Heart
- Caladium, Fancy Leafed
- Chrysanthemum
- Coneflower, Purple

- Coreopsis
- Daisy, Gloriosa (Black-Eyed Susan)
- Daisy, Painted
- Daisy, Shasta
- Geranium
- Geum
- Gladiolus
- Impatiens (Busy Lizzie)
- Iris, Bearded

**Storage and Disposal**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Store in original container out of the reach of children and pets. In case of leak or spill, contain material and dispose of waste.

**Pesticide Disposal:** : Nonrefillable container. Do not reuse or refill this container.

**If empty** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. [Editor's Note: Supplemental distributor will insert own toll free number.]

**IMPORTANT INFORMATION  
READ BEFORE USING PRODUCT****CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY**

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product reflect the opinion of experts based on field use and tests, and must be followed carefully. It is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of United Phosphorus, Inc. or Seller. Handling, storage, and use of the product by Buyer or User are beyond the control of United Phosphorus, Inc. and Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold United Phosphorus, Inc. and Seller harmless for any claims relating to such factors.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, UNITED PHOSPHORUS, INC. AND SELLER MAKE NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ON THIS LABEL.**

To the extent consistent with applicable law, United Phosphorus, Inc. or Seller shall not be liable for any incidental, consequential or special damages resulting from the use or handling of this product and **THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF UNITED PHOSPHORUS, INC. AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF UNITED PHOSPHORUS, INC. OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

United Phosphorus, Inc. and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by the duly authorized representative of United Phosphorus, Inc.
