RE: Notification to Reflects the Revisions of the Phrasing "For Commercial Use Only" on the front panel of the label.
EPA Registration Number: 70506-143
Date of Submission: January 30, 2008

Dear Mr. Formella:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated, January 30, 2008, for the product, ImiBloc 0.5 G Termiticide/Insecticide. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please me directly at 703-305-6249 or Joyce Edwards of my staff at 703-308-5479.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Linda Arrington
Notifications & Minor Formulations Team Leader
Registration Division (7505P)

IMIBLOC 0.5 G Termiticide/Insecticide

For use by individuals/firms licensed or registered by the state to apply termiticide products. States may have more restrictive requirements regarding qualifications of persons using this product. Consult the structural pest control regulatory agency of your state prior to use of this product.

Deleted: For pest management professionals and commercial use only.

For use to kill worker termites and reproductive forms of termites (*Coptotermes*, *Heterotermes*, *Reticulitermes*, *Zootermopsis*) present at the time of application only. Does not provide structural protection or substitute for mechanical alteration, soil or foundation treatment with termiticide. Do not use as sole protection against termites, as this product will not prevent future infestations. A professional inspection is recommended.

ACTIVE INGREDIENT

Imidacloprid – 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-2-imidazolidinimine.....	0.5%
Other Ingredients	99.5%
Total	100%

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Caution. Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

This chemical demonstrates the properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not formulate this product into other end-use products.

GENERAL INFORMATION

This ready-to-use formulation of imidacloprid will kill subterranean termite species of *Coptotermes*, *Heterotermes*, *Reticulitermes*, and *Zootermopsis*. Formulated as a granule, this product may be used for perimeter band application and/or soil incorporated. When it has been applied to soil, moisture and/or precipitation will cause the active ingredient to release from the granule. The residue established in the top few inches of soil will kill termites present at the time of application. This product may be applied as a spot treatment in advance of structural treatment or treatment with a conventional soil-applied termiticide or foundation treatment.

USE SITES

Apply ImiBloc 0.5 G Termiticide/Insecticide to bare soils, landscaped areas, and turfgrass immediately surrounding sites such as residential structures, and other wooden structures which may be subject to termite infestations.

When infested areas are waterlogged, or soil beneath turf is saturated with water, avoid making applications because it is difficult to obtain thorough and consistent distribution of the product.

APPLICATION

Perimeter use (band application 3 to 10 feet wide around and next to the structure's foundation):

To kill subterranean termites near commercial and residential structures, apply 1.8 lb ImiBloc 0.5 G (29 oz) per 1,000 square feet. For best results, irrigate the treated area (though not to the point of runoff) to move the active ingredient into the soil where termites forage.

Use standard granular application equipment (hand-held spreaders, shaker cans, wheel-mounted spreaders) to apply ImiBloc 0.5 G Termiticide/Insecticide uniformly. Calibrate the application equipment before use, and check frequently to ensure equipment is working properly to distribute the granules uniformly.

Soil incorporation: make spot treatments to kill termites in the soil. Incorporate the product into localized areas of soil along the foundation of structures, or in soil next to threatened wooden constructions. First dig a narrow trench (about 6 inches wide by 6 inches deep), then incorporate 1/6 lb (3.0 oz) ImiBloc 0.5 G Termiticide/Insecticide per linear foot of trench. Mix the product completely with the soil used to refill the trench. Or incorporate 1/3 lb (5.0 oz) ImiBloc 0.5 G Termiticide/Insecticide per square foot of surface at critical spots such as around plumbing, bath traps, utility services or wells/cisterns, and around poles or posts, fencing and decking materials, landscape timbers and similar non-structural places where wood comes into contact with soil.

5/14

One level cup of ImiBloc 0.5 G Termiticide/Insecticide equals approximately 8.5 oz.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

To Confine Spills: Handle and open container in a manner as to prevent spillage. If the container is leaking or material is spilled for any reason or cause, carefully sweep material into a pile and dispose of as directed for pesticides below. Refer to Precautionary Statements on label for hazards associated with the handling of this material. In spill or leak incidents, keep unauthorized people away.

Pesticide Disposal: Pesticides wastes are toxic. Improper disposal of excess pesticide, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional Office for guidance.

Container Disposal: Do not use container in connection with food, feed, or drinking water. Completely empty container into the processing equipment. Then dispose of empty container in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**IMPORTANT INFORMATION
READ BEFORE USING PRODUCT**

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product reflect the opinion of experts based on field use and tests, and must be followed carefully. It is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of United Phosphorus, Inc. or Seller. Handling, storage, and use of the product by Buyer or User are beyond the control of United Phosphorus, Inc. and Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold United Phosphorus, Inc. and Seller harmless for any claims relating to such factors.

To the extent consistent with applicable law, United Phosphorus, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or United Phosphorus, Inc., and Buyer and User assume the risk of any such use. To the extent consistent with applicable law, UNITED PHOSPHORUS, INC. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent consistent with applicable law, United Phosphorus, Inc. or Seller shall not be liable for any incidental, consequential or special damages resulting from the use or handling of this

product and **THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF UNITED PHOSPHORUS, INC. AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF UNITED PHOSPHORUS, INC. OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

United Phosphorus, Inc. and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by the duly authorized representative of United Phosphorus, Inc.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Caution. Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

This chemical demonstrates the properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not formulate this product into other end-use products.

GENERAL INFORMATION

This ready-to-use formulation of imidacloprid will kill subterranean termite species of Coptotermes, Heterotermes, Reticulitermes, and Zootermopsis. Formulated as a granule, this product may be used for perimeter band application and/or soil incorporated. When it has been applied to soil, moisture and/or precipitation will cause the active ingredient to release from the granule. The residue established in the top few inches of soil will kill termites present at the time of application. This product may be applied as a spot treatment in advance of structural treatment or treatment with a conventional soil-applied termiticide or foundation treatment.

USE SITES

Apply ImiBloc 0.5 G Termiticide/Insecticide to bare soils, landscaped areas, and turfgrass immediately surrounding sites such as residential structures, and other wooden structures which may be subject to termite infestations.

When infested areas are waterlogged, or soil beneath turf is saturated with water, avoid making applications because it is difficult to obtain thorough and consistent distribution of the product.

APPLICATION

Perimeter use (band application 3 to 10 feet wide around and next to the structure's foundation):
To kill subterranean termites near commercial and residential structures, apply 1.8 lb ImiBloc 0.5 G (29 oz) per 1,000 square feet. For best results, irrigate the treated area (though not to the point of runoff) to move the active ingredient into the soil where termites forage.
Use standard granular application equipment (hand-held spreaders, shaker cans, wheel-mounted spreaders) to apply ImiBloc 0.5 G Termiticide/Insecticide uniformly. Calibrate the application equipment before use, and check frequently to ensure equipment is working properly to distribute the granules uniformly.

Soil incorporation: make spot treatments to kill termites in the soil. Incorporate the product into localized areas of soil along the foundation of structures, or in soil next to threatened wooden constructions. First dig a narrow trench (about 6 inches wide by 6 inches deep), then incorporate 1/6 lb (3.0 oz) ImiBloc 0.5 G Termiticide/Insecticide per linear foot of trench. Mix the product completely with the soil used to refill the trench. Or incorporate 1/3 lb (5.0 oz) ImiBloc 0.5 G Termiticide/Insecticide per square foot of surface at critical spots such as around plumbing, bath traps, utility services or wells/cisterns, and around poles or posts, fencing and decking materials, landscape timbers and similar non-structural places where wood comes into contact with soil.

One level cup of ImiBloc 0.5 G Termiticide/Insecticide equals approximately 8.5 oz.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

To Confine Spills: Handle and open container in a manner as to prevent spillage. If the container is leaking or material is spilled for any reason or cause, carefully sweep material into a pile and dispose of as directed for pesticides below. Refer to Precautionary Statements on label for hazards associated with the handling of this material. In spill or leak incidents, keep unauthorized people away.

Pesticide Disposal: Pesticides wastes are toxic. Improper disposal of excess pesticide, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional Office for guidance.

Container Disposal: Do not use container in connection with food, feed, or drinking water. Completely empty container into the processing equipment. Then dispose of empty container in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**RE: ImiBloc 0.5 G Termiticide/Insecticide (EPA Reg. No. 70506-143)
Notification per PR Notice 98-10**

Dear Ms. Hobgood:

United Phosphorus, Inc. herein submits a registration amendment for ImiBloc 0.5 G Termiticide/Insecticide (EPA Reg. No. 70506-75) consistent with the notification provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46.

This notification reflects the revision of the phrasing "for Commercial Use Only" on the front panel of the label. Per the US EPA Pesticide Labeling Consistency "For Use Only By" Issue Paper, dated October 24, 2006, this language is not enforceable and it is not appropriate to include on the label of a non-restricted use product any language limiting use to certified applicators. UPI has had at least one state reject our application for registration of this product based on this "commercial use only" language on the label. Therefore, UPI wishes to remove this phrasing from the ImiBloc 0.5 G Termiticide/Insecticide label. The sentence on the front panel of the label "For pest management professionals and commercial use only" will be replaced with verbiage already approved and found on the registered product labels of ImiBloc 4 F Termiticide/Insecticide (EPA Reg. No. 70506-168) and ImiBloc 70 DF Termiticide/Insecticide (EPA Reg. No. 70506-158). Specifically, the front panel of the label will now state "For use by individuals/firms licensed or registered by the state to apply termiticide products. States may have more restrictive requirements regarding qualifications of persons using this product. Consult the structural pest control regulatory agency of your state prior to use of this product."

In support of this registration Notification enclosed please find the following materials:

1. A completed Application for Pesticide Registration (EPA Form 8570-1)
2. Two (2) copies of the revised label, one with the revisions red-lined
3. A CD containing the label in electronic format (file number: 070506-00143.20080130.pdf)
