Subject: Label Amendment – Supplemental Label to match new Section 3 Directions for Use
Product Name: Aquathol Super K Granular Aquatic Herbicide
EPA Registration Number: 70506-191
Application Date: 10/30/2015
Decision Number: 510989

Dear Mr. VanScoy:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

with FIFRA section 6. If you have any questions, please contact Sarah Meadows by phone at 703-347-0505, or via email at meadows.sarah@epa.gov.

Sincerely,

A handwritten signature in black ink, reading "Kathryn V. Montague". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Supplemental Label

ACCEPTED

11/17/2015

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 70506-191

AQUATHOL[®] SUPER K GRANULAR AQUATIC HERBICIDE

EPA Registration No. 70506-191

This Supplemental Label contains new or supplemental instructions for use of this product which do not appear on the package label. Read the label affixed to the container for Aquathol Super K Granular Aquatic Herbicide before applying. Use of Aquathol Super K Granular Aquatic Herbicide according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Aquathol Super K Granular Aquatic Herbicide. This label must be in the possession of the user at the time of pesticide application. This supplemental label expires 11/17/2018 and must not be used or distributed after this date.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

- For quiescent or slow moving water treatments : Waters treated with Aquathol Super K may be used for swimming, fishing, and irrigating turf, ornamental plants and crops immediately after treatment. Do not use treated water for animal consumption within the following periods:
 - 0.5 ppm dipotassium salt– 7 days after application
 - 4.25 ppm dipotassium salt – 14 days after application
 - 5.0 ppm dipotassium salt – 25 days after application
- For flowing water treatments: Waters treated with Aquathol Super K may be used for swimming, fishing, livestock watering, and irrigating turf, ornamental plants and crops immediately after treatment.

For Flowing Water Bodies:

- Applicator is responsible to assure that treated water exceeding the MCL of 0.1 ppm does not enter potable water intakes. For Aquathol Super K applications, potable water intakes must be closed when treated water exceeding the MCL of 0.1 ppm is present at the intake. In the event the water intake cannot be closed (when treated water is present that exceeds 0.1 ppm), treatments must only be made downstream from the intake in order to assure Aquathol Super K treated water above 0.1 ppm does not enter the potable water system.
