Shannon Payne Current Technologies, Inc. P.O. Box 21 Crawfordsville, IN 47933

Subject: Hype-Wipe Disinfecting Towel With Bleach EPA Registration No. 70590-1 Submission Dated: June 13, 2008 Receipt Date: June 17, 2008

Dear Ms. Payne:

The following amendment submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, to remove the claim for vegetative cells of *Clostridium difficile*, is accepted with comments/conditions.

### **Conditions**

1. Revise the Ingredient Statement as follows:

Active Ingredient:	Sodium Hypochlorite	0.94%
Other Ingredients:		<u>99.06%</u>
Total:	·	100.00%

## **Available Chlorine XX%**

2. Change the designation of the organism formerly called *Salmonella choleraesuis* to *Salmonella enterica*. The American Type Culture Collection, which has jurisdiction over nomenclature of microorganisms made the change in 2006, and the Agency has adopted the new name to be more representative of a human, rather than an animal pathogen.

## **General Comments**

A stamped copy of the labeling is enclosed. Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please call Wanda Henson at (703) 308-6345.

Sincerely,

Comily Mitchell

Emily H. Mitchell Product Manager - Team 32 Regulatory Management Branch II Antimicrobials Division (7510P)

## **HYPE-WIPE**<sup>®</sup> DISINFECTING TOWEL with BLEACH

- For use on non-critical surfaces/items in clinical/research/industrial labs and hospital areas including ER, OR, radiology, nursing stations, wards, clinics, dialysis and outpatient. Also for use in blood banks, physician and dental offices, ambulances, nursing homes, veterinarian facilities, wastewater facilities and restrooms.
- Cleans and disinfects hard, non-porous surfaces including stainless steel, plastics, glass, glazed ceramics, tile, linoleum, laminated plastic countertops, enamel, vinyl and glazed porcelain.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Hype-Wipe® kills the following organisms with a 1-minute contact time:

Mycobacterium bovis BCG (TB), Pseudomonas aeruginosa ATCC 15442, Salmonella choleraesuis ATCC 10708 and Streptococcus progenes ATCC 19615. Hype-Wipe® kills the following organisms with a 2-minute contact time: Staphylococcus aureus ATCC 6538, Staphylococcus aureus (MRSA) ATCC 33591 and Entercoccus faccium (VRE) ATCC 51559.

(1) Remove all gross filth and heavy soil from surfaces to be disinfected. (2) Open pouch, remove towel. Use towel and excess liquid to wipe surface. (3) Allow solution to contact surface for two minutes to inactivate a broad range of organisms before wiping or allow to air dry. Discard towel in appropriate waste container.

This product is not to be used as a terminal sterilant/high lavel disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloadstream or normally sterilie areas of the body, or (2) contact intact nuccus membranes but , which does not ordinarily penetrate the bload barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaniate critical or semi-critical medical devices prior to sterilization or high level disinfection.

\*STORAGE: Store in a cool, dry area at room temperature (68°-77° F) away from sunlight and heat to inhibit deterioration/reduced concentration of bleach solution. DISPOSAL: Do not reuse empty pouch; wrap and put in trash.

#### PRECAUTIONARY STATEMENT

Physical or Chemical Hazards: Do not use this product with ammonia, acids (such as vinegar), rust removers, toilet bowl cleaners. Will corrode aluminum.

## ACCEPTED with COMMENTS EPA Letter Dated:

# AUG 1 3 2008

Tades the Federal Insecticide, backfolde, and Rodenticide Act as smeasure, for the pesticide, recisivered under EPA Reg. No. 70590-1
