70590-2

Date of Issuance:

JUN 11 2001

Term of Issuance:

Conditional

Name of Pesticide Product:

Disinfecting Spray
with Bleach

NOTICE OF PESTICIDE:

 X Registration
 Reregistration

Under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Current Technologies, Inc.
P.O. Box 21
Crawfordsville, IN 47933

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 70590-2.
- b. Delete the "Reorder Number" from the label, it has no relevance to EPA register products.
- c. Due to the acute toxicity profile of this product, no Precautionary Statements or First Aid Statement is required.

PRODUCT SPECIFICS / USES

- Passed AOAC Germicidal Spray Products As Disinfectant Test
- Certified to contain at least a 1:10 dilution of household bleach for 1 year from manufacturing date.
- Cleans and disinfects hard, nonporous environmental surfaces including stainless steel, plastics, glass, glazed ceramics, tile, linoleum, laminated plastic countertops, enamel, glazed porcelain and grout.
- For use on non-critical surfaces/items in clinical labs, blood banks, physician and dental offices, emergency units, nursing homes, veterinarian facilities and hospital areas (including labs, Emergency Rooms (ER), Operating Rooms (OR), radiology, nurses stations, wards, clinics and outpatient areas). Also for use in industrial labs, restrooms and wastewater facilities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- **To Clean:** Hold bottle 12" from surface. Direct gentle spray to soiled area. Wipe clean with damp applicator such as paper towel or cloth. Allow 5 minutes contact for stubborn stains. No rinsing necessary, unless streaks observed. Polish with a dry cloth.
- **To Clean and Disinfect in One Step or to Disinfect Pre-Cleaned Surfaces:** Thoroughly spray surface until completely wet (ten second spray time), holding bottle 12" from surface. Leave surface wet at least one minute at room temperature (68-72°F) to disinfect. Then wipe clean with a damp paper towel or cloth. No rinsing necessary. Gross soil should be removed prior to cleaning and disinfecting.
- **Personal Protection:** When handling surfaces soiled with blood/body fluids, wear disposable gloves, gowns and eye covering.
- **Disposal of Infectious Materials:** Blood, body fluids and cleaning materials should be autoclaved and disposed of according to Federal, state and local regulations for infectious waste.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membrane but which does not ordinarily penetrate the blood barrier or enter otherwise normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

Storage and Disposal

Storage: Store in a cool, dry area away from sunlight and heat to inhibit deterioration. In case of spill, flood area with large quantities of water. **Product Disposal:** Product that cannot be used according to label directions should be diluted with water then disposed of in a sanitary sewer. **Container Disposal:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

First Aid

If in Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If Inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-456-4022 for emergency medical treatment advice.	

Physical and Chemical Hazards

Do not use this product with ammonia and acids such as vinegar, rust removers or toilet bowl cleaners. Will corrode aluminum.
