Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is reregistered in accordance with FIFRA section 4(g)(2)(C) provided you:

1. Submit and/or cite all data required for registration review/reregistration of your product when the Agency requires all registrants of similar products to submit data.
2. Make the following revisions to the final printed labeling:
 - a. Per the acute toxicity review, the Hazards to Humans and Domestic Animals statement does not require the text, "Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals." This text may be removed from the label.
 - b. Based on toxicity ranking per the acute toxicity review, the First Aid statements should be placed on the label in the following order:
 "IF IN EYES...
 IF SWALLOWED...
 IF ON SKIN OR CLOTHING..."

Note: "IF INHALED" information is not required, but may remain on the label as the last listing in the First Aid section.

Reregistration Notice

- c. Per the 2,4-DP-p RED, the following statements must be placed in the 'Directions for Use' section:

"Only for formulation into end-use products with directions for use that prohibit aerial application."

"Only for formulation into end-use products with directions for use that prohibit broadcast applications greater than 0.75 lb ae 2,4-DP-a per acre."

"Only for formulation into end-use products with directions for use that prohibit spot treatment applications greater than 2.0 lbs ae 2,4-DP-p per acre."

"Must only be formulated into Ready-to-Use spray containers that produce droplets that are medium or coarse in size according to the ASAE (S572) definition for standard nozzles."

- d. Revise the container disposal statement to include the text in bold type as follows:

"Container Disposal: Completely empty bag into the formulation equipment. Then, **offer for recycling if available or** dispose of the empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke."

3. A stamped copy of your labeling is enclosed for your records. You must submit one (1) copy of the final printed label before you release the product for shipment or the next printing of the label whichever occurs first. Products shipped after 12 months from the date of this Notice must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Only for formulation into a herbicide for: 1) the following uses: Terrestrial nonfood sites: ornamental turf, including residential lawns, golf courses, parks and playgrounds, cemeteries, athletic fields and sod farms; uncultivated nonagricultural areas; recreation areas; industrial sites; rights of way (highway, railroad, pipeline or utility); non-crop areas for woody plant control; 2) Uses for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration and; 3) Uses for experimental purposes that are in compliance with USEPA requirements.

This product may be used to formulate products for any additional uses not listed on the MP label if the formulator, user group, or grower has complied with U.S. EPA submission requirements regarding support of such uses.

Formulators who use this product are responsible for obtaining EPA registration for their formulated products.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container unless an emergency requires that a different container replace a damaged container. In such case, clearly label contents. Store in a secured warehouse, storage building or fenced storage yard, preferably in a location that is cool and dry. Do not store in close proximity to seeds, fertilizers, insecticides or fungicides. Containers should be opened in well ventilated areas. Keep container sealed when not in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law and may contaminate ground water. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Completely empty bag into the formulation equipment. Then dispose of the empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
