CONTAINER DISPOSAL: This container may be recycled in the few but growing number of communities where steel aerosol can recycling.
 is available. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container and discard in the trash.

### PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION Harmful if swallowed, inhaled, or if absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

#### **ENVIRONMENTAL HAZARDS:**

This pesticide is highly toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

#### PHYSICAL HAZARDS:

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. May cause staining (darkening) of asphalt surfaces and shingles.

### Industrial Specifications:

Flash Point (TCC)144 F Dielectric (cup test with electrodes 1/10" apart) No breakdown up to 49,300 volts. Arcing (spray test electrodes 12" apart) No arcing at 35,000 volts. Tested on Polyethylene, Polycarbonate, Noryl®, ABS-T and ABS-SB4500 plastic with no damage.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

Kills on contact from 15 feet away

# FOR OUTDOOR USE ONLY

Kills: Bees, Hornets, Spiders, Yellowjackets and Wasps

ACTIVE INGREDIENTS:

 
 d-trans Allethrin
 0.123%

 3-Phenoxybenzyl (1RS, 3RS; 1RS, 3SR) - 2,2-Dimethyl-3-(2-methylprop-1-enyl) cycloprophinecarboxylate\*
 0.120%

 INERT INGREDIENTS:
 99.751%

 \*Phenothrin
 99.751%

Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN CAUTION

#### FIRST AID

IF INHALED:

- Move person to tresh air.

- If person is not breathing, call 911 or an ambulance, then give

artificial respiration, preferably mouth-to-mouth, if possible.

- Call a poison control center or doctor for further treatment advice.

- IF ON SKIN or CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
  Call a poison control center or doctor for treatment advice.
- IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.
- IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice - Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

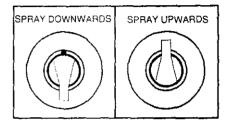

Have the product container or label with you, when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call 1-800-558-2332.

See side panels for additional precautionary statements.

## DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH IT'S LABELING.

For optimum performance in overhead treatments, align the actuator opening with the mark on valve cup. When treating in a downward direction, align the actuator opening directly opposite the mark on valve cup.

WASPS AND HORNETS:Hold container in upright position to treat. Stand safe distance, 6-15 feet from nest and not directly underneath. Align actuator opening with the mark on valve cup. Aim actuator opening toward nest. Treat nest until thoroughly wet. Wasps and hornets on nest should be contacted with spray when possible. Best time of day to treat is in evening or early morning, since wasps and hornets congregate on or in nest at night. Do not apply to pets or contaminate food, foodstuffs, dishes or utensils. For outdoor use only.

To prevent dying insects from falling on skin and clothing, avoid standing directly under nest being treated.

YELLOWJACKETS AND BEES: Locate underground nest. Align actuator opening directly opposite the mark on valve cup. Depress actuator and treat, with a sweeping motion, any stimulated or stirred-up insects around nest opening. Afterwards, move forward to nest opening and apply liquid for 6 to 8 seconds directly into nest hole. This will suffocate bees and yellowjackets in nest; other bees and yellowjackets trying to return to nest will be repelled and will fly around and away harmlessly.

SPIDERS, INCLUDING BLACK WIDOW AND BROWN RECLUSE: Apply spray directly onto spiders and web.
