Sara Seltzer  
Registration Specialist  
Diversey, Inc.  
8310 16<sup>th</sup> St., MS 707  
Sturtevant, WI 5317

Subject: PRIA Label Amendment – Adding Efficacy Claims  
Product Name: Oxivir 1 Wipes  
EPA Registration Number: 70627-77  
Application Date: 02/14/2019  
Decision Number: 548951

Dear Ms. Seltzer:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 2 of 2  
EPA Reg. No. 70627-77  
Decision No. 556950

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Terria Northern by phone at 703-347-0265, or via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

Sincerely,

Zeno Bain, Product Manager 33  
Regulatory Management Branch I  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

Enclosure: Accepted label

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

Effective – Cleans soap scum

Effective daily cleaner

For a cleaner, fresher-[insert use sites/surfaces from lists below] (or – any hard, non-porous washable surface where disinfection is required.)

For multiple cleaning tasks

For non-scratch cleaning of showers and tubs, shower doors and (nonporous) curtains, fixtures and toilet bowls

Good for most indoor cleaning tasks

Grease cutting formula

Great for grease cutting

Great for on-the-go cleaning

Intense cleaning action

Keeps day care centers clean

Powerful cleaning

Powers away tough stains (stuck on dirt)

Quick and easy cleaning

Removes tough stains

Specially designed to dissolve (penetrate) the toughest (stubborn) soils

Use daily to prevent the build-up of dirt and grime

Uses (harnesses) the cleaning power of hydrogen peroxide

Will not leave grit or soap scum

**(Antimicrobial-related statements)**

A disinfectant (and) cleaner (that cleans, disinfects and deodorizes in one labor saving step)

A disinfectant cloth for use on telephone surfaces and other telecommunications equipment surfaces

Aids in reducing [or in the reduction of] cross contamination between treated surfaces

An effective one-step sanitizer-cleaner (wipe) (towelette) for use on hard non-food contact surfaces

An effective way to clean, deodorize against odor-causing organisms and disinfect hard, non-food contact surfaces

Antibacterial cellphone wipe (towelette)

Antibacterial (surface) cleaner (cloth) (wipe) (towelette)

Antimicrobial cleaner (cloth) (wipe) (towelette)

Virucidal (Surface) Cleaner

Assures proper dilution strength for product effectiveness

Broad-Spectrum (Multi-Purpose) (Multi-Surface) (Bactericidal) (\*Virucidal) (Tuberculocidal) (Fungicidal) (Sanitizer)

(Disinfectant) (Activity) (Cleaner) (Fungicidal against *C. auris*)

Clean & disinfect any room, any time

Cleaner and disinfectant towel (cloth) (towelette)

Cleans and disinfects (and deodorizes) hard, non-porous surfaces (easily)

Cleans and disinfects (cell phone surfaces) (telephone equipment) (telephone equipment surfaces) (dictating equipment surfaces) (telecommunications equipment surfaces) (devices) (headsets)

Controls the spread of listed bacteria on treated (hard, non-porous environmental) surfaces

Controls (Eliminates 99.9%) odor-causing bacteria

Disinfects as it cleans when used according to disinfection directions for use

Disinfects (Deodorizes) (and) (Sanitizes) as it cleans when used according to disinfection directions for use

Disinfects - kills germs

Deodorizes odor-causing bacteria

Dual action formulation providing broad spectrum activity against; fungi, \*viruses, and bacteria

Each pre-moistened towelette (disposable) (wipe) cleans, deodorizes and kills listed bacteria all around the[insert use sites/surfaces from lists below] (or – any hard, non-porous washable surface where disinfection is required.)

Effective against *Candida auris* (*C. auris*) in one minute

Effective daily cleaner

Effective in 1 minute against *Staphylococcus aureus*, *Salmonella enterica*, and *Pseudomonas aeruginosa*

Effectively disinfects hard, non-porous surfaces (in the presence of organic soil)

Eliminates 99.9% (Kills) (odor-causing) bacteria (from surfaces)

Eliminates 99.9% odors (caused by bacteria), (mold), (mildew)

Every day, every room disinfectant

Fast / Easy / Effective

For use (in) (Hospitals), (Health Care) (settings) (as a multi-purpose disinfectant cleaner)

For any non-food contact hard, non-porous surface where germs are a concern

Great on-the-go disinfectant (cloth)

Help control listed bacteria on treated surfaces while keeping your office (or workstation or workplace or business) clean and dust-free

Kills antibiotic resistant organisms<sup>±</sup>

Kills bacteria (and sanitizes)

Kills bacteria (and \*viruses) (on hard, non-porous surfaces) in 1 minute

Kills (Destroys) (Eliminates 99.9%) germs while it cleans when used according to disinfection directions for use

Kills (Effective against) cold (flu) virus (on hard, nonporous surfaces)

Kills odor-causing bacteria

Kills \*viruses

Kills (99.9% of) germs (in 1 minute)

Kills (99.9% of) (cold) (and) (flu) (viruses) in 30 seconds

Kills (and) (or) (inactivates) *Candida auris* on hard, non-porous surfaces.

Kills a minimum of 99.999% or five logs of *Candida auris* on hard, non-porous surfaces.

Proven to kill *Candida auris* (*C. auris*) (in one minute)

Restroom disinfectant wipes

Sanitizes

Surface cleaner with antibacterial formula

Telephone (cleaner) (and) (disinfectant) wipes

These wipes are a convenient way to disinfect surfaces

To be used in sanitizing and disinfecting of hard, non-porous non-food contact surfaces and non-critical equipment which may harbor or spread germs

Tough on germs

Use only one product to get a streak-free shine plus antimicrobial action

Use to disinfectant (wipe down) shopping (or grocery) cart handles

**BACTERICIDAL: 1 MINUTE**

**VIRUCIDAL: 30 SECONDS**

**ANIMAL PREMISE \*VIRUCIDAL: 1 MINUTE**

#### **(CLAIMS & USES:)**

This product cleans, disinfects, and deodorizes hard, nonporous inanimate (environmental) surfaces *insert use sites/surfaces from lists below*] (and patient care equipment) in one step with no rinsing required. This product is a (one-step,) (broad spectrum,) (hospital,) disinfectant (germicidal) cleaner and deodorizer (odor counteractant) designed for general cleaning, disinfection and deodorizing of hard, nonporous surfaces. (Designed for (non-critical) hard, nonporous surfaces in healthcare.) (It quickly) Removes (bathtub ring,) blood, body fluids, body oils, dirt, fungus, food residue, fecal matter, grime, laboratory stains, mold stains, soils, stains, urine and other organic matter commonly found (on hard, nonporous, inanimate (environmental) surfaces) *insert use sites/surfaces from lists below*] (or – any hard, non-porous washable surface where disinfection is required. (where housekeeping is of prime importance in controlling the risk of cross-contamination between treated surfaces). It (also) eliminates odors leaving (restroom) surfaces smelling clean and fresh. Use where odors are a problem.

(This product can be used on hard, non-porous surfaces in the following areas:)

- \*\**Candida Auris* Claim

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

**Mold/Mildew (Mildewstatic Activity):** Controls and prevents the growth of mold and mildew: *Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

**Malodor(s) (Activity) (Counteractancy):** eliminates (destroys) odors and odor-causing bacteria on hard, nonporous surfaces in restroom areas, behind and under sinks and counters, and storage areas (and other places where bacterial growth can cause malodors).

*(Optional Pandemic Influenza Statements)*

- Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by Influenza A virus. (This product or product name) is a broad-spectrum hard surface disinfectant that has been shown to be effective against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.
- This product has demonstrated effectiveness against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus.

*(Emerging Pathogens Claims)*

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category[ies]:

- Enveloped Viruses
- Large, Non-Enveloped Viruses
- Small, Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped Viruses	Enterovirus type D68 (Strain US/KY/14-18953)
Large, Non-Enveloped Viruses	Enterovirus type D68 (Strain US/KY/14-18953)
Small, Non-Enveloped Viruses	Enterovirus type D68 (Strain US/KY/14-18953) Canine Parvovirus

(Oxivir 1 Wipes) (This product) has demonstrated effectiveness against viruses similar to *[insert name of emerging virus]* on hard, non-porous surfaces. Therefore, Oxivir 1 Wipes (this product) can be used against *[insert name of emerging virus]* when used in accordance with the directions for use against *[insert name of supporting virus(es) from list above]* on [hard, non-porous surfaces]. Refer to the [CDC or OIE] website at *[insert pathogen-specific website address]* for additional information.

*[Insert name of illness / outbreak]* is caused by *[insert name of emerging virus]*. Oxivir 1 Wipes kills similar viruses and therefore can be used against *[insert name of emerging virus]* when used in accordance with the directions for use against *[insert name of supporting virus(es)]* on [hard, non-porous surfaces]. Refer to the [CDC or OIE] website at *[website address]* for additional information.

**OPTIONAL Packaging Related Statements – Appropriate language can be selected depending on packaging.**

**[For canisters and buckets:]**

[To open the package:]

[To pull wipes through lid]: Remove lid. [Then remove and discard induction seal [from the canister]]. Pull out corner of first sheet [wipe] from center of roll and push ½” to ¾” (1 to 2 cm) through “X” opening on lid. DO NOT push finger through opening. Replace lid and pull wipe at an angle. The next sheet pops up automatically. When finished, close [lid] [flap] to retain moisture.

**[For re-fill pouch where the wet roll is left in the pouch when placed in the canister:]**

[Look for product expiration date on back of refill pouch.] [Remove the new [lot number/][expiry date] from pouch and place it on top of the old [lot number/][expiry date] sticker on the canister]. Open [Remove lid from] empty canister [bucket]. [Place] [Put] [Insert] refill [pouch] into bucket [canister]. [Use scissors] [to] [Cut] [Rip] [Tear] [Pull] [Open] refill pouch. DO NOT remove wipe roll from refill pouch. Pull out corner of first sheet [wipe] from center of roll and push ½” to ¾” (1 to 2 cm) through “X” opening on lid. DO NOT push finger through opening. Replace lid and pull wipe [towel] at an angle. The next [sheet] [wipe] [towel] pops up automatically. When finished, close [lid] [flap] to retain moisture. If bucket becomes contaminated [or] [damaged] replace immediately. Replace bucket immediately if tabs below [lid] [flap] become damaged.

**[For re-fill pouch where the wet roll is placed directly in the canister:]**

[Remove the new [lot number/][expiry date] from pouch and place it on top of the old [lot number/][expiry date] sticker on the canister.] Open [Remove lid from] empty canister [bucket]. [Use scissors] [to] [Cut] [Rip] [Tear] [Pull] [Open] refill pouch. Place saturated towelettes in empty canister [by] [invert[ing] contents of the pouch into empty canister]. Pull out corner of first sheet [wipe] from center of roll and push ½” to ¾” (1 to 2 cm) through “X” opening on lid. DO NOT push finger through opening. Replace lid and pull wipe [towel] at an angle. The next [sheet] [wipe] [towel] pops up automatically. When finished, close [lid] [flap] to retain moisture. If bucket becomes contaminated [or] [damaged] replace immediately. Replace bucket immediately if tabs below [lid] [flap] become damaged.

**[For re-sealable flatpack, transport pack or softpack, flexible package:]**

[To Open Package:]

1. Open [click-lock] [closure] and peel back [or] [remove] seal.
2. Pull out [one] wipe [sheet] [at a time][, use as directed].
3. [When finished,] [firmly] close [click-lock] [closure] to retain moisture [to prevent drying between uses].

**[For re-sealable soft pack:]**

1. Remove the seal (from the place shown on the label).
2. Remove one sheet at a time.
3. Close the seal (to prevent drying between uses).

**[For single count pack:]**

To Open: Tear open packet. Unfold and use as directed. Discard after single use.

Not for personal cleansing. This is not a baby wipe. [Do not flush in toilet].

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

Not for personal cleansing. This is not a baby wipe. Do not flush in toilet.

*(\*\*Note to reviewer: The following paragraph will be used on labels that state non-critical and semi-critical medical devices listed on pages 6 and 7, as defined by the FDA, and is manufactured accordingly.)*

(This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.)

**To Use as a One-Step Cleaner/Disinfectant:**

1. Pre-clean heavily soiled areas.
2. Wipe hard, non-porous environmental surfaces with towelette.
3. Allow surface to remain wet for 1 minute. (For certain listed viruses, allow to remain wet for 30 seconds.)
4. Allow to air dry (or rinse (with potable water if necessary)).

Note: All food contact surfaces must be rinsed with potable water. Do not use on glassware, utensils, or dishes.

**To Use as a (Daily) (Bathroom) (Restroom) (Shower Room) (Locker Room) (Athletic Equipment) Cleaner/Disinfectant:**

1. Pre-clean heavily soiled areas.
2. Wipe hard, non-porous environmental surfaces with towelette.
3. Allow surfaces to remain wet for 1 minute. (For certain listed viruses, allow to remain wet for 30 seconds.)
4. Rinse surfaces thoroughly (and) (or) let air dry.

*(The below sentence is optional language:)*

(Note: Floors will be slippery when wet or contaminated with foreign materials.)

*[Note to Reviewer: When this product is manufactured and listed as an FDA Medical Device General Purpose Disinfectant, the final product label can state the following instructions to disinfect noncritical medical items:]*

**To Disinfect Non-Critical, Pre-cleaned Instruments:**

1. Instruments must be thoroughly pre-cleaned to remove excess organic debris, rinsed, and rough dried. (Clean and rinse lumens of hollow instruments before wiping with this product).
2. Wipe hard, non-porous environmental surfaces with towelette.
3. Let stand for 1 minute (at room temperature).
4. Wipe with a clean, damp cloth or paper towel and allow to air dry.

Note: Non-critical medical items are those that only come into contact with intact skin.

**To Clean and Disinfect Manikins Used in CPR Training:**

Manikins should be cleaned as soon as possible at the end of each class to avoid drying of contaminants on surfaces. Disassemble the manikin as directed by manufacturer's instructions. Wipe all surfaces with towelette until thoroughly wet. Let stand for 1 minute and rinse with potable water. (For certain listed viruses, allow to remain wet for 30 seconds.)

**To Disinfectant Hard, Non-Porous Surfaces in Pharmaceutical and Cosmetic Processing Facilities:**

1. Pre-clean heavily soiled areas.
2. Wipe hard, non-porous environmental surfaces with towelette.
3. Allow surfaces to remain wet for 1 minute. (For certain listed viruses, allow to remain wet for 30 seconds.)
4. Rinse with sterile water.
5. Wipe with a dry, clean cloth and let air dry.

\*\**Candida Auris* Claim

EPA Reg. No. 70627-77  
November 5, 2019  
Page 15 of 19

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

**To Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:**

1. Pre-clean heavily soiled items.
2. Wipe all surfaces of pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other hard, non-porous instruments with this product until thoroughly wet.
3. Let stand for 1 minute.
4. Rinse the surfaces thoroughly with water.
5. Let air dry before reuse.

**To Disinfect Hard, Non-Porous Surfaces of Non-Circulating Footbaths:**

1. Drain: Drain the water (from) (the) (unit) (basin) (bowl) and remove any visible debris.
2. Clean: Thoroughly clean all surfaces with (this product) (or) (soap) (detergent), then rinse with water and drain.
3. Apply: Wipe all hard non-porous (inanimate) (environmental) surfaces with the towelette. Allow surfaces to remain wet for 1 minute. Change towelettes frequently to avoid re-deposition of soil. Use additional towelettes if needed to ensure the correct wet contact time.
4. Rinse (cleaned) (treated) (surfaces) with fresh water and drain.

**\*KILLS HIV, HCV and HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis C Virus (HCV) or Hepatitis B Virus (HBV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS), HCV OR HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

**Personal Protection:** (Disposable ) Protective Gloves (latex, nitrile, or vinyl) gloves, gowns, face masks, and eye coverings (as appropriate), must be worn during all cleaning of body fluids, blood, and decontamination procedures.

**Cleaning Procedures:** Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product.

**Contact Time:** Allow surface to remain wet for 30 seconds to kill HIV-1, HCV and HBV, 4 minutes for mold, and 1 minute to kill other organisms cited on label.

**Disposal of Infectious Material:** Blood/body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

**Animal Housing Facilities (Including Veterinary Clinics, (Equine) Farms, Livestock, Swine and Poultry Houses):**

For cleaning and disinfecting the following hard, non-porous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including barns, pens, stalls, and chutes) occupied or traversed by animals.
3. Empty (or cover) all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water.
5. Wipe hard, non-porous environmental surfaces with towelettes. To disinfect, all surfaces must remain wet for 1 minute. (For certain listed viruses, allow to remain wet for 30 seconds.)
6. Allow to air dry (or rinse with potable water if necessary).
7. Ventilate buildings and other closed spaces.
8. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
9. Thoroughly scrub treated feed racks, troughs, mangers, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

[Note to Reviewer: Footnotes for Symbols Mentioned in Label ]

\*Virucidal Claims  
\*\**Candida Auris* Claim

EPA Reg. No. 70627-77  
November 5, 2019  
Page 16 of 19

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

### **To Kill Fungi:**

*For Candida auris, please see special instructions.* Pre-clean heavily soiled areas. Wipe hard, non-porous environmental surfaces with towelette (wipe). Allow to remain wet for 1 minute. Use additional towelettes(wipes) if needed to ensure the correct wet contact time. Wipe surfaces or let air dry.

### **\*\*Special Instructions for Cleaning Prior to Disinfection against Candida auris**

**Personal Protection:** Wear appropriate barrier protection such as gloves, gowns, masks or eye covering.

**Cleaning Procedure:** Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with a clean cloth, mop, and/or sponge saturated with the product. Pre-cleaning is to include vigorous wiping and/or scrubbing and all visible soil is removed. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading the organism. Restrooms are to be cleaned last. Do not reuse soiled cloths.

**Infectious Materials Disposal:** Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

**Disinfection Procedure:** Pre-clean heavily soiled areas. Wipe hard, non-porous environmental surfaces with towelette. Allow to remain wet for 1 minute. Use additional towelettes(wipes) if needed to ensure the correct wet contact time. Wipe surfaces or let air dry.

### **To Use as a Non-Food Contact Sanitizer:**

1. Pre-clean heavily soiled areas.
2. Wipe hard, non-porous environmental surfaces with towelette.
3. Allow the surface to remain wet for 10 seconds.
4. Wipe surfaces dry (or rinse) (or allow to air dry).

### **To Kill Mold and Mildew:**

Pre-clean surfaces. Wipe hard, nonporous surfaces with towelettes until completely wet. Allow to remain wet for 4 minutes. Let air dry (or) (wipe surface dry) (or) (rinse).

### **To Control Mold and Mildew:**

Wipe hard, nonporous surfaces with towelettes until completely wet. Let air dry (or wipe surface dry) (or rinse). Repeat application weekly or when growth reappears.

### **To Clean (and/or Deodorize):**

Wipe hard, non-porous environmental surfaces with towelette. (Wipe surfaces dry) (or rinse) (or allow to air dry). Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate (dirt) before wiping.

### **(Allergen Destruction)**

**To Clean and Destroy Specified Allergens:** Wipe, wait 1 minute, and wipe with a second towelette to remove excess. (Allow to air dry) (or) (rinse). (If streaking is observed, wipe with a clean, damp (cloth or) paper towel.)

Allergens:

- Cockroach matter -or- particles
- Dust mite matter -or- particles
- Pet dander -or- dog and cat dander

## **STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in original container in areas inaccessible to small children in a cool, dry area (away from direct sunlight and heat). Keep securely closed.

(Note to Agency: Text appearing in parenthesis is done to show optional text which can be used partially or in its entirety. Commas may be added where needed.)

**Towelette Storage/Disposal:** Dispose of (wipe) (towelette) (cloth) in trash after use. Do not flush. (Tightly close lid) (Reseal) between uses to retain moisture.

**Container Disposal:**

[Note to reviewer: The following statement will be used on containers that cannot be refilled by the end-user but are recyclable:]

Nonrefillable container. Do not reuse or refill this container. Offer empty container for recycling. If recycling is not available, discard container in trash.

[Note to reviewer: The following statement will be used on containers that cannot be refilled by the end-user and are NOT recyclable such as refill bags/soft packs:]

Nonrefillable container. Do not reuse or refill this container. Discard container in trash.

[Note to reviewer: The following statement will be used on containers (canisters, buckets) that are designed to be refilled by the end-user:]

Refillable container. Refill this container with this brand name pesticide only. Do not reuse or refill this container for any other purpose. After final use, offer empty container for recycling. If recycling is not available, discard container in trash.
