 Reregistration

(under FIFRA, as amended)

Term of Issuance:
Conditional

Name of Pesticide Product:
Promote™ProChek GP99.5 L

Name and Address of Registrant (include ZIP Code):
Cargill, Inc., Cargill Feed Applications
12900 Whitewater Drive, MS#75
Minnetonka, MN 55343

Attention: John A. Rogers, Ph.D.

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for the registration of your product when the Agency requires all registrants of similar products to submit data.
2. Make the following label changes listed below before you release the product for shipment:
 - a. Add the phrase, "EPA Reg. No. 70728-1".
3. Submit one copy of your final printed label before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. GP-99.5 is for use as a fungistat to reduce mold growth during storage. It can be used post-harvest on cereal grains (barley, corn, oat, sorghum, and wheat). Treated grain may subsequently be used as an animal feed ingredient.

BIN PREPARATION: As with other blends of acids, GP-99.5 is corrosive. Bins should be protected by lining with non-toxic plastic sheeting before filling.

APPLICATION: Apply undiluted, by use of low-pressure spray nozzles, achieving uniform coverage as grain passes through applicator. Stop grain flow immediately in event of spray failure or nozzle plugging. Concentrations of untreated grain may develop fungal growth, which may spread and spoil other grain in the bin. Increasing the suggested application rate in the Table by 25% for the top 10% of the grain placed in each storage bin will provide additional protection against the effect of normal moisture migration in the grain during storage.

GP-99.5 is suggested for application as directed below immediately after harvest to prevent fungal growth in stored cereal grains:

Application Rates (pounds per ton of grain)

Moisture Content (%)	16	18	20	22	24	26	28	30	32	34
Pounds of GP-99.5	11	13	15	17	19	21	23	25	27	29

[Convert to "fluid oz. per 100 lb. of grain" by using the formula:
(lbs. product / ton grain) x .77 = (fluid oz. product / 100 lb. grain).]

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Avoid contamination of stored pesticide with water or caustic.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE SPILLAGE: Neutralize with sodium carbonate, sodium bicarbonate, chalk or lime.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER

Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes. Wear protective clothing and goggles. Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with skin or clothing. Avoid breathing vapor. Remove contaminated clothing and wash clothing before reuse. Wear chemical resistant gloves and chemical resistant footwear. Wash thoroughly with soap and water after handling.

Environmental Hazards

Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

Physical or Chemical Hazards

Combustible. Do not use, pour, spill, or store near heat or open flame.

For Agricultural Use Only

This product is intended as a source of propionic acid. Buyer assumes all responsibility of use, storage and handling of this product. Cargill, Incorporated makes no claims or warranties expressed or implied, except those set forth above, due to conditions and uses by buyer and uses, by buyer beyond the control of Cargill, Incorporated.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID

- IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
- IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
- IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center for doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN

Visible mucosal damage may contraindicate the use of gastric lavage.
