- c. Revise the "To Clean/Disinfect Food Processing Equipment and Food Contact Surfaces" on page 3 by adding the statement, "Before use, remove food products and packaging materials from the area."
- d. Revise the "HIV, HCV, and HBV" directions on page 4 by adding the subheading "Contact Time" after the Cleaning Procedures statement.
- e. Since this product may be used in vehicles, the label must support the following directions:

Vehicles: Treat all vehicles including mats, crates, cabs, and wheels by spraying surface until completely wet. Allow surfaces to remain wet for 10 minutes. Wipe with a clean sponge or lint-free cloth or allow to air dry.

3. Submit the storage stability/corrosion characteristics study generated in accordance with OPPTS Test Guideline a year from the date of this notice.

Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records. Should you have any questions or concerns regarding this letter, please contact Stacey Grigsby by telephone at (703) 305-6440 or by email at grigsby.stacey@epa.gov or Jacqueline Campbell-McFarlane by telephone at (703) 308-6416 or by email at Campbell-mcfarlane.jacqueline@epa.gov.

Sincerely,

Jacqueline Campbell-McFarlane Product Manager (34) Regulatory Management Branch II Antimicrobials Division (7510P)

DESCRIPTION:

EcoTru[®] Revised is a [non-corrosive], [non-irritating], [non-flammable] multi-purpose, ready-to-use effective broad spectrum, hospital disinfectant [deodorizer] [cleaner] for use on hard, non-porous inanimate surfaces. EcoTru Revised can be used in hospitals, [nursing homes,] clinics, medical and dental offices, [health club facilities,] [rehabilitation facilities,] [patient care areas,] laboratories, [alternate care facilities,] [funeral homes,] veterinary care facilities, [animal shelters,] and [kennels]. It can also be used in schools, offices, [nurseries,] day care centers, [playrooms,] recreational facilities, [exercise facilities,] locker rooms, [washrooms,] restrooms, households, [office buildings, hotels, restaurants, beauty and barber shops, [cruise ships,] boats, aircraft, mass transit facilities, [school buses, [subways,] trains and buses, ambulances and patient transfer vehicles, and other automotive forms of public transportation. [EcoTru Revised can be used on aircraft, whether commercial or military on surfaces such as lavatories, galleys, windows, tray tables, service trays, overhead bins, arm rests, bulkheads, walls and floors.] EcoTru Revised will effectively disinfect, when used as directed, such hard, nonporous items as counter tops, walls, [counters], tables, [telephones,] chairs, [work surfaces,] exterior toilet surfaces, [sinks,] [tubs], [showers], floors, handrails, [door knobs,] [bed railings,] [bed frames,] [light switch covers,] wheel chairs, examination tables, play tables, [jungle gyms,] [playhouses,] non-food contact surfaces in food preparation areas, drain boards, faucets, [lavatories,] [cabinets,] veterinary care surfaces, dental operatory surfaces, [dental countertops,] dental chairs, light lens covers, appliances and other inanimate objects. EcoTru Revised has been demonstrated to be non-corrosive and shows a high degree of material compatibility. In testing per the AMS 1452B, AMS 1453, and Boeing D6-7127 Revision M specifications, EcoTru Revised conformed to all specified tests conducted: flash points, sandwich corrosions, transparent plastic, painted surfaces, unpainted surfaces, rubbers, vinyl surfaces, tedlar surfaces, total immersion corrosion, plastics, fabric and carpet, leather and naugahyde, and polycarbonate.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READY-TO-USE. MIX BY INVERSION, DO NOT DILUTE.**

[Households, Institutional and Commercial Establishments]

For use as a Cleaner and/or Deodorizer: Apply EcoTru Revised with a mop, cloth, sponge or sprayer to thoroughly wet surfaces, then wipe with sponge or cloth. **To Disinfect:** Spray surfaces until wet. For bactericidal disinfection, let stand for 10 minutes before wiping or allow to air dry. For virucidal disinfection against Influenza A, Avian Influenza A, Pandemic 2009 H1N1, Herpes simplex Type/1 & 2, HIV-1 Hepatitis B & C/Duck Hepatitis B and Bovine Viral Diarrhea fet stand for 5 minutes before wiping or allow to air dry. For virucidal disinfection against estimate to air dry. For virucidal disinfection against let stand for 10 minutes before wiping or allow to air dry. For heavily soiled areas, or surfaces or objects a precleaning step is required. **To deodorize:** Spray on surfaces as needed. **To Clean and Disinfect Food Processing Equipment and Food Contact Surfaces:** Remove gross food particles and wash thoroughly with EcoTru Revised or other compatible cleaner. Spray to wet all surfaces with EcoTru Revised. A contact time of at 10 with minutes is required for disinfection. Refer to list of microorganisms on this label for appropriate contact time. Drain disinfectant solution, rinse with potable water, then wipe dry or allow to air dry.

TO DISINFECT CONTAMINATED SURFACES AND OBJECTS (Healthcare facilities): For heavily soiled areas, a precleaning step is required Spray EcoTru Revised on surface until surface is completely wet. To disinfect, let stand 10 minutes. Refer to list of microorganisms on this label for appropriate contact time. Wipe with a clean sponge or lint-free cloth or allow to air dry.

Product Name: EcoTru Revised Master Label 090711 Page 4 of 10

KILLS HIV, HBV and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood /body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON HARD INANIMATE SURFACES AND/OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS:

Personal Protection: When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedures:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before disinfection application of EcoTru Revised. Spray EcoTru Revised on precleaned surface until surface is completely wet. Allow surfaces to remain wet for 5 minutes to ensure total inactivation of HIV-1 virus, HBV and HCV. Note contact time for other individual microorganism on this label. **Infectious Materials Disposal:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious disposal.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Special instructions for Cleaning and Disinfecting areas which may be infested with Hantavirus: Rodent droppings and visible dust may be reservoirs for Hantavirus. If you are cleaning out a building that has been closed up, such as a cabin, shed, or garage:

- 1. Air out the building for at least 30 minutes by opening windows and doors
- 2. Leave the building while it is airing out.
- 3. Do not vacuum, sweep or dust. This may spread the Virus through the air.
- 4. Thoroughly wet the contaminated area with the product and allow to stand undisturbed for 10 minutes.
- 5. Carefully remove contaminated material and dispose by burial or burning. Contact your local or state health department for additional disposal methods
- 6. Treat the surface again following the label directions and allow to stand undisturbed for 10 minutes.

{The following instructions for Animal Facilities may be placed in a package insert.}

[See Package Insert for Animal Housing Facility use instructions. {See page 10}]

Animal Housing Facilities (Including Veterinary Clinics, [Equine] Farms Livestock, Swine and Poultry Houses):

For cleaning, deodorizing, and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, barns, chutes, pens, catteries, animal transportation vehicles, etc.

- 1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
- 2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including pens, chutes, and barns) occupied or traversed by animals.
- 3. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with EcoTru Revised or compatible [soap] [detergent] [cleaner]. Spray EcoTru Revised on surface until surface is completely wet. A contact time of 10 minutes is required for disinfection. Refer to list of microorganisms on the EcoTru Revised label for appropriate contact time. Rinse with potable water and wipe dry or allow to air dry.
- 4. Completely wet handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.
- 5. Ventilate buildings and other closed spaces.
- 6. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub treated feed racks, troughs, mangers, automatic feeders, fountains, and waterers with EcoTru Revised or compatible [soap] [detergent] [cleaner], and rinse with potable water before reuse.

See EcoTru Revised label for additional instructions.

{For sizes 1 gallon or less}

STORAGE AND DISPOSAL: Store in original container. Keep securely closed. Nonrefillable container. Do not reuse or refill this container. When discarding container, place in trash collection or take to recycling center.

{For sizes over 1 gallon}

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool, dry, well ventilated area away from chemicals, direct light, heat or open flame. Do not mix with other cleaning or disinfecting products.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. For more information on the disposal of unused, unwanted product and the cleanup of spills, contact the EPA Regional Office or the Manufacturer for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill; or incinerate, or, if allowed by state and local authorities, burn. If burned, stay out of smoke.

{For containers of 5 gallons or 50 lbs. or more}

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting agency has been notified in writing prior to discharge. This pesticide is toxic to fish. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

EcoTru[®] Revised (EPA Reg. No. 70791-X) Veterinary Housing Facilities Package Insert

Animal Housing Facilities (Including Veterinary Clinics, [Equine] Farms Livestock, Swine and Poultry Houses):

DIRECTIONS FOR USE:

For cleaning, deodorizing, and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, barns, chutes, pens, catteries, animal transportation vehicles, etc.

- 1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
- 2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including pens, chutes, and barns) occupied or traversed by animals.
- 3. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with EcoTru Revised or compatible [soap] [detergent] [cleaner]. Spray EcoTru Revised on surface until surface is completely wet. A contact time of 10 minutes is required for disinfection. Refer to list of microorganisms on the EcoTru Revised label for appropriate contact time. Rinse with potable water and wipe dry or allow to air dry.
- 4. Completely wet handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.
- 5. Ventilate buildings and other closed spaces.
- 6. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub treated feed racks, troughs, mangers, automatic feeders, fountains, and waterers with EcoTru Revised or compatible [soap] [detergent] [cleaner], and rinse with potable water before reuse.

See EcoTru Revised label for additional instructions.
