NOTIFICATION
Date Reviewed: *7/31/09*
Reviewed By: *[Signature]*

For Industrial and Institutional Use Only. Not for Household use or resale.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes eye and skin irritation. Avoid contact with skin, eyes or clothing.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NET CONTENTS: 20 U.S. Gallons

Care for Work Environments

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. STAPINE is designed for cleaning and disinfecting in schools, offices, apartment buildings, motels, hotels and industrial bathrooms, locker rooms and cafeteria areas.

TOILET ROOM, URINALS AND WATER CLOSETS: Add 1/2 cupful of STAPINE to each gallon of water and wash closets and urinal bowls regularly with the pine-emulsion, leaving the emulsion for a minimum of 10 minutes in the bowl. Scrub the floor and seat frequently with the emulsion prepared as described above. Let Stapine emulsion remain on surface for a minimum of 10 minutes.

FLOORS: For mopping and scrubbing use two ounces of STAPINE to a gallon of water. Leave the diluted STAPINE disinfectant in contact with the treated surface 5 to 10 minutes.

FOR DISINFECTING PURPOSES: Dilute STAPINE with water at the ratio of 1 part disinfectant to 80 parts of water. After removal of soil and dirt from the premises, use 1 part of STAPINE diluted with 80 parts of water to wet all surfaces thoroughly, using mop, sponge or cloth. Allow to remain wet for at least 10 minutes. The so-prepared emulsion of STAPINE functions as a disinfectant against S. typhosa.

TO DISINFECT AND DEODORIZE GARBAGE CANS: First clean thoroughly, and then rinse the empty garbage can with a dilution of STAPINE which has been prepared by adding 4 ounces of STAPINE to one gallon of water. Leave the dilution in the can for 10 minutes.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Protect pesticide containers from heat and cold; store above 32 degrees F. The storage area must be secured, dry, well lit, and well-ventilated. Keep pesticide storage areas clean. Clean up any spills promptly. Always store pesticide in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container 1/4 full with water and recap.

For containers 5 gallons and less, shake for 10 seconds.

For containers greater than 5 gallons, tip container on its side and roll back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times.

Follow Pesticide Disposal Instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or offer for reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
