#### **DIRECTIONS FOR USE**

THRELITURO FUN USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Read the entire label before using the product.
Formula 400 PARCH is a nonselective herbicide that can be applied for postemergent or preemergent weed control. Formula 400 PARCH is a specially designed formulation for complete vegetation control by action through foliage contact and root absorption. It is recommended that Formula 400 PARCH be used in areas such as industrial sites, around buildings, roadways, right-of-ways, lumber yards, tank farms, cemeteries, driveways, parking lots, fence areas, recreational areas and airports. Formula 400 PARCH is water emulsihable and noncontristive to equilibriument.

noncorrosive to equipment.

SPOT TREATMENT: For control of annual and susceptible perennial weeds (such as down

SPOT TREATMENT: For control of annual and susceptible perennial weeds (such as downy bronegrass, oposegrass, quackgrass, puncturevire, goldenrod and plantain) broroughly mix 2-3 pints of Formula 400 PARCH in 3 gallons of water to spray up to 250 square feet for thorough uniform coverage.

LARGE AREA TREATMENT: Uniformly spray one gallon of Formula 400 PARCH mixed in ten gallons of water over 1000 square feet. Thoroughly wet all foliage to ensure contact action. Best results are obtained when application is made while growth is succulent. Where vegetation is tall and dense, use 1½ gallons of Formula 400 PARCH in ten gallons of water per 1000 square feet. For hard-to-kill perennial weeds and grasses such as Johnson grass, bindweet and wild carrot, use 3-4½ gallons Formula 400 PARCH in ten gallons of water per 1000 square feet. Although Formula 400 PARCH has considerable activity through toliar contact, much of its activity is through the roots, and therefore, adequate rainfall is necessary to move the cherzical into the root zone.

requirely.

For faster top-kill of existing vegetation, apply Formula 400 PARCH at the above dilution rates in diesel oil, fuel oil or weed oil.

Formula 400 PARCH SHOULD NOT be used on land to be cropped, or near desirable trees, shrubs or plants, as injury may occur. Do not apply to areas underlaid by roots of desirable trees and

shrubs

Avoid drift to desirable plants.

#### STORAGE AND DISPOSAL

Do not store near fertilizers, seeds, insecticides or fungicides. Keep container closed when not in use. Store this product only in its original container and place in a locked storage area out of the reach of children. Do not store, use, soill or pour near heat, sparks

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsale is a violation of Federal law. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Containers targer than 1 gallon: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Sanitary letters, to by other procedures approved by state and other administrations. It empty: Do not reuse this container, Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
