UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 9 2007

Julee Kasprisin  
State Industrial Products  
3100 Hamilton Av.  
Cleveland, OH 44114

Dear Ms. Kasprisin:

Label Revision Amendments  
State Formula 400 Parch  
EPA Reg. No. 70799-7  
Submission dated August 12, 2003

The labeling, referred to above, submitted in connection with the application under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the following changes:

1. Under "Title";
  - Add a weight per unit volume statement, e.g., lbs of AI per gallon.
  - Ciba-Geigy Corp. is no longer the technical registrant. Use correct name of the current technical registrant.
2. Add appropriate "Environmental Hazards" statement." Use the guidance specified in the EPA Label Review Manual, 3rd edition, August, 2003.
3. Under "Directions for Use";

Specify a maximum number of applications that can be made to a single treated area.

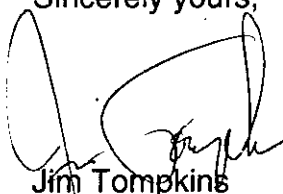

4. Under "Warranty Notice"

Add "To the fullest extent of the law" before "The exclusive remedy . . . this product involved.

Page 2  
EPA Reg. No. 70799-7

The amended label supersedes all previously accepted labels. A stamped copy of the revised label is enclosed for your records. Please submit one copy of your final printed label before you release the product for shipment.

Sincerely yours,

Jim Tompkins  
Product manager (25)  
Herbicide Branch

# Formula 400 PARCH®

DOUBLE ACTING FOLIAGE CONTACT AND ROOT ABSORPTION  
LONG TERM CONTROL • WATER EMULSIFIABLE

**ACTIVE INGREDIENTS:**

Prometon; 2,4-bis (isopropylamino)-5-methoxy-s-triazine\* .....3.73%

**INERT INGREDIENTS: +** .....96.27%  
100.00%

+ Contains petroleum distillates

\* Promitol® is a registered trademark of Ciba-Geigy Corp.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read the entire label before using the product.

Formula 400 PARCH is a nonselective herbicide that can be applied for postemergent or pre-emergent weed control. Formula 400 PARCH is a specially designed formulation for complete vegetation control by action through foliage contact and root absorption. Use Formula 400 PARCH in industrial sites, around buildings, roadways, right-of-ways, lumber yards, tank farms, cemeteries, driveways, parking lots, fence areas, recreational areas and airports. Formula 400 PARCH is water emulsifiable and noncorrosive to equipment.

**SPOT TREATMENT:** For control of annual and susceptible perennial weeds (such as downy brome grass, oatgrass, goosegrass, quackgrass, puncturevine, goldenrod and plantain) thoroughly mix 2-3 pints of Formula 400 PARCH in 3 gallons of water to spray up to 250 square feet for thorough uniform coverage.

**LARGE AREA TREATMENT:** Uniformly spray one gallon of Formula 400 PARCH mixed in ten gallons of water over 1000 square feet. Thoroughly wet all foliage to ensure contact action. Best results are obtained when application is made while growth is succulent.

Where vegetation is tall and dense, use 1 1/2 gallons of Formula 400 PARCH in ten gallons of water per 1000 square feet. Although Formula 400 PARCH has considerable activity through foliar contact, much of its activity is through the roots, and therefore, adequate rainfall is necessary to move the chemical into the root zone.

For faster top-kill of existing vegetation, apply Formula 400 PARCH at the above dilution rates in diesel oil, fuel oil or weed oil.

Do not use Formula 400 PARCH on land to be cropped, or near desirable trees, shrubs or plants, as injury may occur. Do not apply to areas underlaid by roots of desirable trees and shrubs. Avoid drift to desirable plants.

Do not allow spray to drift from the application site and contact people, structures people occupy at any time and the associated property, parks and recreation areas, nontarget crops, aquatic and wetland areas, woodlands, pastures, rangelands, or animals.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.  
**PESTICIDE STORAGE:** Do not store near fertilizers, seeds, insecticides or fungicides. Keep container closed when not in use. Store this product only in its original container and place in a locked storage area out of the reach of children. Do not store, use, spill or pour near heat, sparks or open flame.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.

**CONTAINER DISPOSAL:** Containers larger than 1 gallon: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

1 gallon containers: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**WARRANTY NOTICE:** State warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling which may result in loss or damage which are beyond the control of the seller, such as for example incompatibility with other products, or materials in or on the soil or crop. State makes no other express or implied warranty of fitness or merchantability. The exclusive remedy of the user or buyer, and the limit of the liability of losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user and buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice, which may not be varied by any verbal or written agreement.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
**WARNING**  
**KEEP OUT OF REACH OF CHILDREN**

Harmful if swallowed. Avoid contact with eyes and skin. Avoid inhalation of spray mist. Avoid contamination of food and feed.

**FIRST AID**  
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**NOTE TO PHYSICIAN**  
There is no specific antidote if Formula 400 PARCH is ingested.  
Contains Petroleum Distillate - vomiting may cause aspiration pneumonia.

**ENVIRONMENTAL HAZARDS**  
This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, or to areas where surface water is present or to the intertidal areas below the mean high watermark. Do not contaminate water when cleaning of equipment or disposing of equipment washwaters.

**PHYSICAL OR CHEMICAL HAZARDS**  
Do not use or store near heat or open flame.
