UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

page 2 EPA Reg. No. 70871-3

3. This product has been registered as a microbiostatic agent for <u>materials preservation only</u>; neither this product, nor articles treated with this product, may state or imply any public health claims.

4. Articles or substances treated with this product will be exempt from FIFRA regulation pursuant to 40 CFR 152.25(a) only if the intended use for incorporating this material into the treated article or substance is for protection of the article or substance itself.

The following comments apply to the master label.

1. On page one, increase the font size of the asterisk (*) after "Microbiostatic Agent" and before "A microbiostatic agent is an agent that inhibits..."

2. On page two, revise the Environmental Hazards statement to include the following: "Do not apply directly to water."

3. On page two, include the phrase "For Residential Use Only."

4. On page three in the section describing the use of this product on carpeting, revise the statement to read "Test staining and color-fastness of carpets by treating and drying a small concealed area prior to application." deleting the phrase "fabric and".

5. On page six delete the series of statements which begin "Molecularly bonds to...". These statements are unacceptable because they imply that a true chemical bond occurs between the substrate (fabric, carpet, upolstery or other surface) and your product.

6. On page seven revise the statements which begin "Provides/creates an invisible barrier against the..." to read "Provides/creates an invisible barrier to inhibit the..." deleting the word "against" which implies heightened efficacy for this microbiostatic compound.

7. Revise the following two statements on page seven to read "Inhibits the growth of fungi (mold and mildew) between cleaning." and "Inhibits the growth of algae between cleanings." deleting the references to bacteria as the cause of fungi, which is an inaccurate statement as well and fungi from the second statement since neither of these two prganisms cause the growth of algae. page 3 EPA Reg. No. 70871-3

fungi (mold and mildew), and algae. This product does not protect users or others against food-borne or disease-causing bacteria.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes and skin. Harmful if inhaled or absorbed through the skin. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of pesticide.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wear protective eyewear (goggles or face shield) and gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

The active ingredient in BST Protectant Concentrate C15 is effective against odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent.

	Pest controlled	Dilution Rate	Method of Application
Bedsheets, blankets, bedspreads, curtains, draperies (washable only), underwear, socks, intimate apparel, hosiery, throw rugs, toweling, toilet tank covers, shower curtains, shoe insoles, outerwear apparel (jackets, sweaters, sweatshirts, coats, raincoats, overcoats, jerseys, ponchos). BST Protectant Concentrate C15 can be applied to fabrics made of acetates, acrylics, cotton, fiberglass, linen, Lycra, nylon, orlon, polyester, polyethylene, polyolefins, polypropylene, rayon, silk, spandex, vinyl, and wool	Odor causing bacteria, bacteria which cause staining and discoloration, and fungi (mold and mildew)	1 part BST Protectant Concentrate C15 to 1 part water	DIP/SOAK: Dilute BST Protectant Concentrate C15 in water; mix well. Use appropriate sized wash basin or tub for dipping/soaking the item you are treating. Use enough BST Protectant Concentrate C15 solution to completely submerge item. Keep item in solution for 3 minutes. Remove item and wring excess liquid. Drying may be attained by dripping dry or wringing excess liquid from treated item. For Jarger items (e.g., bedspreads, curtains, draperies), place in washing machine on spin cycle to aid in the removal of excess liquid. Test staining and color-fastness of fabric and carpets by treating and drying a small concealed area prior to application. Do not reuse solution after dipping/soaking. Dry treated articles before use. Substrates can be hang-dried at room temperature or at temperatures to a maximum of 160 °C (320 °F); (for example in a clothes dryer). Remove excess liquid before attempting to dry in a clothes dryer.

Imparts microbiostatic properties.

Use on carpet and upholstery to inhibit odor causing bacteria, bacteria which cause staining and discoloration, and fungi (mold and mildew).

Use on carpet and upholstery to inhibit the growth of odor causing bacteria.

Use on carpet and upholstery to inhibit the growth of bacteria which cause staining and discoloration.

Use on carpet and upholstery to inhibit the growth of fungi (mold and mildew).

Use on carpet and upholstery to inhibit the growth of odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew), and algae.

Provides an invisible microbiostatic coating to inhibit the growth of odor causing bacteria.

Provides an invisible microbiostatic coating to inhibit the growth of bacteria which cause staining and discoloration.

Provides an invisible microbiostatic coating to inhibit the growth of fungi (mold and mildew).

Provides an invisible microbiostatic coating to inhibit the growth of algae.

Provides an invisible microbiostatic coating to inhibit the growth of odor causing bacteria, bacteria which cause staining and

discoloration, fungi (mold and mildew), and algae.

Prevents deterioration caused by bacteria and fungi (mold and mildew).

Inhibits deterioration caused by bacteria.

Resists development of microbial odors.

Resists development of stains and discoloration due to bacteria.

Resists development of stains due to fungi (mold and mildew).

Resists stains due to algae.

Resists stains due to algae. Resists development of microbial odors, stains and discoloration due to bacteria, fungi (mold and mildew), and algore, and Rodenticide Actas Provides/creates an invisible barrier against the growth of odor causing bacteria.

Provides/creates an invisible barrier against the growth of bacteria which cause staining and discoloration. Provides/creates an invisible barrier against the growth of fungi (mold and mildew).

Provides/creates an invisible barrier against the growth of algae.

Provides/creates an invisible barrier against the growth of odor causing bacteria, bacteria which cause staining and discoloration,

fungi (mold and mildew), and algae.

Inhibits the growth of odor causing bacteria between cleanings.

Inhibits the growth of bacteria which cause staining and discoloration between cleanings.

Inhibits the growth of bacteria which cause fungi (mold and mildew) between cleanings.

Inhibits the growth of bacteria which cause algae fungi (mold and mildew) between cleanings.

Inhibits the growth of odor causing bacteria which cause staining and discoloration, fungi (mold and mildew), and algae between cleanings.

Mold, mildew, odor protector and inhibitor.

BST Protectant Concentrate C15 is an antimicrobial agent effective against odor causing bacteria.

BST Protectant Concentrate C15 is an antimicrobial agent effective against bacteria which cause staining and discoloration.

BST Protectant Concentrate C15 is an antimicrobial agent effective against fungi (mold and mildew).

BST Protectant Concentrate C15 is an antimicrobial agent effective against algae.

BST Protectant Concentrate C15, an antimicrobial agent, controls the source of odors'on surfaces in the home, in the bathfoom, in the kitchen.

Bacteriostatic, fungistatic (mold and mildew), algaestatic.

BST Protectant Concentrate C15, an antimicrobial agent, inhibits smelly odors caused by mold and mildew that can grow even in the cleanest of homes.

BST Protectant Concentrate C15, an antimicrobial agent, inhibits the growth of odor causing bacteria.

Effective on hard non-porous washable bathroom and kitchen surfaces and fixtures around the home.

Effective on modern hard non-porous washable surfaces like fiberglass, glazed porcelain, Formica®, stainless steel, synthetic marble.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original, tightly closed containers below 30°C (86°F) and above 0°C (32°F) in a secure area inaccessible to children and away from food or feed.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site.

Container Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

FOR MORE INFORMATION CONCERNING THIS PRODUCT, PLEASE CONSULT THE MATERIAL SAFETY DATA SHEET (MSDS). THE MSDS CAN BE OBTAINED BY WRITING BIOSHIELD TECHNOLOGIES, INC. AT 4405 INTERNATIONAL BOULEVARD, SUITE B109, NORCROSS, GEORGIA, 30093.

IMPORTANT: WARRANTY AND DISCLAIMER INFORMATION

BioShield Technologies, Inc., warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated in this bulletin when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to bulletin instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.

BIOSHIELD SPECIFICALLY DISCLAIMS ANY OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING THE WARRANTY OF MERICHANTABILITY
