RE: Mosquito 'cognito Scent Cartridge
EPA Reg. No. 70909-2

Notification of minor label revisions per Section II (N) of PRN 98-10

Dear Dr. Reilly:

Enclosed with this letter you will find the following in support of a notification of minor label revisions for the above referenced product:

- 1) Notification form;
- 2) One (1) copy of the revised label with all changes highlighted in shading.

This notification is for minor label revisions that are:

- a. Consistent with 40 CFR Part 156; and
- b. Involve no change in the ingredients statement, signal word, use classification, precautionary statements, First Aid, physical / chemical / biological properties, storage and disposal or directions for use.

The label revisions involve adding an alternative version of directions for use that is consistent with already approved directions for use. Note the alternative version of directions for use does not alter how the product is used, its rate of application or method of application. If you have any questions or comments, please do not hesitate to contact Ms. Amy Roberts of our DC office at (202) 828-8964.

Sincerely,

Katherine A. Buteau
 Regulatory Consultant for BioSensory, Inc.

mosquito 'cognito®

Replacement Scent Cartridges

(Alternate Brand Name: Conceal™ Inhibitor Cartridges)

(optional text: 3 PACK CONCEAL™ INHIBITOR CARTRIDGES)

Nothing can ruin a backyard barbecue or pool party faster than swarms of mosquitoes. They are able to detect the scent of people from 100 yards away. When a mosquito picks up your scent, it zooms in for its next meal – ouch! Now there is mosquito 'cognito®. It makes it harder for mosquitoes to find you. In independent tests at a Florida mosquito-breeding site during peak mosquito activity (the two-hour period beginning at sunset), mosquito 'cognito® reduced landings by as much as 68% for a human test subject seated at the water's edge. The protection you receive depends on the insect activity in your backyard. Mosquitoes locate their victims by detecting exhaled carbon dioxide. mosquito 'cognito® emits a pleasant fragrance that masks carbon dioxide, making you invisible to mosquitoes.

Optional Text – Distributor 1: Mosquitoes have highly developed senses for detecting humans. Mosquitoes are attracted to three things: carbon dioxide from breath, body heat, and faint odors emitted by animals and humans. The (product name) emits and circulates a patented scent that blocks mosquito sensors and keeps them from finding you! (makes it difficult for them to find you!).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

When mosquito control is desired, open the mosquito 'cognito® (optional text: product name) dispenser and insert battery (optional text: insert batteries) (optional text: insert one C-cell battery) (optional text: insert two AA batteries). Carefully peel off the foil covering from the replacement scent cartridge (optional text: product name), being careful not to touch the contents, and place in the section of the dispenser below the fan (optional text: place it below the fan). Close the cover and place the motorized dispenser on a flat surface (optional text: Turn the unit on by sliding the switch upward.)

Optional Text – Distributor 1: Place the unit on a flat surface. Turn switch on.

You are now ready to enjoy your outdoor activities. Use a dispenser for every 100 square feet (10 ft. X 10 ft.) of patio or deck.

Optional Text – Distributor 1: Recommended Use: One unit per 100 square foot area.

Replace after 15 days continuous use, or when fragrance diminishes. **Optional Text – Distributor 1:** Replace scent cartridge when scent diminishes.

Optional Text – Distributor 2:

Use only outdoors.

- (Insert batteries into their appropriate positions.) (Remove the protective tab from battery compartment.) [optional text - Install 3 AA alkaline batteries (not included) by first removing hanger, remove screws, and lift off cover, exposing battery holder. Replace cover and screws after inserting batteries.]
- Being careful not to touch the contents, carefully open the (product name) (refill) by peeling off the foil cover.
- Align the (product name) (refill) with the slots on the bottom of the dispenser.
- Press the (product name) (refill) fully into the dispenser and twist to lock it in place. Put the unit on a flat surface. (Allow the sun to recharge your batteries.) [The multi-purpose indicator switch allows you to choose off, fan, light or fan and light. The green indicator light indicates fan operation.] **When mosquito control is desired, turn the switch ON. You are now ready to enjoy your outdoor activities. Use a dispenser for every 100 square feet (10 ft. X 10 ft.) of patio or deck. Replace after 15(14) days continuous use (up to 3 weeks), or when fragrance diminishes.**

Optional Text- Distributor 3:**(Box text)**

- Carefully peel off foil covering from the scent cartridge, being careful not to touch the contents.
- Open the door of the (product name) unit and place the scent cartridge into the side slots of the compartment below the fan.
- Important: To put the scent cartridge in place, the unit must be in upright position

(Use & Care Booklet)

Congratulations... on your purchase of the (device name)! Your decision to purchase this product will change forever the way you enjoy the outdoors. The system uses the power of scent and ultrasonic sound (certain models) to keep the mosquitoes from biting by virtually making you invisible to them. Use it wherever people gather.

- Place in the center of the table on the deck, patio or porch.
- Take it along on picnics or use it poolside.
- Pack one for your next camping trip.

The more you use the (device name), the more you will discover how simple it is to enjoy the outdoors with instant protection.

About (device name)

The unit releases an inhibitor scent that attacks the mosquitoes' keen sense of smell by blocking their sensory receptors. With their scent-tracking ability impaired, mosquitoes have difficulty finding people or animals — especially those in the immediate vicinity of the unit.

About Mosquitoes

The key to (device name)'s power is the way it turns the insects' keen sense of smell and poor eyesight against them. Mosquitoes and biting flies have an amazing sense of smell. They can detect your scent from up to 100 yards away. However, they have very poor eyesight. The visual range of mosquitoes is about 10 yards. When mosquitoes detect your scent, they immediately fly toward you, even though you are well beyond their visual range. That's where the (device name) comes in. The unit's patented inhibitor blocks mosquitoes' ability to track your scent. If they can't smell you, they can't get close enough to see you. If they can't see you they can't bite!

(device name) Placement

Always place the unit where people gather. Use one unit in an area 10 ft. x 10 ft. (100 square feet). Use more for larger areas. Satisfactory results depend on the area you want to protect and the severity of the local mosquito population. Experiment to find the number of units that are right for you.

This unit is for outdoor use only. It is weather resistant. Note: For maximum protection, place the unit on a high flat surface near where people gather such as a patio or picnic table. If there is a breeze, be sure to place the unit up-wind from where people gather so the scent covers the area desired.

1. When mosquito control is desired, remove Battery/Speaker (certain models). Cover located at the bottom of the unit. Turn cover counterclockwise to align cover slot with tab and pull off cover. (A)

Note: Make sure the ON/OFF dial is in the OFF position (down) before installing the batteries.

2. Insert 4 AA batteries (not included with all models) into battery compartment. Install batteries following markings for placement. (B)

3. Replace Battery/Speaker (certain models) Cover. Align cover slot with tab and push in. Turn clockwise until cover is secure.

4. Open the unit door. Hold the door on both sides. Using the finger notch for more control, pull open from right to left.

5. Carefully peel off scent cartridge foil cover.

Caution: Wash hands thoroughly after opening the scent cartridge if contact with contents occurred.

6. Slide the scent cartridge into the side slots the compartment below the Fan. (C)

Important: To put the scent cartridge in place, the unit must be in the upright position.

7. Close the door from left to right pushing firmly.

8. To turn on unit, rotate the ON/OFF dial counterclockwise. The ON/OFF dial pops up to the ON position, exposing additional vents, Indicator Lights glow, the Fan turns on and in certain models the Speaker emits ultrasonic sounds.

To turn

the unit off, press the ON/OFF dial and rotate clockwise to the OFF position. Be sure to turn off unit when not in use.

You are now ready to enjoy your outdoor activities. Use a scent cartridge for every 10 ft. x 10 ft.

(100 square feet) of patio or deck. Replace batteries as needed. Replace scent cartridge after 30 days or

continuous use or when scent diminishes.

Scent Cartridge

The scent cartridge lasts approximately 30 days of continuous use. Replace after 30 days of continuous use or if scent is noticeably diminished. To order scent cartridge refills, visit your local retailer or call toll-free 1-800-330-4108 or visit us at (website).

Care and Storage

- Do not immerse unit in water or in any other liquid.
- Do not leave outside in the rain.
- When disposing of the scent cartridge, securely wrap original container in several layers of newspaper and discard in the trash.
- If the scent cartridge is in place, the unit must be in the upright position.
- Place unit away from rodent pets such as rats, mice, hamsters and Guinea pigs.
- If the lights appear dim, replace the batteries.

Note: Before replacing the batteries, remove the scent cartridge.

- Before storing the unit, remove the batteries.
- If storing the unit inside an enclosed area for extended periods of time, remove scent cartridge, securely wrap original container in several layers of newspaper and discard in the trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Caution: Contents of replacement scent cartridges (optional text: product name) (optional text: refill) are harmful if swallowed or if directly inhaled. Causes moderate eye irritation. Avoid direct inhalation, or contact with eyes or clothing. Wash hands thoroughly after opening the replacement scent cartridge (optional text: product name) (optional text: refill) if contact with contents occurred.

Environmental Hazards

Do not apply directly to water. Do not contaminate water when disposing of scent cartridges (optional text: product name) (optional text: refill) or dispenser.

FIRST AID

If swallowed: Administer water and call a physician or poison control center immediately. Do not induce vomiting.

If directly inhaled: Move person away from dispenser. Get medical attention.

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL

Cartridge Storage: Store in original container in a cool, dry area.

Cartridge Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

(Cartridge Disposal: Do not reuse attractant cartridge. Dispose of used attractant cartridge in the trash.)

Optional text- Distributor 3:

-Do not contaminate water, food, or feed by storage and disposal.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

OPTIONAL MARKETING CLAIMS

- For use in the mosquito 'cognito® Dispenser
- A Clean, Simple, Smoke-Free System
- Assembled in the USA from Foreign and Domestic Parts
- Blocks your scent so mosquitoes can't find/see you.
- Provides 100 Square Feet of Protection
- Mosquito 'cognito' has a nontoxic mode of action. Mosquito 'cognito' is effective when used according to label directions.
- Great for Decks, Yards, Gardens, Around Pools, Patios
- Take Anywhere / Battery Powered ("C" Cell Battery Not Included)

Optional Text – Distributor 1:

- Blocks mosquito's sensor receptors so they can't find you.
- Patented technology that blocks the mosquito's sensors, keeping them away from you.
- Inhibitor keeps mosquitoes away by inhibiting ability to detect humans.
- Inhibitor scent cartridge contains a patented mosquito scent blocker.
- Inhibitor blocks mosquito's receptors from sensing humans.
- Inhibitor blocks mosquito sensors, keeping them away from you.
- For use anywhere outdoors: backyard, beach, fishing, picnics, tailgating, deck, campsite, and patio.
- Great for Decks, Yards, Gardens, Around Pools, Patios, Camping
- Take Anywhere / Battery Powered ("C" Cell Battery Not Included) (Two AA batteries not included)
- No lotions; no sprays.
- 1 (2) (3) replacement scent cartridge(s) (inhibitor refills) included. Each inhibitor refill lasts up to one month.
- Scent cartridge (inhibitor) is easily accessed and replaced.

Optional Text – Distributor 2:

- Use only outdoors.
- Easy to Use
- (Blocks) mosquitoes up to 100 sq. feet.
- (With) Soft White Light
- Multi-position On/Off switch with LED indicator
- Includes Wire Loop to hang underneath umbrellas or trees.
- Mounting bracket easily attaches to deck railings or pole.
- Requires Three AA Batteries (not included)
- Conveniently used in shaded areas
- No lotions, sprays or matches!
- (Product name) lasts up to 3(2) weeks.
- Each (refill) (product name) lasts up to 3(2) weeks!
- Keep the mosquitoes away all summer with the easy-to-change refill cups.
- The (battery-powered) (solar-powered) (product name) blocks mosquitoes so that people can retake control of their yards and enjoy the outdoors day or night without the fear of being eaten alive.
- For use in all (product name).
- FOR HANGAR USE The (product name) comes with a removable wire loop hanger (1). This hanger can be used to suspend the (product name) beneath umbrellas or any suitable support (2).
- FOR DECK/POLE MOUNT The deck/pole mount bracket can be attached to any flat surface with wood screws (included) (3). The 2 screws can be used in either orientation. Once the bracket is secured, the (product name) can be easily attached by aligning the bottom of the (product name) with the slots and turning clockwise to engage the hooks(4).

Optional Text – Distributor 3:

- Non-toxic mode of action
- Scent Cartridge is effective when used according to label directions.
- Great for decks & patios, yards, gardens, poolside areas, outdoor cookouts, camping.
- Uses 4 AA batteries (not included)
