PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Warning: May be fatal if inhaled. Do not breathe vapor.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To install or replace the Dragonfly® Carbon Dioxide Cylinder:

Disconnect the power supply to the Dragonfly® Electronic Unit. Close the valve on the Carbon Dioxide Cylinder. Remove the CGA-320 fitting from the empty Cylinder. To install a full Carbon Dioxide Cylinder, attach the CGA-320 fitting to the valve on the full Carbon Dioxide Cylinder. Take care that the Teflon® seal in the CGA-320 connector sits firmly against the mating surface on the valve. Open the valve on the Carbon Dioxide Cylinder. Connect the power, turn the unit on and depress the RESET button to set the Carbon Dioxide meter to zero. In everyday use, the Carbon Dioxide Cylinder will last from 30 to 130 days, depending on the CO₂ release rate selected.

When a one-week supply of CO₂ remains, the red CO₂ light will illuminate. If you hear the discharge valve "click" but do not hear the "puff" of the CO₂ release, the Carbon Dioxide Cylinder is completely empty and must be refilled or exchanged for a full one.

Storage and Disposal

Store this product in a cool, dry place and out of the reach of children until ready to use. To refill the Carbon Dioxide Cylinder, visit our website at www.nomorebites.com or call (860) 423-3009 for an authorized dealer in your area.
