Application for Pesticide - Section I

1. Company/Product Number Independent Agribusiness Professional, Inc.	2. EPA Product Manager Akiva Abramovitch	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) IAP Hi Supreme Sprav Oil	PM# 40	
5. Name and Address of Applicant (Include ZIP Code) 5657 N. Marks Ave. Fresno, CA 93711 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ EAP Reg. No. 71058-2 Product Name IAP Hi Supreme Spray Oil	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated _____	NOTIFICATION JUN 24 2005
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.	
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.	

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Independent Agribusiness Professionals is modifying their recommended spray volume per acre under the Concentrate Spray section of their label. See attached Cover Letter for further detail.

"This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Section - III

1. Material This Product Will Be Packaged In:					
Child-Resistant Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		2. Type of Container <input type="checkbox"/> Metal <input checked="" type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input checked="" type="checkbox"/> Other (Specify) 2.5 gal. or Bulk	
* Certification must be submitted		If "Yes" Unit Packaging wgt.	No. per container	If "Yes" Package wgt.	No. per container
3. Location of Net Contents Information <input checked="" type="checkbox"/> Label <input checked="" type="checkbox"/> Container		4. Size(s) Retail Container 2.5 gal, 30 gal, 55gal or bulk		5. Location of Label Directions <input type="checkbox"/>	
6. Manner in Which Label is Affixed to Product <input checked="" type="checkbox"/> Lithograph Paper glued Stenciled			<input checked="" type="checkbox"/> Other with shipment if bulk		

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)					
Name David H. Dawe		Title Agent/Consultant		Telephone No. (Include Area Code) 559-292-5758	
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.					6. Date Application Received (Stamped)
2. Signature 			3. Title Agent/consultant		
4. Printed Name David H. Dawe			5. Date 6-9-2005		

HI SUPREME SPRAY OIL

Active Ingredient: Petroleum oil 98.0 %
Inert Ingredients:.....2.0 %

TOTAL.....100.0 %

Minimum Unsulfonated Residue ...93 %

Keep out of Reach of Children
CAUTION

**See Below for Additional Precautionary
Statements**
EPA Reg. No. 71058 – 2
EPA Est. No. _____

Net Contents _____ Gallons

	<ul style="list-style-type: none"> eye. Call poison control center or doctor for treatment advice.
If on skin	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin with plenty of water for 15 –20 minutes. Call poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration by mouth to mouth if possible Call poison control center or doctor for treatment advice.
Note to Physician Contains Petroleum Distillate – Vomiting may cause aspiration pneumonia	

First Aid Caution	
Have product container or label with you when calling a poison control center or doctor or going for treatment.	
If swallowed	<ul style="list-style-type: none"> Call poison control center or doctor immediately for treatment advice Do not induce vomiting unless told to by poison control-center or doctor Do not give any liquid to a person Do not give anything to an unconscious person
If in eyes	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes. Remove contact lense, if present, after the first 5 minutes, then continue rinsing

Precautionary Statements Hazards to Humans and Domestic Animals

Harmful if Swallowed – Wash thoroughly with soap and water after handling. Avoid breathing spray mist. Remove contaminated clothing and wash thoroughly before reuse.

Physical or Chemical Hazards
Do not store, use or spill near heat or open flame. Do not weld, heat or drill container. Residue may ignite with explosive violence if heated sufficiently.

Personal Protective Equipment
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selection chart.
Applicators and other handlers must wear:

1. Long-sleeved shirt and long pants.
2. Chemical-resistant gloves, such as barrier laminate or nitrile rubber or neoprene rubber or viton.
3. Shoes plus socks.

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should:

1. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
2. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the main high water mark. Do not contaminate water when disposing of equipment wash waters.

Chemigation Prohibition

DO NOT apply this product through any type of irrigation system.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with this labeling.

Do not apply in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements of training, decontamination, notification, and emergency assistance.

It also contains specific instructions and exceptions pertaining to the statements on this label about personnel protective equipment and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours.

PPE required of early entry to treated areas that is permitted under the Worker Protection Standard and that involve contact with anything that has been treated such as plants, soil, or water is:

1. Coveralls
2. Chemical-resistant gloves, such as barrier laminate or nitrile rubber or neoprene rubber or viton.
3. Shoes plus socks

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. Protect from freezing. Keep in shade. In case of spill or leak on floor or paved surfaces, soak up with sand, earth, or synthetic absorbent.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in sanitary landfill, or by other approved State and local procedures.

Use Precautions

Summer Sprays

- DO NOT COMBINE WITH SULFUR SPRAYS and DO NOT APPLY spray oil within 30 days before or after an application of sulfur unless trees are in the dormant stage. Application during foliage stage within 30 days of a sulfur application will result in phytotoxicity.
- DO NOT COMBINE with Vendex, Calcium, Captan, Folpet, Morestan, Sevin or Zinc Sulfate. Allow the following intervals before or after application; Vendex 28 days, Calcium 14 days, Morestan 30 days, Sevin 14 days.
- DO NOT use on foliage closer than 60 days after or 90 days before using captan or folpet products.
- DO NOT MIX with insecticides or fungicides incompatible with oil. Consult your State Agricultural Extension Service for specific compatibilities.
- DO NOT APPLY to trees weakened by disease, drought, drying winds, or high nitrogen applications.
- DO NOT USE HI SUPREME SPRAY OIL when temperatures are above 90° F
- MAINTAIN CONSTANT AGITATION to prevent broken emulsion which can cause oil injury
- MULTIPLE CONCENTRATE APPLICATIONS may cause plant injury. Avoid double applications on the ends of crop rows when turning application equipment.
- CONCENTRATE APPLICATIONS can delay bud development

Dormant Sprays

- DO NOT COMBINE dormant spray oil with SULFUR or LIME SULFUR unless the mixture has been tested on the crop and the mixture has been shown to be safe. Oil and Sulfur or lime sulfur combinations SHOULD ONLY to be used on DORMANT CROPS.
- DO NOT USE HI SUPREME SPRAY OIL when temperatures are below 32° F (usually nighttime lows). Apply to crops when temperatures have warmed above 35° F and crop is free of moisture of melting frost or heavy dew
- DO NOT MIX with insecticides or fungicides incompatible with oil. Consult your State Agricultural Extension Service for specific compatibilities
- DO NOT APPLY to trees weakened by disease, drought, drying winds, or high nitrogen applications
- MAINTAIN CONSTANT AGITATION to prevent broken emulsion which can cause oil injury
- CONCENTRATE APPLICATIONS can delay bud development

Recommendations

High Gallonage, Full Cover Sprays

Rates given are for gallons of HI SUPREME SPRAY OIL per 100 gallons of water. Fill spray tank with ½ the required amount of water. Start agitator. Add total amount of spray oil. Continue operation of agitator while adding balance of water and while spraying. Use only in spray machine with powerful positive agitation. HI SUPREME SPRAY OIL is formulated as a "fast - break" spray oil, and will not stay in solution unless agitated constantly. Apply to give total coverage to all parts of tree or vine for maximum insect control.

Crops	Pests	Foliar Application	Dormant or Delayed Dormant Application	Further Use Instructions
YOUNG NON-BEARING CITRUS	Mites	Apply 100 – 400 gallons of spray solution using 1.2 gallons of oil per 100 gallons of water		Apply during spring, late summer, and fall months.
AVOCADOS	Mites and Thrips	Apply using 400 – 3000 gal of spray per acre using 1-4 gallons of oil per 100 gallons of water		Do not exceed 30 gal of oil per acre per application. When the application of oil is more than 2% vol/vol, do a small test area and allow enough time for adverse symptoms to develop before treating the larger block.
GRAPES (except in CA.)	Mealybug	1 – 1.5 gallons per 100 gallons		Use 100-300 gallons per acre. Apply with ground equipment only. Oil can temporarily affect surface bloom appearance but will not cause subsurface injury. Oil should not be applied within two days of harvest to grapes grown for fresh market. DO NOT use Propargite (Omite) within 40 days following oil application. DO NOT apply oil within 30 days of a Propargite (Omite) application. DO NOT combine with sulfur sprays past dormant stage. Applications made within 30 days before or after sulfur application will result in phytotoxicity.
GRAPES	Mealybug	4 – 6 gallons of oil in 100 gallons of water (For post harvest Fall spray use only)	4 – 6 gallons or oil in 100 gallons of water	Use in 200 – 300 gallons of water per acre.
ORNAMENTALS & SHADE TREES (Conifers, Holly, Pyracantha,	Black Scale, Brown Apricot Scale, Oyster Shell Scale, San Jose Scale, Soft	Apply 100 – 250 gallons of spray solution using 0.5 – 1.0 gallons of	2 – 3 gallons	Conifer applications to Blue Spruce and Blue Juniper varieties may cause discoloration. May cause injury to Arborvitae and other

Crops	Pests	Foliar Application	Dormant or Delayed Dormant Application	Further Use Instructions
<p>Sycamore, Hawthorne, Flowering Peach, Flowering Cherry, Apple, Roses (except in CA), Magnolia, Dogwood, Oak, Privet, Birch</p>	<p>Brown Scale, Red Spider Mites and Eggs. Additional Species except in CA.: Aphids, Adelgids, Certain Caterpillars, Eriophyd Mites, Gall Mites, Lace Bug, Leaf Beatle larvae, Leafminer, Mealybug, Psylids (imature), Sawfly, Whiteflies (imature)</p>	<p>oil per 100 gallons of water</p>		<p>cedars. Do not use on conifers or other ornamental plants not tolerant to oil sprays. Do not use dormant sprays on broadleaf evergreens such as Rhododendron, Cherry Laurel, Holly, Ivy, Azalea or Oregon Grape. In colder climates Cotoneaster, Barberry and Yews may be sensitive. Do not spray dormant sprays below 35° F. If handgun has not been used for twenty minutes or longer, recirculate back into tank until hose is flushed. Caution Dormant Spray: Recommended mininum of 2 week intervals for dormant sprays. Do not spray dormant sprays when buds have fully formed, and shoot elongation is occurring. Do not spray dormant sprays when leaves are in obvious moisture deficit or plants are under stress. Reduce rate to 2 gallons/100 water for Fall dormant applications to only: American Red Oak, Japaneese Black Pine, Dogwood, Weeping Cherry, Comelina Cherry, Crab Apple, Norway Maple, Pure Leaf Plum. Keep away from open blooms -- spotting has been observed with oil use on open blooms of certain varieties.</p>
<p>Christmas Trees (except in CA)</p>	<p>Aphids, adelgids, Scales (soft and hard imature), Spider Mites,</p>	<p>1 – 3 gallons</p>	<p>2 – 4 gallons</p>

RE: EPA Reg. No. 71058-2
IAP Hi Supreme Spray Oil

Dear Dr. Abramovitch/ To Whom It May Concern:

Enclosed is Independent Agribusiness Professionals (IAP) Notification to the EPA of a change in the IAP Hi Supreme Spray Oil (EPA Reg. No. 71058-2). On page 7 of the label, under the general recommendations for Concentrated Sprays we are changing the rate range for Ground Application from 40 – 500 gallons/Acre as it now reads to 40 – 200 gallons/ Acre (see label enclosed for exact wording.

No changes in application rate are being made only in the amount of water/ diluent being recommended. Current practice for concentrated oil applications is to only rarely approach the 200 gallon/A volume and 500 gallons/Acre is not practical nor commercially used, thus the reduction in volume is warranted.

This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Enclosed please find:

1. Cover letter (this document)
2. Application form (8570-1)
3. 1 copy of our changed Label

Thank you for your attention to this matter. If you have any questions please feel free to contact me at 559-292-5758 or by email at ddawe@sbcglobal.net.

Sincerely,

David H. Dawe,
Consultant for IAP
