Subject: Label Amendment –Minor Label Updates change in

Net Wt content, graphics update, and changing

Manufacturing establishing number

Product Name: PRO-SAN

EPA Registration Number: 71094-1 Application Date: April 12, 2017

Decision Number: 528331

Dear Dr. Lopes:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition,

regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false

Page 2 of 2 EPA Reg. No. 71094-1 Decision No. 528331

or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Lorena Rivas by phone at 703-305-5027, or via email at rivas.lorena@epa.gov.

Sincerely,

Registration Risk Manager Regulatory Management Branch II Antimicrobials Division (7510P) Office of Pesticide Programs

FIRST AID

IF ON EYES: Hold eyes open and rinse slowly and gently with water for 10-20 minutes. Remove contact lenses, if present after first 5 minutes and then continue rinsing. Call a Poison Control Center or a Doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Get medical attention if irritation persists.

IF SWALLOWED: Have the person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Call a Poison Control Center or a Physician. Note to Physician: Gastric lavage is contraindicated because of mucosal damage.

IF INHALED: Move the person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible; Call a physician for further treatment advice.

Have the product container or label with you when calling a physician. Emergencies Call the poison control center 1-800-222-1222

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner

CIRCULATON CLEANING & SANITIZING OF EQUIPMENT (Soft Ice Cream, Juice,

and Vending Machines):

CLEANING STEP: 1. Flush system with clean, warm water. 2. Disassemble parts needing manual cleaning. 3. Clean using a 1% (1 pouch/8 gal) – 2% (1 pouch/4 gal) solution of PRO-SAN* prepared by stirring the powder in water 4. Assemble circulating parts. 5. Fill system to capacity. 6. Circulate for 5-10 minutes. 7. Drain

SANITIZING STEP: 1. Sanitize with a fresh solution of 1% PRO-SAN® prepared by stirring contents of one pouch to dissolve in 8 gallons of water. 2. Fill equipment to capacity and re-circulate for 2-5 minutes. 3. Drain and allow to air dry (Used PRO-SAN® solution may be reused for cleaning equipment but not for sanitizing. Test sanitizer solution to maintain a pH of 2.2-2.8. Discard sanitizer if it becomes visibly dirty or its pH increases.)

FOR SANITIZING HARD SURFACES: 1. Spray to thoroughly wet the surface. Leave sanitizer on the surface for at least 1 minute. 2. Drain the surface and allow to air dry or wipe dry with a fresh clean towel. No water rinse is required. 3. Use clean towel saturated with sanitizer on surfaces that cannot be sprayed.

PRECAUTIONARY STATEMENTS: DANGER. HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

Corrosive causes irreversible eye damage. Do not get into eyes. Wear goggles or safety glasses. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum, suing to boace or using the toilet. Avoid breathing dust. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

Note: An acidic product. Do not mix with bleach or chlorinated products as toxic or irritating chlorine fumes may be released.
